This is a program for gifted children with noticeable academic and intellectual promise. While guidelines are not fixed, gifted children are usually identified by high scores on standardized I.Q. tests, strong personal interests and superior school performance. Students accepted into the program in past semesters have usually shared most or all of the following characteristics: **scores of 130 or more on I.Q. tests, high scores on achievement tests, and exceptional school performance** (e.g., pupils in grades 4 and higher are generally working a minimum of two years above grade level).

**For all applicants, we require a brief narrative emphasizing the child's social and emotional maturity, as well as an indication of the child's math and reading levels.**

As we do not wish to place a child in a group in which she/he cannot cope, we welcome your comments.
