LIU Hudson

2014-2015
Graduate Bulletin

Rockland ▲ Westchester ▲ West Point Education Center
Notice to Students: The information in this publication is accurate as of September 1, 2014. However, circumstances may require that a given course be withdrawn or alternate offerings be made. Therefore, LIU reserves the right to amend the courses described herein and cannot guarantee enrollment into any specific course section. All applicants are reminded that the University is subject to policies promulgated by its Board of Trustees, as well as New York State and federal regulation. The University therefore reserves the right to effect changes in the curriculum, administration, tuition and fees, academic schedule, program offerings and other phases of school activity, at any time, without prior notice.

The University assumes no liability for interruption of classes or other instructional activities due to fire, flood, strike, war or other force majeure. The University expects each student to be knowledgeable about the information presented in this bulletin and other official publications pertaining to his/her course of study and campus life. For additional information or specific degree requirements, prospective students should call the campus Admissions Office. Registered students should speak with their advisors.

Long Island University (LIU) is one of America’s largest and most comprehensive private universities with locations and programs spanning the New York metropolitan area, overseas and online. World-class faculty, small classes and résumé-building hands-on learning experiences are the hallmarks of an LIU education.

The University offers nearly 500 academic programs and educates over 24,000 students in degree-credit and continuing education programs in Brooklyn, Brookville (LIU Post), Brentwood, Riverhead, and Rockland and Westchester (LIU Hudson). Its international unit, LIU Global, provides a wide range of study abroad options at overseas centers in China and Costa Rica, and through programs in Australia, South Africa, Taiwan, Thailand, Turkey and, beginning in 2015, Europe.

The accomplishments of more than 191,000 living alumni are a testament to the success of LIU’s mission of “Access and Excellence.” The institution also provides enrichment for students and neighboring communities, including the excitement of NCAA Division I and II athletics, internationally acclaimed arts programming at Tilles Center for the Performing Arts and the nationally renowned George Polk Awards in journalism.

Accreditation and Program Registration

LIU is accredited by the Commission on Higher Education of the Middle States Association of Colleges and Schools, 3624 Market Street, Philadelphia, PA 19104, (215) 662-5606. The Commission on Higher Education is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation. The degree and certificate programs also are approved and registered by the New York State Department of Education.
CAMPUSES OF LIU

The Residential Campuses

LIU Brooklyn

Located in the heart of downtown Brooklyn’s thriving Tech Triangle, LIU Brooklyn provides students with experiential learning opportunities reflecting the entrepreneurial urban community it serves. Distinctive programs encompass the arts and media, the natural sciences, business, social policy, urban education, the health professions, pharmacy, and the health sciences.

Founded in 1926, LIU Brooklyn is the original unit of Long Island University. Its beautifully landscaped, 11-acre campus is a self-contained urban oasis, steps away from world-class arts and entertainment venues like Brooklyn Academy of Music and the Barclays Center, as well as the hip restaurants and cafes of Fort Greene. Just a 10-minute subway ride from the professional and cultural opportunities of Manhattan, the vibrant campus includes residence halls for more than 1,100 students.

LIU Brooklyn offers nearly 160 associate, undergraduate, graduate, doctoral, and certificate programs, including Ph.D. programs in clinical psychology and pharmaceutics, the D.P.T. in physical therapy, and the Pharm.D. in pharmacy. Serving a diverse student body, its academic units include the Richard L. Conolly College of Liberal Arts and Sciences; the School of Business, Public Administration and Information Sciences; the School of Education; the Harriet Rothkopf Heilbrunn School of Nursing; the School of Health Professions; LIU Pharmacy (the Arnold & Marie Schwartz College of Pharmacy and Health Sciences); and the School of Continuing Studies. The campus is known for its nationally recognized Honors Program, which was the first of its kind in the country and emphasizes a holistic, liberal arts background.

LIU Brooklyn has a deeply rooted tradition of athletic excellence. The basketball teams of the 1930s captured two national championships, and the campus’ success in sports has continued over the decades with numerous Northeast Conference championships. Over the last 10 years, the Blackbirds have won 34 NEC titles, including 12 in the last three seasons. The campus currently fields 18 NCAA Division I teams.

The $45-million Steinberg Wellness Center, which features an NCAA-regulation swimming pool, a 2,500-seat arena, state-of-the-art workout facilities and a rooftop track, serves the campus and the surrounding community, and the Cyber Café provides a high-tech hot spot for students and faculty members to meet and eat.

LIU Post

Twenty-five miles east of New York City on Long Island’s historic Gold Coast, LIU Post is a leader in cultivating the entrepreneurial spirit in our students through innovative collaborations, partnerships, and student-run businesses. The university, which offers a small-school environment, but with the access and resources of a major metropolitan university, includes five schools of study: the College of Education, Information and Technology; the College of Liberal Arts and Sciences; the College of Management; the School of Health Professions and Nursing; and School of Visual and Performing Arts.

The scenic, scholarly campus is home to the Steinberg Museum of Art at Hillwood, the renowned Tilles Center for the Performing Arts, and WCWP-FM Radio. In addition, LIU Post offers the Ph.D. in information studies, the Psy.D. in clinical psychology, and the Ed.D. in interdisciplinary educational studies.

The campus was established on the former estate of cereal heiress Marjorie Merriweather Post in 1954 to accommodate the growing educational needs of Nassau County following World War II. Ranked a “Best Regional University,” by U.S. News and World Report, LIU Post offers its full-time, part-time, and non-credit students a comprehensive range of nearly 200 associate, undergraduate, graduate, and doctoral degree programs and certificates. In addition, the campus offers college credit courses to high school students in area schools.

LIU Post is recognized as one of the nation’s most beautiful academic settings, with sprawling green lawns, horse trails, and elegant red-brick academic buildings. The vibrant campus life includes residence halls for more than 1,600 students. The campus’ award-winning cooperative education program is nationally renowned for its extensive career counseling and job placement services.

Twenty-two NCAA men’s and women’s sports teams, which recently earned top ranking in Division II sports, take advantage of LIU Post’s 70 acres of playing fields, including the new Bethpage Federal Credit Union Stadium. Clubs, fraternities, and sororities provide many other outlets for student activities. LIU Post's $18-million Pratt Recreation Center is a state-of-the-art health and fitness facility featuring an eight-lane swimming pool, three full-size basketball courts, racquetball courts, and an elevated jogging track.
LIU Brentwood

Since 1959, LIU Brentwood has served the diverse communities of western Suffolk County with premier undergraduate and graduate programs. Conveniently located on the Michael J. Grant Campus of Suffolk Community College, it offers access to a full range of amenities, including a state-of-the-art library and computer resources, as well as personalized academic advisement and support services. Since LIU Brentwood is primarily a teaching institution, classroom instruction is its top priority. While most faculty members are involved in research, scholarly writing, or creative activities appropriate to their discipline, all are measured against the highest standards of teaching excellence. Some programs require completing coursework at another LIU campus.

LIU Hudson

For more than a quarter of a century, Long Island University has been offering graduate degree and certificate programs in Rockland and Westchester Counties. LIU Hudson at Rockland is conveniently located near the Palisades Parkway in Orangeburg, N.Y., just two miles from the New Jersey border. LIU Hudson at Westchester is located in a state-of-the-art facility on the grounds of Purchase College, which features high-tech classrooms designed for adult learners. The Rockland and Westchester centers boast technologically advanced library resources and mainframe-networked computer labs, and offer small classes with personalized instruction delivered by full-time and adjunct faculty members who bring a wealth of practical experience and an understanding of career trends to the classroom.

Students enroll as degree candidates or as non-degree students who wish to pursue graduate courses for personal enrichment or professional advancement. Most classes in Rockland and Westchester are held in the late afternoons, in the evenings and on weekends to meet the scheduling needs of working adults. Program offerings include: business (M.B.A. and/or advanced certificates in health care sector management and cyber security for business professionals); health or public administration (M.P.A. and advanced certificate in long term care); educational leadership (M.S.Ed. and/or advanced certificate); education (M.S.Ed. and/or advanced certificate) in the areas of childhood – grades 1-6, early childhood, middle childhood and adolescence – grades 5-12, special education, autism, literacy, bilingual, TESOL, bilingual extension, gifted extension, writing and reading, school counseling and school psychology; marriage and family therapy (M.S.); mental health counseling (M.S.); and pharmaceutics (M.S.) with specializations in industrial pharmacy and cosmetic science.

LIU Riverhead

LIU Riverhead offers high-quality undergraduate and graduate courses and programs to residents of Long Island’s East End. Conveniently located on Suffolk County Community College’s Eastern Campus, just 10 minutes from exit 70 on the Long Island Expressway, it provides working adults and recent baccalaureate graduates with the opportunity to pursue a private education in conveniently scheduled day and evening programs.

Offerings include the upper division B.S. in childhood education (grades 1-6), the upper division B.A. in communication studies - new media, the M.S. in childhood education (grades 1 – 6), the M.S. in literacy education (birth – grade 6), the M.S. in teaching students with disabilities (grades 1 – 6 or generalist grades 7 – 12) and an advanced certificate in applied behavior analysis. In addition, an M.S. in homeland security management and advanced certificates in homeland security management and cyber security policy are offered fully online. The Homeland Security Management Institute features comprehensive curricula designed by professionals for professionals. Faculty members and guest lecturers include some of the top names in law enforcement, counterterrorism and government.
ABOUT LIU HUDSON

Statement of Mission

LIU Hudson’s ongoing mission is to build upon the strengths of the campuses, maintaining and supporting programs at a high level of academic excellence, offering innovative graduate programs to meet the professional and personal needs of the region and encouraging multicultural outreach to provide access to quality instruction to people from all backgrounds.

Overview

Central to the success and evolution of LIU Hudson has been the consistent availability of a distinguished and seasoned faculty whose members engage and challenge our students. The campuses’ faculty are joined by real-world practitioners from the business, education and professional communities. Faculty members are engaged in ongoing scholarly activities consistent with the scholarship of teaching. They are active members and leaders of a variety of professional organizations who present at regional and national conferences, publish, and involve themselves in community and professional outreach efforts.

This diverse faculty, braced by strong university-wide support, and the overwhelming enthusiasm of our students and several thousand alumni, have contributed to and shaped our growth and supportive atmosphere. Most LIU Hudson students are fully employed and attend evening classes, generally on a part-time basis. Year-round course schedules are designed to accommodate this student profile. Responsiveness to the academic and pragmatic needs of our students is fundamental to our mission.

