

LONG ISLAND UNIVERSITY

FIRE EXTINGUISHER STANDARD POLICY

PURPOSE

To ensure that the University's Facilities Service Operations adhere to all applicable Federal, State and Local requirements related to compliance with the use of fire extinguishers.

STATEMENT OF POLICY

Facilities Service Operations will implement and maintain Fire Extinguishing Equipment that meets the requisite NFPA fire control standards; as well as, other regulatory agencies that comply with fire prevention requirements for the use of such equipment.

PROCEDURES

The Facilities Service Operations organization maintains all fire extinguishing equipment throughout all of its campuses. Some exceptions to the standard may include areas where an alternate size and/or type of fire extinguishers are required; such as food production areas.

Designated by certified University Fire Safety Officers, water extinguishers and or ABC-type fire extinguishers will be located throughout all University campuses as per proper NFPA fire prevention requirements.

DEFINITIONS

NFPA: National Fire Protection Association
