

## LIU Brooklyn MSW Advanced Standing

The Advanced Standing Program provides students who earned an undergraduate degree in social work from a CSWE accredited baccalaureate program, up to one full year of credit towards their MSW.

All LIU MSW advanced standing students must complete an additional course which serves as a bridge from baccalaureate to graduate study. The course, SWK 614, entitled *Advanced Principles of Administrative and Clinical Practice within an Interdisciplinary Context*, includes advanced clinical content in individual and family systems of practice and also an introduction to role theory and its application in organizational and community systems of practice. SWK 614 ensures that students who are eligible for advanced status will have the same orientation as students who have completed the foundation year of our graduate program.