Since their inception, LIU Hudson at Rockland and Westchester, and the West Point Education Center have provided high-quality programs in a variety of disciplines that encourage independent thought and advance academic growth in a career-oriented environment. Curricula are designed to help the student acquire and refine professional skills, as well as to increase appreciation and understanding of cultural values. The academic quality of all programs is guided by our program directors and overseen by a committed and expert faculty.

University Policies

Policy on Non-Discrimination

LIU does not discriminate on the basis of sex, sexual orientation, race, color, creed, national origin, religion, age, handicap or political belief, in any of its educational programs and activities, including employment practices and in policies relating to recruitment and admission of students.

Policy on Non-Sexual Harassment

The university officers share the universally held belief that a proper academic/employment environment cannot be maintained when members of our community are subject to sexual harassment. Thus, the officers reaffirm the university’s policy that strictly and absolutely forbids the sexual harassment of any student or employee.

DIRECTIONS TO LIU HUDSON AT ROCKLAND

LIU Hudson at Rockland
70 Route 340
Orangeburg, N.Y. 10962

From Tappan Zee Bridge (Traveling North):
Take the first exit off the bridge on the Thruway (exit 10), and get on Route 9W, South. Follow Route 9Wto the first traffic light (Lawrence Park Condominiums on the right). Bear right down the hill to a stop sign. Make a right turn onto Route 340 and proceed for about one mile. The campus will be on the left.

From Spring Valley or New City
Spring Valley: See directions from NY State Thruway.
New City: See directions from Palisades Parkway.

From Palisades Parkway:
Take PIP north to Exit 5N Orangeburg. Travel approximately 1/4 mile to Route 340. At the light make a right turn, going down a steep hill. Travel one block and at the next light make a right turn on Route 340. Continue for 1 mile to the campus on the left side.

From Eastern Bergen County:
Take Route 505 Livingston Ave. north which becomes Route 303 in New York. Travel on Route 303 for approximately 4 miles to Route 340. At the light make a right and the campus is 1/2 mile ahead on the right side.

From Route 9W:
Take Route 9W north across New York border. Proceed for approximately 2 miles to Route 340. At the light, make a left turn, going down a steep hill. Travel one block and at the next light make a right turn on Route 340. Continue for 1 mile to the campus on the left side.

From Montvale, Park Ridge, Westwood:
Travel north on Kinderkamack Road crossing the New York border where the road changes to Route 304. Proceed north for two miles to Central Ave. in Pearl River. Make a right on Central Ave. and cross railroad tracks. At the light make a right on South Main Street. Proceed on South Main Street which becomes Veterans Highway, passing the Blue Hill Office Center. Proceed for four miles where the road changes to Orangeburg Road. At the intersection with Route 303, make a right and at the next light make a left on to Route 340. The campus is 1/2 mile ahead on the right.

From the NY State Thruway:
Get off at Exit 12. Travel Route 303 South. Proceed for four miles to Route 340. Turn left on Route 340. The campus is 1/2 mile on the right.

GPS address:
230 Route 340
Sparkill, NY 10976

DIRECTIONS TO LIU HUDSON AT WESTCHESTER

LIU Hudson at Westchester
735 Anderson Hill Road
Purchase, N.Y. 10577

(Follow the red signs to parking lot 2, section E. We are adjacent to the Dance building.)

Parking
Follow the red LIU Hudson at Westchester signs to parking lot W2, section E. The Westchester campus is located past the Continuing Education Building, adjacent to the Dance building.

From New York City, southern Westchester and Long Island
Take the Hutchinson River Parkway, north to Exit 28, Lincoln Avenue. Turn left onto Lincoln Avenue and proceed approximately one mile to Anderson Hill Road (second traffic light). Turn right onto Anderson Hill Road. The campus is immediately on the left.

From Rockland County and northern New Jersey
(via the Tappan Zee Bridge)
Take I-287 (Cross Westchester Expressway) to Exit 8E. Shortly after first traffic light, bear left onto Anderson Hill Road. Proceed approximately 2.5 miles. The campus is on the left, just after intersection at Lincoln Avenue.

From northern Westchester
Take I-684 south to Exit 2 (Route 120), drive over the bridge and turn right onto Route 120 south (Purchase Street). Follow Route 120 south, 3.2 miles to Anderson Hill Road (first traffic light) and turn left. Take Anderson Hill Road to second traffic light. The campus is on the left, just after the intersection at Lincoln Avenue.

From Connecticut, via the Merritt Parkway
(which becomes the Hutchinson River Parkway in New York State)
Proceed south to the New York Exit 28, Lincoln Avenue (note: do not get off at Exit 28 in Connecticut). Turn right onto Lincoln Avenue and proceed approximately one mile to Anderson Hill Road (second traffic light). Turn right onto Anderson Hill Road. The campus is immediately on the left.

From Connecticut, via I-95
Take I-95 south then take I-287 west to Exit 9N (Hutchinson River Parkway). Take Hutchinson River Parkway North to Exit 28, Lincoln Avenue. Turn left onto Lincoln Avenue and proceed approximately one mile to Anderson Hill Road (second traffic light). Turn right onto Anderson Hill Road. The campus is immediately on the left.

By Train
From New York City via rail from Grand Central Station, take the Harlem Line/Metro North to White Plains. Board the Anderson Hill Road bus No. 12 or take a taxi to campus. Alternatively, take the New Haven Line/Metro North to Rye and take a taxi to campus.

By Bus
Take the No. 12 bus northbound from White Plains or southbound from Yorktown, Mount Kisco or Armonk. Buses leave approximately every hour, Monday through Saturday.
LIU Hudson at West Point Education Center is located in the Army Education Center on the grounds of the United States Military Academy, on the west bank of the Hudson River, north of Bear Mountain and south of Newburg. Entrance to the academy is through one of two gates, the Thayer Gate and the Stony Lonesome Gates. Visitors to the West Point Education Center should be advised that they will have their vehicles searched before entering the grounds.

Entrance through the town of Highland Falls is through the Thayer Gate
If you are entering West Point through the Thayer Gates, follow Thayer Road which will eventually turn into Washington Road. Follow Washington to the cemetery and turn right on Buckner Road (at the end of the cemetery and the cemetery will be on your right), The education center is in the building next to Subway.

Entrance from Route 9W is through the Stony Lonesome Gate
If you are entering West Point through Stony Lonesome Gates, you will follow Stony Lonesome Road. At Washington Road make a left and a right at end of cemetery. The education center is in the building next to Subway.
ADMISSION

An application for admission may be obtained by accessing the “Apply Now” button in the upper right hand corner of the landing page at www.liu.edu/hudson or by calling 845-450-7200 for Rockland; 914- 831-2700 for Westchester and 845-446-3818 for West Point, or by visiting any of our locations. A bachelor's degree from an accredited institution, indicating an acceptable academic record, is necessary to be considered for admission to the graduate programs. Additional requirements are described in the sections for each discipline, as well as on the application form. The completed application must be submitted to LIU Hudson along with official transcripts of the student's undergraduate records and any graduate-level records. For more specific information, check the section devoted to each area of study. A non-refundable fee must accompany the application.

New York State Immunization Law

The New York State Health Department requires college and university students born on or after January 1, 1957, to be immunized against measles, mumps and rubella and to submit an Immunization Record Form for Meningococcal. Students born prior to January 1, 1957, only need to submit an Immunization Record Form for Meningococcal. All matriculated students attending the university must show proof of immunization if they wish to register for classes. Proof of immunization must be provided to the Office of Admissions at the time of application. Students who do not provide this proof will not be permitted to register for classes beyond six credits.

Transfer Credit

Graduate courses taken at other institutions prior to admission to LIU may, under certain conditions, be credited to the graduate degree. Permission to transfer such credits must be requested at the time of admission. An official transcript and the published course description must accompany each transfer course request submitted to the program director supervising the area of study to which the student is applying. Generally, six semester hours of credit for courses in which the student has received a grade of B+ or better may, if approved by the appropriate program director, be applied toward a master's degree or as non-degree student credit. Courses completed and the appropriate documents filed with the Office of Admissions. Courses completed by non-degree students, if pertinent to the degree program in which the student has matriculated and if completed within the department's time limit, are generally credited toward the degree.

Classification of Students

All students admitted to the master's programs will be classified as matriculants, limited matriculants or non-degree students. All students must submit evidence of a bachelor's degree and an acceptable record of undergraduate and graduate study as reflected in official transcripts of all colleges and universities attended. Specific programs for GPA required. Attention may be given to grade trends, special areas of academic strength, a record of other completed graduate study, as well as cases in which many years have intervened since the undergraduate degree was conferred. Applicants to programs in the School of Business take the Graduate Management Admissions Test (GMAT). The GMAT may be waived for applicants with significant business experience, which ordinarily includes at least seven years of professional employment after completing an undergraduate degree.

A student will be classified as "matriculated" when accepted into a degree or certificate program. Students admitted with technical or academic deficiencies will be classified as "provisional matriculants" pending fulfillment of conditions. Technical deficiencies must be removed before the end of the first semester of enrollment. Academic deficiencies must be satisfied prior to the completion of a prescribed number of credits in the degree program, or as otherwise specified. Students are in good academic standing so long as they are permitted to continue in attendance in matriculant status.

Non-degree students must meet the same admission standards as those admitted to degree programs. A student in this category may take a limited number of courses for certification, professional advancement, or personal enrichment, but is not classified as a degree-seeking student. Admission as a non-degree student is usually for one semester only and permits registration for a maximum of six credits. Additional courses may be taken upon approval.

A non-degree student is expected to complete all assignments and is graded on the same scale as a matriculated student. If a student subsequently wishes to matriculate, the application process must be completed and the appropriate documents filed with the Office of Admissions. Courses completed by non-degree students, if pertinent to the degree program in which the student has matriculated and if completed within the department's time limit, are generally credited toward the degree.

