

Welcome Back Safety Tips
C.W. Post Campus Department of Public Safety

- Remember to close and lock your windows by using the safety latch; close your curtains when you are leaving your room. If your window is not closing or locking properly please let your RA or RHD know immediately.
- Check to make sure that your closes and locks behind you each time you exit your room.
- DO NOT give out your room code to neighbors, friends, or boyfriends- your code is yours and yours alone. If you think someone has your room code please let the RHD know so that it can be changed.
- Do not post signs on your door saying that you are not in your room.
- Lock away valuable items such as iPods, laptops, jewelry ect. in a non-visible location when you leave your room.
- Report any suspicious behavior to a RA, RHD or to Public Safety immediately.

Call **Public Safety** at **x2222** for emergencies or at x2214 for non emergencies
