*****Appropriate for individuals working with the growing population of students with autism to gain knowledge of definitions, needs, and evidence-based interventions.*****

In 2008, the Legislature enacted Chapter 484 of the Laws of 2008, which further amends Sections 3004(4) and (5) of the Education Law by extending the timeframe for those applying for a teaching certificate or license as a special education teacher to complete such course work or training from February 2, 2007 to September 2, 2009. The new legislation also clarifies that school administrators must complete training in the needs of autistic children as soon as practicable after their assignment. Certified school administrators or supervisors assigned to serve as special education administrators prior to September 2, 2009 are required to have enhanced training in the needs of children with autism by such date.