Students Presenting Foreign Credentials

Applications are welcome from international students who hold the equivalent of an American bachelor's degree. To be considered for admission, international students must supply the following information to the coordinator of Admissions:

1. Official transcripts from all undergraduate schools attended, accompanied by official notarized English translations. Foreign credentials need to be evaluated by one of the evaluation agencies listed below:
   - Education Services, Inc.
     P.O. Box 745, Old Chelsea Station
     New York, NY 10113-0745
     (212) 966-6311
     www.wes.org
   - Globe Languages Services Evaluation Service
     319 Broadway
     New York, NY 10007
     (212) 693-1489
   - Center for Applied Research, Evaluation & Education, Inc.
     P.O. Box 20348
     Long Beach, Calif. 90801
     (310) 430-1105
   - Education Credential Evaluators
     P.O. Box 17499
     Milwaukee, Wisc. 53217
     (414) 964-0477

2. The Test of English as a Foreign Language (TOEFL) is required of students for whom English is not a native language. Information on the examination may be obtained from the Educational Testing Service at Box 899, Princeton, NJ 08541. Proficiency in English must be demonstrated by a score of 500 or above on the TOEFL. On the new computer-based TOEFL test, the admissions requirement is a score of 173 or better.

3. A completed LIU admission application with a non-refundable application fee.

Immigration Requirements

An international student who intends to apply for an F-1 student visa must submit a “Financial Affidavit of Support.” Upon submission and acceptance of all required financial documentation, each eligible student is sent a “Certificate of Eligibility for Non-Immigrant (F-1) Student Status” (also called Form I-20). This form may be used to apply for an F-1 entrance visa to the U.S. issued by American embassies abroad.

Applications from international students must be accompanied by a non-refundable application fee. Upon notification of admission, the student will be required to send a non-refundable deposit of $500.00 which will be applied toward the first semester’s tuition and fees. Upon receipt of the deposit and of a sponsor’s bank statement of financial support, an I-20AB form will be issued which will enable the student to apply for a student visa. Students should not make plans to come to the United States until they receive appropriate non-immigrant forms.

Health insurance coverage is compulsory for all international students and for their dependents. Information pertaining to health insurance coverage will be supplied at the time of application.

Students holding F-1 (student) visas are required by law to be fully matriculated and must be registered for nine credit hours per semester.
Visiting Students

Graduate students who are degree candidates in good standing at other universities may be granted permission to register for courses at LIU Hudson upon filing a non-degree application.

Auditing of Courses

In order to gain necessary background or enhance general knowledge, students may audit graduate courses for no credit. The permission of the program director is required in every case. Laboratory courses, fieldwork and practica may not be audited. The student who wishes to audit must pay half the regular tuition and fees for the course. His or her transcript will show that the course has been audited. Students who audit must submit audit forms at the time of registration.

Veterans

LIU Hudson welcomes applications from veterans and encourages them to take full advantage of their G.I. Bill benefits. Veterans interested in graduate study should consult our website: www.liu.edu/Hudson/FAS/Mil-Vets-Edu.aspx for information.

The contact person for veterans interested in studying at LIU Hudson is Mary Beth Leggett. She may be reached at our additional location, West Point Education Center, 845-446-3818 or marybeth.leggett@liu.edu.
ACADEMIC POLICIES, PROCEDURES AND REGULATIONS

The responsibility for compliance with these policies, procedures and regulations rests entirely with the student.

Course Frequency

Courses are scheduled with sufficient frequency to assure students of timely degree completion. Courses with low enrollment, however, may be cancelled. If a course is not offered or is cancelled, it may be offered on a tutorial basis, with the consent of the program director and dean.

Course Load

Full-time graduate students must register for nine credits in the fall and spring semesters. Permission of the dean or associate dean is necessary if a student wishes to take more than nine credits in the fall or spring semester or more than six credits in one summer session. Non-degree students are normally limited to two courses in a semester, and must reapply each semester.

Residence

Courses taken at another university, after admission to LIU, may not be used for transfer credit unless prior permission is obtained from the appropriate program director and the dean.

Time Limit

Work for the master's degree must be completed within five years of the date of admission to the graduate program, exclusive of time spent in the Armed Forces of the United States, unless the appropriate dean approves an extension in writing. The School Psychology program must be completed within six years. Any courses taken outside the time limit will not count as credits toward the degree unless approved in writing by the appropriate program director and the dean.

Transfer credit will usually be granted only for courses taken within the five-year period prior to admission to a program. Other time limitations may be established by each department.

Waivers

Under some circumstances, specific program course requirements may be waived. Students should contact their program director for information.

Students in the M.B.A. program may be eligible for a waiver of up to 12 credits of general bBusiness core courses. If these requirements are waived, students need not take other coursework to substitute for the waived courses. The total number of credits required to complete the degree is not reduced.

Change of Status

Students admitted as limited matriculants become matriculants upon completion of all conditions of their limited admission and receive a letter to that effect.

Maintenance of Student Standing

It is expected that students will fulfill the requirements for their degrees or advanced certificates by registering over successive semesters either by attending classes or maintaining matriculation. A degree candidate who stops out for one or more semesters must apply to the dean for maintenance of matriculation prior to or during the registration period, if wishing to continue under the requirements in effect when admitted. A maintenance of matriculation fee must be paid during the registration period of each inactive semester (excluding summer sessions). Maintenance of matriculation does not extend the time limit for completion of studies.

Students serving in the Armed Forces of the United States maintain their standing automatically during their time of service. They are, however, required to inform the campus of the dates of entrance into military service and termination of active duty.

Criminal Background and Drug Testing

A criminal conviction and/or the use of illegal drugs may impede or bar your entry into your chosen field of study. Students seeking entrance into many graduate fields of study including counseling, education, and health and human services professions should be aware that a criminal record can result in the refusal of licensing/certification/registration agencies to issue the credential needed to practice in that field of study. Prospective students are urged to contact the pertinent state and/or federal licensing agency to inquire whether a criminal record will have an impact on licensure or certification eligibility.

Many clinical/field experience affiliates now require the completion of criminal background checks and/or drug testing for employees, volunteers and students affiliated with the site. Therefore, students who plan to participate in a clinical/field experience may be asked to undergo a criminal background check, and/or a drug screen. Students should be aware that our clinical/field affiliates can reject or remove a student from the site if a criminal record is discovered or if a drug test is positive. In the event that a student is rejected from a clinical/field site due to information contained in the criminal background check, or drug screen, the student may be unable to complete a required clinical/field experience. In such an event, the student, may be advised to withdraw from the program.

Public Information Policy

The Family Educational Rights and Privacy Act of 1974 specifically provides that a school may provide what is termed "directory information," and only this information, without the student's consent or as provided by the law. Directory information includes the following: the student's name, address, telephone number, date and place of birth, major field of study, dates of attendance, degrees and awards received, and the most previous educational agency or institution attended.

Conduct Committee

Composed of no fewer than four members, two of whom represent academic areas and two of whom represent LIU Hudson administration, the Conduct Committee meets on an as-needed basis if a violation of the Code of Conduct is alleged. After a review of the evidence, and discussion with the parties involved, the committee makes a determination of guilt or innocence and applies an appropriate sanction if necessary. There is no appeal of Conduct Committee determinations.

Grades and Quality Points

Quality-Point Index: The university's quality-point index is employed to determine the average grade of a student. (A) corresponds to an integer number of 4.000, (A-) to 3.667, (B+) to 3.333, (B) to 3.000, (B-) to 2.667, (C+) to 2.333, (C) to 2.000, and (F) to 0.000.

For courses in which the grade of F has been earned, no quality points are assigned. To determine the quality points for a specific course, multiply the corresponding quality points (see above) for the grade received in the course by the number of credits awarded for the course. To determine the total quality points, add all quality points for all courses. To compute the grade point average (GPA), divide the total quality points by the total number of credits, including those of failed courses. The grades W, UW and P are not counted in the GPA computation nor are the grades for courses taken at another college or university.

GPA computations are carried to the third decimal place from which rounding takes place to the second decimal place. For example, a computed GPA of 2.994 will be rounded down to 2.990. A computed GPA of 2.995 will be rounded up to 3.000. On all official LIU transcripts, a GPA will be displayed to three decimal places with the third decimal place always being zero due to rounding.

For example:

In a semester, a student earns an A- in a 4-credit education course (3.667 x 4 = 14.668), a B- in a 3-credit education course (2.667 x 3 = 8.001) and a B in another 3-credit education course (3.000 x 3 = 9.000).

The student has earned 31.669 total quality points based on 10 total credits. Dividing 31.669 by 10 yields a cumulative GPA for this semester of 3.167 before rounding. Based on the rounding policy, the cumulative GPA for this semester will be reported on the student's official LIU transcript as 3.170.

Good Standing

The average of grades earned in the approved program of study may be no less than a B (equivalent to a grade point average of 3.000). Any
course in which a grade below B- is earned will be reviewed by the dean and may have to be repeated. A student whose GPA is below this point has an academic deficiency. Final disposition of such cases is made by the dean after consultation with the appropriate program director.

Students accumulating in excess of nine incomplete (INC) credits may not register for additional courses until their work is completed. Incomplete grades must be completed within one academic year.

A grade of F in any graduate course is grounds for dismissal from LIU Hudson. In all programs, a B average or 3.000 cumulative grade point index is required for awarding of the graduate degree or any advanced certificate. Business Administration awards diplomas "with distinction" to students graduating with an average of 3.500 or better.

Comprehensive Examinations or Capstone Course/Projects

Departments require a comprehensive examination or a capstone course and related project as part of the graduation requirements. Requirements are program specific.

The examination is designed to test the candidate’s knowledge of general concepts as well as his or her area of concentration. Failing the comprehensive on two occasions may result in dismissal from the program. Comprehensive examinations are offered twice a year, in the fall and spring. Information concerning the administration of comprehensive exams is disseminated each semester. MBA or MPA candidates must complete capstone courses as specified in their program plans. Consult the program director for information relating to capstone courses.

Attendance

Attendance by all graduate students must be regular. Attendance requirements in a particular course are at the discretion of the instructor and are announced in the opening class session and printed in the course outline. Responsibility for class attendance rests with the student.

In all cases, the work missed through absence must be made up. However, permission to make up work when a student has been ill is not automatic and is given at the discretion of the instructor.

The university reserves the right to exclude from a graduate program, course or final examination a student whose attendance in classes is unsatisfactory to the instructor, the program director, or the dean.

Academic Conduct

Discipline

Standards for academic and non-academic behavior are delineated in the “Code of Conduct” section of the Student Resource Book for LIU Hudson at Rockland and Westchester and the West Point Education Center. Students are expected to conduct themselves in accordance with the normally accepted standards of academic life. This implies that they will exercise due regard for the rights of others and, in particular, that their behavior will not interfere with the ability of the academic community to carry out its usual academic functions. It also implies that students will observe the usual standards of integrity with regard to the preparation of essays and the taking of examinations. Students are expected to comply with those reasonable rules of procedure promulgated by a faculty member for the conduct of his or her class or by the university for the conduct of its business.

Specifically, students must be aware of not only the performance and intellectual standards of each course, but also of the means acceptable in achieving those goals. Students are expected to study all materials presented and to master them. Students may avail themselves of all sources that will further that mastery: textbooks, library resources, student study sessions, tutoring, study aids, etc. Ultimately, however, the instructor’s judgment of a student's performance is based on the student’s individual demonstration of intellectual achievement and integrity.

Cheating on examinations and plagiarism of any sort are unacceptable and, if proven, are cause for the most severe penalties up to and including suspension or dismissal from the university.

The classroom instructor determines the rules of acceptable student conduct during examinations. Each instructor has the right to insist on procedures to insure the integrity of those examinations in altering seating arrangements, controlling communication among students, restricting the materials available to students during the examination, etc.

If a student is discovered cheating in a classroom examination or written assignment, by crib notes, receiving information from or giving information to a fellow student, using an electronic device, or by any means not stipulated by the rules of the examination, the instructor has the right to confiscate all test materials from the person or persons involved and give the grade of zero for the examination to the person or persons knowingly involved. The instructor has the right to fail these students for the course.

Also, students who submit written or other work provably not their own, or who submit work with sources inadequately acknowledged or with an inadequate system of documentation for a specific course assignment, may be given the grade of zero for the work submitted and a failing grade for the course.

A breach of discipline may result in disciplinary action, including suspension or dismissal. The Academic Oversight Committee (see below) will review the evidence in all such cases.

The activities of a student may, upon occasion, result in violation of state or federal law. Respect for the presumption of innocence requires that the institution not impose academic sanctions for the sole reason that a student is or has been involved in criminal proceedings. The institution may, however, impose its own sanctions to protect the safety of other students, faculty, staff, and property and to safeguard the academic process. If students, in breaking the law, violate institutional regulations, they will be subject to no institutional penalty greater than that which would normally be imposed.

All matters involving criminal activity will, upon approval of the dean, be referred to the appropriate civil authorities for action.

If there is a possibility that testimony or other evidence at an institutional hearing may be subject to disclosure to civil authorities by way of subpoena, the institution's proceedings should be postponed to safeguard the student's right to a fair civil determination.

Student Complaints

Students wishing to dispute or appeal an academic matter are encouraged to pursue the grievance processes identified below. Complaints related to operational matters may be directed to the dean. Students may also file a complaint with the New York State Department of Education in Albany: www.highered.nysed.gov/ocue/complaintform.pdf.

Grievance Procedure

Students at LIU Hudson may expect a scrupulous regard for their rights as students and individuals and should expect to be treated fairly and with courtesy by all members of the academic community. In any matter in which a student feels that his or her rights have been violated, or in matters of serious dispute with members of the faculty or administration, the student should observe the following formal grievance procedure:

1. The student will write out a clear statement of the grievance.
2. The student will submit this statement to the staff member or faculty member involved. The student will be given a written response within five business days.
3. If the student is not satisfied with the response, the student may submit a statement to the appropriate program director. The director will review the matter and provide the student with a written response within five business days.
4. If still not satisfied, the student may submit a formal written statement to the dean, who will review the matter, hear the student, staff or faculty member, where appropriate, and see that proper action is taken.

Academic Oversight Committee

The Academic Oversight Committee (AOC), composed of the dean and no fewer than two program directors, meets at least once each semester, and more frequently if needed. Matters including, but not limited to, allegations of cheating or plagiarism, standards for teaching and learning, questions of professional ethics, and admissions issues or appeals, are routinely brought
before the AOC for a finding.

Requirements for Degrees

The responsibility for fulfilling the requirements for degrees rests entirely with the student. Specific degree requirements vary among the different programs and are described fully in this bulletin. Students generally meet the requirements announced in the graduate bulletin for the academic year in which they were matriculated or readmitted. Students for whom graduation requirements change during their progress toward a degree may, with their dean’s permission, choose requirements in effect at the time of admission or those in effect at the end of the course of study. Requirements for certification by the New York State Education Department are set by that department, and may be altered at any time. If changes in New York State Education Department requirements necessitate changes in degree requirements, graduation requirements may be changed, regardless of a student’s matriculation date.

All degree programs have a required culminating experience: comprehensive examination, project or capstone course. Students may not graduate until they have completed this requirement.

If a student is seeking a second master’s degree, at least 24 graduate credits must be taken in residence. Advanced placement of up to 12 credits may be awarded upon the written recommendation of the program director and the approval of the dean.

Graduation

Degrees are conferred by the university three times per year: in January, May, and September. Students must file an application for degree (available online and at the campuses) by the deadline indicated on the academic calendar. The commencement ceremony is held once yearly, in mid-May. Students who complete their degrees in September or January participate in the commencement ceremony the following May.

Students failing to fulfill all non-academic requirements (payment of outstanding tuition, fees, library obligations, parking fines, etc.) will be denied subsequent services, including but not limited to withholding of diplomas, transcripts, letters of certification, or licensure eligibility until these requirements are met.

Application for Degree

Candidates for degree conferral are expected to file an application well in advance of the expected date for fulfillment of degree requirements. Consult the academic calendar for specific dates. Applications for degree are available online as well as in Rockland, Westchester and at the West Point Education Center. Failure to file an application for degree in a timely manner may result in delayed conferral of the degree.

Withdrawal

Students must initiate formal withdrawal procedures. Failure to do so may result in loss of possible refunds and/or inaccurate records of academic performance. Students may withdraw from one or all courses if they apply officially through LIU Hudson, notify all instructors, complete the required form and get the written permission of the dean. A student registered for a course is considered to be in attendance until the date of his or her official withdrawal. Withdrawal from courses is permissible at any time up to the final examination. The symbol UW is assigned when a student unofficially withdraws from a course. UW is not computed in the student’s average. Students who are on academic probation when they withdraw from courses are not eligible for re-admission without the approval of the dean.

Refunds

A student may make a written request to withdraw from one or more courses before the end of the semester. If the request is approved by the dean, the student will receive a refund as indicated in the “Graduate Tuition and Fees, Withdrawal Policy” section of this bulletin. Late withdrawal can make the student ineligible for any refund. Withdrawal prior to the beginning of the semester or session entitles the student to a complete refund of tuition, excluding applicable deposit or registration fee.

Re-Admission

Students who have not attended classes for one semester during the regular academic year (summer sessions not included), and who have not maintained matriculation are required to apply for re-admission and pay the re-application fee. Such students re-enter under the admissions standards and program requirements in existence at the time of re-entry.

Registrar Services

The official Registrar for LIU Hudson is the Registrar of LIU Brooklyn. Requests for transcripts may be made online or in writing to the Office of the Registrar, LIU Brooklyn. Request forms are available on the campuses or online.
GRADUATE TUITION AND FEES
2014-2015

The university reserves the right to change the fees herein stated at any time without notice. Students are billed for tuition and fees at the time of registration.

The university accepts payment by check, money order, AMEX, VISA, Discover, or MasterCard at the Office of Enrollment Services or online through the student's My LIU account.

For the most up-to-date tuition and fee information, please consult www.liu.edu/sfs/tuition. Scholarships and awards are available to eligible students. Please call 845-450-7200 or 914-831-2703 for additional financial aid information.

2014-2015 Tuition:
Per Credit, Per Semester $1132.00
West Point Military Program (active duty military personnel and dependents only) 622.00

University Fee, per semester:
12 or more credits 867.00
Fewer than 12 credits, per term 434.00

Other Fees:
Application Fee (non-refundable) 50.00
Comprehensive Exam Fee 30.00 to LIU + CPCE fee
Delayed Registration Fee 200.00*
Late Degree Application Fee 50.00
Late Payment Fee 50.00*
Pharmacy Malpractice Insurance Fee 12.00
Maintenance of Matriculation Fee 100.00 (per semester)
TED Comprehensive Exam Fee 50.00
Each Additional Submission 100.00
Returned Check Fee 25.00

Compulsory/Hard Waiver Student Health Insurance Fees:
Annual Plan 1,910.00
Spring Only 1,228.00
Summer Only 536.00

Official Transcripts (on-line, in person, or via mail):
Official Transcripts, per request 7.00
* Will be applied 45 days after due date. $100.00 (second late fee) is applied at the end of the semester; students are notified through My LIU about late fees. Any student who deliberately fails to register, but attends classes with the intention of registering late in the term, will be responsible for paying a delayed registration fee of $200.00.

Withdrawal Policy
If you register for courses and decide not to attend, you must officially withdraw your registration prior to the end of the first week of classes to avoid liability. You can withdraw online using your My LIU account through the first week of the term. After the first week of classes, you must complete an application for withdrawal form and receive official approval from the Office of Enrollment Services on your campus. Non-attendance and/or non-payment do not constitute official withdrawal from the university.

When a student withdraws, the University will refund tuition and fees as indicated in the following schedule.

LIU Institutional Refund Schedule

Time of Withdrawal Fall/Spring terms
Cancellation prior to beginning of term or session Complete refund except for deposit.
During 1st calendar week 100%
During 2nd calendar week 100%
During 3rd calendar week 50%
During 4th calendar week 50%
After 4th week No refund

Time of Withdrawal 3-Week terms
Cancellation prior to beginning of term or session Complete refund except for deposit.
Day 1 of Term 100%
Day 2 of Term 50%
After Day 2 of the Term No refund

Time of Withdrawal 4-, 5- or 6-Week terms
Cancellation prior to beginning of semester or session Complete refund except for deposit.
Day 1 thru 6 of Term 100%
Day 7 thru 13 of Term 50%
After day 13 of the Term No refund

Time of Withdrawal 7- or 8-Week terms
Cancellation prior to beginning of session Complete refund except for deposit.
Day 1 thru 6 of Term 100%
Day 7 thru 13 of Term 50%
After day 13 of the Term No refund

Time of Withdrawal 10- or 12- Week terms
Cancellation prior to beginning of session Complete refund except for deposit.
Day 1 thru 6 of Term 100%
Day 7 thru 13 of Term 50%
After day 13 of the Term No refund

Time of Withdrawal Weekend College
Cancellation prior to beginning of term Complete refund except for deposit.
Day 1 thru 6 of Term 100%
Day 7 thru 13 of Term 50%
After Day 13 of the Term No refund

Time of Withdrawal Short-Term Institutes (3 weeks or less)
Cancellation prior to beginning of first class Complete refund except for deposit.
Day 1 of Term 100%
Day 2 of Term 50%
After Day 2 of the Term No refund

Financial Obligations

Students are liable for all charges incurred at the time of registration. The My LIU account makes it easier than ever to manage financial obligations. To view a current account balance, the student may simply log into his/her My LIU account online at https://my.liu.edu and click on the Account Inquiry link in the Finances section of the Student Center homepage. Students must make acceptable payment arrangements or unofficially withdraw prior to the start of classes to remain in good financial standing. Acceptable payment arrangements include:

• Payment in full
• Approved financial aid covering all charges
• Signed and approved university Payment Plan Agreement Form; or
• Participation in an approved third-party payment agreement

A student who complies with any of the above shall be considered in good financial standing, so long as all terms and conditions are met throughout the term. All payment arrangements must be completely satisfied in accordance with a university authorized payment agreement or fees and/or penalties may be applied. If an account becomes seriously past due and no arrangements are made, the university will refer it to an external collection agency or law firm, where additional fees and penalties may be charged to the account. The university’s policies and procedures governing Student Financial Services can be found online at: www.liu.edu/SFS/Policies.

Payment Plans

LIU offers convenient options to pay an account balance due. The university offers many different payment methods, including check, all credit and debit cards, ACH, money order, and wire transfer.

My LIU: A student may use My LIU to securely pay a balance online at my.liu.edu using a check, credit or debit card by clicking on the Make a Payment link from the Student Center homepage or within the Account Inquiry section. To log into the Payment Gateway, the student should enter his/her My LIU user name and password. From here, the student may also set up an authorized user account so that a relative, guardian, or employer can pay any outstanding balance on the student’s behalf. For assistance with making a payment online, the student may visit the Center for Student Information website at http://csi.liu.edu/MyLIU/StudentFinancial.aspx

Payment by Mail: If paying with a check or money order by mail, please date the payment appropriately and make it payable to Long Island University. Any payment not honored by the bank is subject to a $25 returned item fee and may restrict future payment options to certified check, money order, or credit card. A student may also receive an additional charge from his/her financial institution. The university is not responsible for fees assessed by a bank.

Third Party Payments: The university will temporarily clear student account balances if presented with written authorization from a third party or sponsoring company that intends to make payment on the student's behalf. Students must submit official written authorization and complete a Deferred Payment Plan Agreement Form, along with payment for any remaining balance due. Additional information on third party payments can be found online at www.liu.edu.

Payment Plans

The university offers two basic types of interest-free payment plans to assist students with managing the cost of their education each term:

Monthly Plans are offered to students who make payment arrangements before the start of the term. Monthly Plans provide the most affordable payment options to students and immediately place them in good financial standing. The balance is spread across 4-6 equal monthly installments with at least two payments due prior to the start of the term.

Term Plans are offered to students who need to make payment arrangements at or after the start of the term. Term Plans should only be used as a last resort because the number of installments is limited to 2-3 monthly payments. In addition, the total balance due must be covered by an appropriate combination of approved aid, applied aid, and/or an initial student payment.

The university must approve a signed Payment Plan Agreement Form and receive the first initial payment for an account to remain in good financial standing. There is a $35.00 enrollment fee per term that is due with the first payment.
STUDENT FINANCIAL AID

Through a mix of personal and online services, LIU Hudson supports students in managing all aspects of financing their education. The intent is to help students obtain maximum eligible financial aid awards, provide comprehensive counseling, optimize payment arrangements, disseminate financial aid and billing information clearly and understandably, support the university’s mission of access and excellence, and increase and assist in student retention efforts.

Using the university’s convenient My LIU portal at https://my.liu.edu, the student can view his or her financial aid status and account activity, pay bills online, and view “to do” items and “holds” that lead to completion of required tasks to ensure continued enrollment.

Staff members are available to assist and advise regarding financial aid options. Please call 845-450-7200 or 914-831-2700 to discuss financial aid or to make an in-person appointment.

To be eligible for financial aid programs, graduate students must be registered as at least half-time students. While the university defines half-time as six credits, and full-time status as nine credits per semester, some federal and state financial aid programs require the student to be registered for 12 credits per semester. Continued deferment of undergraduate or graduate loans depends on the source and conditions of each educational loan. Generally, students do not begin repayment on federal student loans until six months after graduation or if enrolled for fewer than six credits per semester. However, repayment provisions may vary with each type of loan.

Students are urged to check with the agencies administering their loans regarding any of the repayment provisions that govern deferment, cancellation, and special benefits as they enter repayment phases of their borrowing.

Application Process

All candidates for federal grant and loan programs, and New York State awards are required to complete the Free Application for Federal Student Aid (FAFSA) each year. The FAFSA should be completed online at www.fafsa.ed.gov. The federal school code for LIU is 002751. Continuing students at LIU must reapply for financial assistance each year.

Applicants for financial aid may expect to be notified of the decision reached by the Office of Financial Aid shortly after their files have been completed. No action will be taken until the candidate has been accepted by the Office of Admissions.

Awards

Federal Loan Programs

The federal government awards financial assistance to students according to a variety of criteria as determined by the United States Department of Education. Benefits from all federal programs are subject to legislative changes. Recipients of federal programs must be U.S. citizens or permanent residents. A detailed listing of Federal programs can be found online at: http://www.liu.edu/Hudson/FAS.

Scholarships

A number of scholarships and awards are available to LIU Hudson students, including, but not limited to, government, corporate, alumni and other awards. All university based scholarships and awards are subject to change without notice. Students should contact the Office of Admissions for the most up-to-date details about available scholarships and awards.

NOTE: Scholarships are only applicable to courses offered at LIU Hudson at Westchester or Rockland or at the West Point Education Center. With the exception of the Deanna Giordano Special Education Scholarship, the MBA and MPA. Textbook Awards, and the Recommend-A-Friend scholarship, students may receive only one scholarship award. Scholarship opportunities apply only to individuals who are not receiving the off-site cohort tuition rate or the military tuition rate.

Veteran Benefits

Veteran benefits provide an accessible path to graduate education, and LIU Hudson joins our nation in repaying students for their military service. With the Post-9/11 GI Bill, education-related benefits, including funds for tuition, housing, books and supplies, are much improved for our veterans.

Additional information can be found online at: http://www.liu.edu/Hudson/FAS/Mil-Vets-Edu/Veterans or by calling: 845-450-7200 or 914-831-2703.

Private Loans

Students who need funding beyond the limits of the Federal Direct Student Loan Program, may wish to consider an alternative loan. These loans are not guaranteed by the federal government and are considered private loans. Interested students are urged to research any lender being considered for this type of funding and to specifically ask such key questions as:

- current interest rates
- co-signer requirements
- repayment options, both in school and out
- whether or not the loan may be sold to another provider

The university does not have a preferred lender for alternative loans; each student has the right to select the educational loan provider of his or her choice. However, there are a number of independent resources that can be used to evaluate and analyze alternative loan options, including http://studentlendinganalytics.com/alternative_loan_options.html.

Students who are considering applying for an alternative loan, may be required to complete the Free Application for Federal Student Aid at www.fafsa.ed.gov in order for the university to certify loan eligibility. Alternative loans that are used to cover prior semesters may require additional information for approval.

Graduate Assistantships

Graduate assistantships are occasionally available at LIU Hudson for matriculated students. Assistantships are provided by the university to assist students in meeting their tuition obligations while, at the same time, meeting the needs of the campus. A three-credit assistantship requires 150 hours of work. Generally, assistantships involve some form of office work and students in good standing may apply for and receive an assistantship more than once while pursuing a degree. More information is available from the Office of Admissions in either Rockland or Westchester.

Terms and Conditions

Awards are not finalized until all requested supporting documentation has been properly submitted and reviewed. All awards are subject to funding levels and appropriations by federal and state agencies. Many aid programs require the student to be matriculated and in attendance at LIU Hudson on at least a half-time basis. LIU reserves the right to adjust or cancel offers of financial assistance if the student makes changes to the FAFSA, adjusts his or her registration status, withdraws from one or more courses, or fails to maintain good academic standing for financial aid purposes. LIU also reserves the right to change the selection criteria, deadlines, and awarding process for academic awards.

Part-time status, for the purpose of scholarship and grant renewal, is defined as carrying and earning a minimum of six credits per semester.

Unless otherwise indicated, university assistance is for tuition charges only. Students are advised to inform LIU of any aid received from outside sources, and awards from LIU may be adjusted if such additional assistance is in excess of estimated need.

Standards for Satisfactory Academic Progress (SAP)

Federal Financial Aid Programs

Federal regulations require students to make satisfactory academic progress (SAP) toward the completion of a degree or Title IV eligible.
advanced certificate program in order to receive Title IV financial aid through the Federal Direct Loan Program. Satisfactory academic progress is measured qualitatively and quantitatively by two components: a student’s cumulative grade point average (GPA) and the number of credits earned relative to enrollment status.

Satisfactory academic progress is measured annually, at the end of the Spring semester, after all grades have been submitted. Students failing to meet the criteria stated below are eligible to appeal this decision if extenuating circumstances played a factor in their academic performance. Examples of such circumstances could include an illness, accident, separation or divorce, or the death of a relative. An appeal must be made in writing to the university and include an explanation of the circumstance(s) that may have adversely affected the student’s ability to meet the academic requirements, and the plan or changes that have occurred which will allow them to make SAP in the future. All appeals must be accompanied by supporting documentation, such as a letter from a doctor or attorney. If an appeal is granted, the student will either be placed on probationary status for one semester during which the student must meet SAP guidelines, or must successfully adhere to an individualized academic plan that was developed for him/her by an academic advisor as part of the appeal process. Failure to meet these criteria will result in loss of eligibility for Title IV funds.

Students wishing to receive Title IV financial aid for summer semesters may have these awards evaluated and offered prior to a determination of SAP. All students receiving summer aid will have their SAP evaluated after all spring grades have been submitted. Students not making adequate progress will have their summer aid cancelled, and the student will be liable for all tuition and fee charges incurred unless an appeal is filed and granted as outlined above.

The criteria below outline the progress that is required for a full time graduate student to be considered in good standing:

**SAP Completion Rate Requirement**
All students must earn at least 67% of their attempted hours. The maximum time frame to complete each degree varies by department and is outlined in the bulletin under the specific degree program.

**SAP GPA Requirement**
Students who have earned fewer than 13 credits must maintain a 2.5 GPA; students who have earned 13 credits or more must maintain a 3.0 GPA

**Notes:**
- Progress standards for part-time students are prorated based upon the criteria above.
- Qualifying transfer credits are counted as both attempted and earned credits but have no effect on the GPA.
- Grades of W (Withdrawal), ABS (Absent), INC (Incomplete), and IF (Incomplete Fail) are counted as credits attempted but not completed, and do not affect the GPA.
- Repeated classes will count only once towards credits completed. A student may receive aid for a repeated class that has been successfully completed once.
- Any departmental requirements that exceed these standards must be adhered to for the purposes of evaluating SAP.
LIU Hudson

SERVICES AND RESOURCES

Office of IT

George Baroudi, Vice President for Information Technology & CIO

IT recognizes the ever-growing need for our students to have the newest, most efficient tools available at their disposal. For all of our programs, students have hardware and software support available both onsite and remotely. This comprehensive information technology infrastructure is essential to ensure that our students, faculty and staff can do their work with ease, have the advantages of cutting-edge technology and quickly and reliably exchange information. Students in our online programs have access to a 24/7 help desk.

Student E-Mails

Each student is assigned a university e-mail address to use for correspondence with university faculty and staff. Students can check their e-mail by logging into https://my.liu.edu. If you have any trouble accessing your My LIU account, please check with the Office of Information Technology at LIU Hudson.

IT Website: http://it.liu.edu
IT Email: it@liu.edu

My LIU

The university’s My LIU portal provides students with convenient access to information about their records including financial aid, billing, grades, class schedule, e-mail account and more. All students will receive a letter from the Office of Student Services with details about how to login to my.liu.edu and access the resources available to them.

Professional Writing Workshop

LIU Hudson offers a low cost professional writing workshop to meet the needs of graduate students whose writing skills need attention. Students are sometimes referred by a faculty member who takes note of a writing issue in class, or at other times self-refer. Those who return to school after some time either in the workforce or building their families may find that their writing skills need to be refined. As a result, LIU Hudson regularly offers a low cost professional writing workshop that combines individualized, small group, and online instruction.

Career Preparation Resources

Each semester, LIU Hudson provides opportunities for students to avail themselves of onsite resume and cover letter writing assistance. Students in Teacher Education and Counseling programs may participate in a mock interview night each semester. Students are given certification and licensure information onsite by faculty program directors, and certification officers. Full time faculty provide job search guidance based upon their years of expertise in the field and their professional networks.

Students With Disabilities

Students with disabilities needing accommodations should contact Dr. Iris Goldberg, chair of the LIU Hudson 504 Committee at 914-831-2710 or at iris.goldberg@liu.edu.

Veteran Services

LIU Hudson has a proud and distinguished history of serving its nation’s military veterans and active duty service members. In fact, citing its help with tuition costs, college credit for military training and on-campus services for veterans, LIU Hudson has been listed as a “Military Friendly School” in G.I. Jobs, a veteran-owned publication that serves former service members.

A supportive community of staff and faculty is dedicated to seeing veterans succeed. To accomplish this mission, LIU Hudson provides the resources needed to pursue educational opportunities while balancing the demands of life both inside and outside the classroom. A team of professionals is ready to offer information about admissions requirements, veterans’ benefits and financial aid; academic and career advising, and other support services.

Mary Beth Leggett is the contact person for veterans interested in studying at LIU Hudson. She may be reached at the West Point Education Center: 845-446-3818 or at marybeth.leggett@liu.edu.

Student Health Insurance

During the 2014-2015 academic year, LIU has partnered with Gallagher Koster and United Health Care to develop a cost-effective Student Health Insurance plan that provides our students and families with robust medical coverage at school, back home, and while traveling or studying abroad. The 2014-2015 Plan is compliant with all phases of the Patient Protection and Affordable Care Act and offers students and their dependents access to a network of doctors, hospitals and pharmacies throughout the country and overseas.

The Student Health Insurance plan is available to all international students, clinical students, residential students, Global college students and intercollegiate athletes. Students are automatically enrolled in the plan but can waive participation online at www.gallagherkoster.com/liu if they have comparable coverage under a family plan or other policy. Students who enter during the spring and summer terms can also participate in the plan with shorter coverage periods, reduced rates, and specific enrollment / waiver deadlines. Voluntary coverage is no longer offered, but assistance in navigating the health care exchanges is provided where necessary.

Beginning on July 1st, students can go to my.liu.edu and click on the “Student Health Insurance” link from the Student Center Home page to enroll in the plan, waive coverage, print temporary ID cards, and file or check claims. Coverage begins on August 15, 2014, which represents the start of the plan year, and extends through August 14, 2015. You can also visit the Gallagher Koster website directly at www.gallagherkoster.com/liu.

Public Safety

At the Rockland campus, public safety and security support is provided by private security for scheduled classes throughout the year. Atlas Security is on site to assist students, faculty and staff with safety issues and concerns and parking issues. The non-emergency number is (845) 540-5405; Atlas Security can be reached at 845-591-7820. The Orangetown Police Department, which can be reached at 845-359-3700, provides another, 24 hour, layer of service and protection.

At the Westchester campus, public safety and security support is provided by the New York State University Police, a full-time law enforcement agency that provides service and protection for the campus and associated facilities 24 hours a day, 7 days a week. University Police are available to assist students, faculty, and staff with public safety issues and concerns, and is charged with enforcing campus parking and other Purchase College policies. There are 44 emergency blue light phones strategically located throughout the campus. These blue light phones are directly connected to the University Police Communications Office.

It is the goal of the University Police to manage a transparent agency that complies with the Federal Student Right-to-Know and Campus Security Act (public law 101-542) that serves the campus community in a professional, caring and compassionate manner. The non-emergency number is (914) 251-6900. The emergency number is (914) 251-6911.

Advisory Committee on Campus Security

In compliance with New York State Education Law Art. 129-A, The Advisory Committee on Campus Security is comprised of six members: two students, two faculty members, and two campus administrators. The purpose of the committee is to review policies and make recommendations regarding educating the campus community with respect to personal safety and crime prevention, sexual assault, domestic violence and stalking; reporting sexual assaults, domestic violence and stalking and assisting victims during investigations. The committee reports annually, in writing, to the chief operating officer of LIU Hudson.
The LIU Libraries system serves a combined total of more than 27,000 students and more than 600 full-time faculty members across residential and regional campuses. The university’s libraries share many online resources that can be accessed from anywhere at any time via remote access including subscriptions to more than 80,000 online journals; 200 online databases; 120,000 electronic books; and 11,000 files of streaming media. These resources may be accessed via the LIU Hudson homepage at http://www.liu.edu/hudson. Collectively, the libraries house approximately 700,000 print books and more than 14,000 non-print media items. The collections of all LIU libraries are listed in LIUCAT, the library catalog. Books, journal articles and other library materials owned by LIU’s libraries not available at a particular campus can be requested through LIUCAT and through the intercampus library loan courier service. Items not available at LIU libraries can also be requested through interlibrary loan and brought to campus or delivered electronically.

Library orientation is provided at new student orientation sessions each semester and information is provided in the LIU Hudson Student Resource Book. LIU Hudson is a member of the Westchester Library Association Consortium which gives Hudson students access to the many resources of the entire Westchester County Library System. Both the Westchester and Rockland sites maintain collections of assessment materials for use by teacher education, school counseling, mental health counseling, school psychology and marriage and family therapy students. Rockland also maintains an up-to-date children’s literature collection used for classroom instruction and literacy and special education practice. In addition, students, faculty, and staff at the Westchester site may also use the services and collections of the SUNY Purchase College Library.
The graduate program in Business Administration provides a solid foundation in the theories and applications required for effective management. The M.B.A. prepares decision-makers who will be able to deal with an ever-changing business environment. It is designed for those who wish to upgrade their professional credentials, whether they are currently employed or aspire to positions of responsibility in business or in such fields as health, government, non-profit organizations and the arts. The M.B.A. program is offered at both the Rockland and Westchester campuses of LIU Hudson. It meets the highest standards in curriculum and instruction, and its schedule and delivery make it a practical undertaking for the part-time student who has work or family responsibilities. All courses are taught by faculty practitioners with advanced academic credentials and extensive experience in their areas of expertise.

The M.B.A. is a 48 credit program with four areas of concentration: finance, management, healthcare sector management and cyber security. In keeping with LIU’s commitment to access and excellence, all courses are offered evenings and weekends in eight-week cycles designed for working professionals.

Special features of the program include:

**Fast Track:** The program can be completed in 24 months or less.

**Practical Orientation:** Students have extensive and direct contact with experienced faculty practitioners, who bring a real-world orientation to the classroom.

**Critical Competencies:** The program focuses on the mastery of skills in communication, teamwork, diversity management, financial analysis, strategic thinking, and leadership, the kinds of vital skills required for effective managerial performance.

**Cohort System:** Students entering the program at the same time will take courses together throughout the 24-month period. This cohort system affords mutual support while fostering team leadership and project management skills. Individual arrangements are made to accommodate different entry points or special scheduling needs.

Prospective students are invited to meet with the M.B.A. program director in a personal interview on-site. A careful assessment of each candidate's educational background, professional experience, and career goals is part of the admissions process and ensures that enrollment is a sound decision for each applicant.

**Inquiries may be directed to:**

**Dr. Kevin R. Nash,** Program Director, Business Administration
914-831-2711 (Westchester); 845-450-5410 (Rockland)  
kevin.nash@liu.edu
Full Matriculant Status Requirements
The standards for admission as a full matriculant into the graduate program are as follows:
• Bachelor's degree from an accredited institution
• Minimum undergraduate GPA of 3.0
• Official transcripts from all colleges and universities previously attended (foreign documents must be accompanied by a certified English translation)
• Two letters of recommendation
• A written statement outlining the applicant's objective for seeking admission to the M.B.A. program
• Current resume
• Official score report of the TOEFL examination, required of all applicants with degrees from foreign colleges or universities

Limited Matriculant Status Requirements
A student admitted with technical or academic deficiencies will be classified as a limited matriculant student. A limited matriculant may enroll for a maximum of 12 credits before applying for full matriculation. If full matriculation status is not attained after nine credits, the student may not enroll for any additional credits in the degree program.

The standards for admission as a limited matriculant are as follows:
• Bachelor's degree from an accredited institution
• Minimum undergraduate GPA of 2.5
• Official transcripts from all colleges and universities previously attended (foreign documents must be accompanied by a certified English translation)
• Two letters of recommendation
• A written statement outlining the applicant's objective for seeking admission to the M.B.A. program.
• Current resume
• Official score report of the TOEFL examination, required of all applicants with degrees from foreign colleges or universities

Reclassification From Limited to Full Matriculant Status
A student admitted as a limited matriculant may achieve full matriculant status by:
• Maintaining a 3.0 cumulative GPA in 9 credits of graduate level courses as a limited matriculant
• Submitting all required documentation

M.B.A. in Business Administration
Degree Requirements
The M.B.A. curriculum has four levels:

General Business Core
Six courses (18 credits) at the 500 level

Advanced Business Core
Five courses (15 credits) at the 600 level

Electives
Four advanced courses (12 credits) at the 700 level

Capstone Courses
One Business Policy course (3 credits), at the 800 level

MBA 632 Marketing Management and Strategy 3.00
MBA 633 Organizational Behavior in a Global Society 3.00

Concentration Electives:
For the Finance or Management Concentration:
Four advanced courses (12 credits) at the 700 level in Management or Finance

For the Health Care Management Concentration:
Four advanced courses (12 credits) at the 700 level in Healthcare Sector Management

For the Cyber Security Concentration:
Four advanced courses (12 credits) at the 700 level in Cyber Security

Capstone Course: One course (3 credits) at the 800 level
HCM 810 Health Care Sector Management Capstone 3.00
OR
MBA 811 Business Policy 3.00

Advanced Certificate in Cyber Security for Business Professionals
The Advanced Certificate in Cyber Security is offered entirely online. The program emphasizes application of the principles of information assurance and compliance utilizing cyber-security controls. Key topics include:
• Risk management
• Regulatory compliance
• Business continuity
• Access control
• E-discovery
• Disaster recovery

The certificate program is ideally suited for professionals in systems management, risk management, accounting and auditing; small business owners and managers; and individuals interested in changing careers.

This program is offered as a 12-credit, 4-course sequence and can be completed in two semesters. Students may also obtain the certificate as a concentration within LIU Hudson's 48-credit M.B.A. program.

Advanced Certificate in Cyber Security - 12 Credits
[Program Code: 34894]
The Fundamentals of Cyber Security:
CYB 700 Principles of Cyber Security for the Business Professional 3.00

CYB 701 Regulatory Compliance & e-Discovery 3.00
Advanced Certificate in Healthcare Sector Management

This graduate program is designed for individuals aspiring to advance to middle- and upper-management positions in the healthcare industry. It develops competencies in:

- finance
- management
- organizational dynamics
- information management systems and
- various other areas critical to the complex and dynamic healthcare field.

Students acquire the tools necessary to manage effectively in a wide range of healthcare organizations.

The Advanced Certificate in Healthcare Sector Management graduate certificate consists of four courses totaling 12 credits and can be completed in two semesters.

Students may also obtain the certificate as a concentration within LIU Hudson's 48-credit M.B.A. program.

Business Administration Courses

General Business Core

GBA 510 Financial Accounting
A study of basic accounting concepts and methods and their significance to management and to the financial analyst. Topics include an introduction to financial statement analysis, the measurement of income and capital, accounting for fixed assets, inventory costing and price level changes, measuring and accounting for corporate debt, corporate investment in securities, and computer applications in accounting. This course does not require previous training in accounting.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

GBA 511 Corporate Financial Management
A study of the methods by which firms and individuals in a risky global environment evaluate stocks, bonds, and investment projects, combine those elements in optimal portfolios, and determine the best level of debt versus equity. The basic tools are risk versus return and the evaluation of future cash flows.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

GBA 512 Principles of Management and Leadership
This course emphasizes the leadership dimensions of business management. Conceptually, it exposes the student to a range of perspectives on management and leadership. It covers the various research approaches to leadership, the roles played by business managers, and the competencies required for effectiveness. Experientially, it helps in assessing one’s own leadership abilities, offers practical training in skills critical to business success, and provides the opportunity to create one’s own Leadership Development Plan.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

GBA 515 Managerial Communications
This course is concerned with improving the way people within organizations communicate. It includes the interpretation and application of organizational communication theory for the working or aspiring manager. Topics include personal communication styles, media and tools for the manager/communicator, organizational communications climate, one-to-one communications, meetings and conferences, speaking before groups, written managerial communications, planning and producing business reports, and advertising managerial communications.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

GBA 516 Business Statistics
An examination of the fundamental principles, concepts and techniques involved in application of probability and statistics to business research and managerial decisions. The range of applications covers such various functional areas such as finance, marketing, accounting, management, economics and production. Topics include descriptive statistics, probability concepts and techniques applicable in risk assessment and decision theory, and statistical inference (estimation and hypothesis testing).
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

GBA 517 Fundamentals of Management Information Systems
A survey analysis of the role of information systems in business strategy. Information systems are shown to be facilitators of market penetration, competitive advantage and organizational change. The material is presented within an integrated framework, portraying information systems as being composed of organization, management and technology elements. Topics include: organizational and technical foundations of information systems; applications of information systems to operational, tactical and strategic decision making; management of information as an organizational resource and various information architectures; emerging new information systems technologies; various approaches to building information systems; and issues related to management of information systems.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

Advanced Business Core

MBA 611 Global Economic Environment of Business
An analysis of the global economy in which business operates today. Attention centers on the key policy issues and major economic forces that affect business activity, and on the tools necessary to evaluate those issues and forces. The former include unemployment, inflation, fiscal policy, budget deficits, monetary policy, the changing financial environment, the role of the U.S. dollar, productivity, and international trade. The tools of analysis include the portfolio approach, post-Keynesian and modern monetarist approaches, rational expectations, and state-of-the-art analysis of saving and investment. The course also explores the role played by U.S. and world financial markets in influencing the domestic and global economic environment.
The student must be in the Hudson Graduate Business Program in order to register for this course.
Credits: 3
Rotating Basis

MBA 614 Operations Management
An analysis and synthesis of important problems encountered in the management operations of a business organization. Analytical methods employed in solving problems such as inventory, queuing, network models, linear programming and PERT are explored. Emphasis is on problem solving and decision making in such areas as investment in operations, production planning, scheduling and control, reliability, and maintenance.
The student must be in the Hudson Graduate Business Program in order to register for this course.
Credits: 3
Rotating Basis

MBA 630 Financial Services and Capital Markets
This course is a survey of money markets, the banking function, investments, and new corporate financing techniques in relation to global macroeconomic activity. Emphasis will be given to understanding the principle forces that shape U.S. and global money and capital markets. Money creation, the demand for money, and the relation of money to inflation and financial flows will be reviewed in a national and international context. Interest rates and their behavior will be examined carefully within the context of offering a broad-based introduction to the financial world, the changing role of competitive financial institutions and the effects of these changes on fiscal and monetary policy.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

MBA 632 Marketing Management and Strategy
This course focuses on strategic planning, problem solving, and management of the marketing function. The principal components of marketing operations, including product development, promotion, pricing and distribution will be discussed, as well as the processes, concepts, and methods of marketing strategy at both the product level and the corporate level. The marketing strategies and management practices of contemporary firms will be examined as they relate to industrial and consumer products and services. The relation between marketing and other business functions will be reviewed as well.
You must be in the Hudson Graduate Business
MBA 633 Organizational Behavior in a Global Society
This course analyzes both the formal and informal aspects of organizational behavior as well as the ethical demands on the business organization for social responsibility. Topics cover issues of human behavior in an organizational context, such as individual patterns of motivation and behavior, norms and values, ethical dilemmas, communication, teamwork, collaboration versus conflict, and group dynamics. Organization-wide issues such as leadership, superior/subordinate relationships, and organizational change are also explored. The moral, legal, and political challenges which arise as a result of conducting business in a global society are discussed.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

Cyber Security Concentration

CYB 700 Principles of Cyber Security for the Business Professional
In this introductory course, students will study the financial management of cyber security, including the creation and implementation of cyber security best practices by deploying developed technologies to avoid risks. Topics will include threats, legal and ethical issues, risk assessment and management, policies and procedures, and business continuity planning particular to finance systems. Students will also explore case projects related to these topics.
Credits: 3
Rotating Basis

CYB 701 Regulatory Compliance & e-Discovery
Regulatory compliance costs firms billions each year. For any organization, there is a significant financial investment in training employees on regulations, administering these training requirements, and ensuring training compliance is constantly up to date. Numerous learning management technology solutions are available today that almost certainly will reduce these management costs and provide a staggering return-on-investment by improving compliance management efficiency. Non-compliance has another set of costs, even beyond the obvious large fines and penalties that may occur. Failure to comply may even lead to firings, lawsuits, public censure, loss of supplier contracts, stock devaluations and even bankruptcy. The major topics covered in this course include law, ethics, company policy, computer crimes, trademarks, copyrights, employment, training and education.
Credits: 3

FIN 702A Money and Capital Market Applications
Study of financial markets as allocators of funds and distributors of risk. Emphasis is given to the roles and functions of financial intermediaries. Theories of financial asset pricing are considered as they help to determine risk and return in competitive markets. The pre-requisites of GBA 510, 511, 514 and FIN 704 are required and the student must be in the Hudson Graduate Business Program in order to register for this course.
Credits: 3
Rotating Basis

FIN 704 Financial Reports Analysis
Survey of the analytical tools and techniques used to evaluate the current financial position of the firm. Financial reports are analyzed for growth potential, solvency, earnings quality, investments, and forecasting implications. Topics include: business and financial trends, proper adjustments of financial data, cash flow forecasting, estimation of debt risk premiums, and identification of likely candidates for acquisition and high bankruptcy risk firms.
The student must be in the Hudson Graduate Business program in order to register for this course.
Credits: 3
Rotating Basis

FIN 705 Securities Analysis
Introduction to the theory and practice of security analysis, including the valuation of individual securities, valuation of the stock market as a whole, portfolio management and investment strategies. Investment risks will be analyzed and measurements of risk, including duration and convexity, will be examined. An introduction to derivative securities and international investments will be included. The pre-requisites of GBA 510, 511, 514 and FIN 704 are required and the student must be in the Hudson Graduate Business program in order to register for this course.
Credits: 3
Rotating Basis

FIN 707 Portfolio Management
This course considers the most effective methods of meeting investment objectives for individual and institutional portfolios (specifically pension funds, endowment funds and mutual funds). Focus will begin with dedicated equity and fixed income portfolios and then progress to asset allocation and investment strategies for mixed portfolios. Alternative techniques for managing risk, including derivatives, will be explored. Portfolio management, implementation and performance measurement will be analyzed and appraised in terms of economic shifts, yield curve changes, tax and legal considerations. The course makes heavy use of computer programs for portfolio management and analysis. Actual individual and institutional portfolios, managed by large and small institutions, will be examined.
The pre-requisites of GBA 510, 511, 514, FIN 704 and FIN 705 are required and the student must be in the Hudson Graduate Business program in order to register for this course.

Finance Concentration

FIN 702A Money and Capital Market Applications
Study of financial markets as allocators of funds and distributors of risk. Emphasis is given to the roles and functions of financial intermediaries. Theories of financial asset pricing are considered as they help to determine risk and return in competitive markets. The pre-requisites of GBA 510, 511, 514 and FIN 704 are required and the student must be in the Hudson Graduate Business Program in order to register for this course.
Credits: 3
Rotating Basis

FIN 704 Financial Reports Analysis
Survey of the analytical tools and techniques used to evaluate the current financial position of the firm. Financial reports are analyzed for growth potential, solvency, earnings quality, investments, and forecasting implications. Topics include: business and financial trends, proper adjustments of financial data, cash flow forecasting, estimation of debt risk premiums, and identification of likely candidates for acquisition and high bankruptcy risk firms.
The student must be in the Hudson Graduate Business program in order to register for this course.
Credits: 3
Rotating Basis

FIN 710 Corporate Mergers and Acquisitions
Study of business enterprise growth through merger and acquisition. Topics include premerger planning and fact finding, legal and accounting considerations, financing aspects, tax and antitrust problems, personnel issues, post merger integration and valuation techniques. International and domestic mergers and acquisitions are considered. Case studies are employed.
The pre-requisites of GBA 510, 511, and 514 are required and the student must be in the Hudson Graduate Business program in order to register for this course.
Health Care Management Concentration

HCM 710 Health Care Sector Organization
This course provides a comprehensive examination of healthcare organizations and systems. Students examine the healthcare sector from the standpoints of payers, providers and suppliers. New developments in the biotechnology, medical device, pharmaceutical, genomic, and healthcare information technology industries are reviewed, along with an introduction to the major healthcare legal issues and policy challenges that face managers in this sector, including adaptation to new federal policy initiatives in such areas as Medicare and Medicaid.
Credits: 3
Rotating Basis

HCM 720 Health Care Sector Finance
This course focuses on the application of financial analysis to decision-making in the healthcare sector. The course will cover a range of topics reflecting the complexity of healthcare finance, such as revenue generation for healthcare institutions, departmental budgeting and monitoring, managed care contracting issues, collective bargaining agreements, financial reimbursement and fee-for-services methodologies, cash flow projections, cost accounting and financial reporting.
Credits: 3
Rotating Basis

HCM 730 Health Care Sector Information Management
The goal of this course is to prepare students to manage and maximally utilize healthcare management information systems to accomplish their professional objectives. Students will understand the role information technology plays in a variety of healthcare processes. The course will address the use of a number of existing core databases, including financials, sales, and human resources. It will examine new information technologies that have been developed specifically for consumer directed healthcare, and other recent industry developments.
Credits: 3
Rotating Basis

HCM 750 Advanced Seminar in Health Care Sector Management
The goal of this course is to deepen the managerial and analytical competencies needed to assess current regulatory, legal, organizational, and financial issues and to ensure that quality healthcare services are delivered to patients and other stakeholders. Based upon an understanding of contemporary healthcare organizations and the dynamic forces in the healthcare industry environment, this course emphasizes the healthcare executive's role in setting management strategy, building a strong management team, and empowering the employee workforce.
Credits: 3
Rotating Basis

Management Concentration

MAN 702 Theories of the Organization
Survey of organizational theories with particular emphasis on goal setting, assessing, achievement and displacement. Topics include: the relationship of authority, role responsibility, organizational structure, design and culture. Students will diagnose organizational functions, analyze deficiencies and determine ways of adapting organizational structure to realize goals.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

MAN 703 Project Analysis and Program Management
Survey of managerial criteria for effective project planning and management. Topics discussed: establishment of objectives, cost benefit analysis, planning methods, organizational concepts, causes of conflict, conflict resolution, and options in allocation of resources.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

MAN 704 Managerial Planning and Control Systems
Formulation of integrated long-range and strategic plans relating to organizational objectives, expense centers, performance centers and investment centers. Also studied are methods of performance measuring and information handling.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

MAN 705 Management Decision Theory
Survey of the decision-making processes and methods for examining, defining, analyzing and solving complex problems. Emphasis is on defining objectives, value systems and methods for identifying and assessing alternative courses of action.
You must be in the Hudson Graduate Business Program in order to enroll for this course.
Credits: 3
Rotating Basis

MAN 706 Human Resource Management
A review of the major areas of human resources administration. Topics include: selection and replacement, compensation, training and development, labor relations and employee services. These activities are viewed from the position of...
both the large and small firm. You must be in the Hudson Graduate Business Program in order to enroll for this course. Credits: 3
Rotating Basis

MAN 724 Organizational Development
Survey of contemporary training and development problems with emphasis on the relationship between development and the organization's personnel decisions. Techniques of personnel training are examined, along with approaches to organizational change. You must be in the Hudson Graduate Business Program in order to enroll for this course. Credits: 3
Rotating Basis

MAN 725 Work People and Productivity
Analysis of the problems of the occupational environment in small and large enterprises. Emphasis on the practical problem-solving that is of immediate concern to the participants. Topics include: survey of new approaches to motivation, attitudes, job satisfaction, job enrichment, monotony, fatigue, working conditions and conflict resolution, quality circles, and productivity. You must be in the Hudson Graduate Business Program in order to enroll for this course. Credits: 3
Rotating Basis

MAN 750 Management Seminar
Limited to advanced MBA students, this seminar offers an opportunity to examine critical issues that arise in the management of business organizations. This course focuses on the special challenges of managing organizational change – a critical core competency for the business organization and the ultimate test of leadership for the business executive. You must be in the Hudson Graduate Business Program in order to enroll for this course. Credits: 3
Rotating Basis

MAN 752 New Venture Creation
Managing and financing a new venture, whether as a new corporate entity or as an independently initiated business of one's own, is both a management and finance challenge of the first order. Tomorrow's business leaders need to develop and understand the entrepreneurial spirit. They need to understand what transpires before, during, and after the decision to create or implement a new venture, be it in a small or larger enterprise. This course equips the student with the skills needed to grasp and implement the general managerial responsibilities required to be a successful venture creator. It also provides training in how to create a business plan, determine ethical decision making, and assess deal valuation. Additionally, the student learns the various resource requirements, finance options, and methods to obtain funding for prospective ventures. The student must be in the Hudson Graduate Business program in order to register for this course. Credits: 3
Cross-Listings: ENT 752, FIN 752, MAN 752
Rotating Basis

Capstone Courses

HCM 810 Health Care Sector Management Capstone
This course, taken in the final semester of the MBA Program, constitutes a practical application of principles learned in the Advanced Seminar (HSM 750). It involves completion of an individual study project in healthcare management based on a real-world problem in healthcare. Under faculty supervision, each student will select a current problem in healthcare – typically within his/her current organization – to examine in detail. Students will be expected to research the issue; draw upon previous coursework in management, organizational behavior, and financial analysis; produce practical strategies to resolve the problem and to implement workable solutions. Students will share progress on their respective projects in class meetings and a written report (in three parts) will be submitted by each as a final requirement for graduation. The prerequisite of HCM 750 is required. Credits: 3
Rotating Basis

MBA 811 Business Policy
An examination of the fields of policy making and management that integrates the work covered in the graduate business curriculum. The viewpoint is that of senior general managers who set company-wide objectives and coordinated departmental policies and activities. As an integrating experience, students are expected to bring their acquired business knowledge to bear on managerial decision-making. Through readings in strategic management, case analyses, and a computer-based simulation, students take the role of executive team members to test their skill in the use of financial, marketing, and management variables in competition with other student teams on the campus and in other universities. Selected guest lecturers and a major written project round out the learning experience. You must be in the Hudson Graduate Business Program in order to enroll for this course. Credits: 3
Rotating Basis
PUBLIIC OR HEALTH ADMINISTRATION

The Public Administration program prepares public service professionals for managerial positions in government, health and non-profit sectors. It is open to students from all undergraduate fields and provides the foundations and advanced applications expected in a graduate program. The program focuses on competencies that employers desire – leadership, ethical decision making, analytical and budgeting expertise, written communication and oral presentation skills. Specialization courses in government, health and non-profit fields with a variety of subtopics provide depth in the student’s area of interest. Focused capstone courses allow students to apply their new competencies in meaningful public or health service projects. The M.P.A. Program offers the Master of Public Administration with tracks in Public Administration and Health Administration, and the Advanced Certificate in Long Term Care.

The program is divided into four parts: an introductory sequence that provides 18 credits of public service sector foundations and skills, followed by 9 credits of focused management topics including human resources, budgeting and financial management, law and accountability. Students then take 9 credits in electives and a required six-credit integrative capstone experience, which culminates in a project.

Inquiries may be directed to:

Dr. Kevin R. Nash, Program Director, Health and Public Administration Programs
845-450-5410
kevin.nash@liu.edu
Students who are either full or limited semester of attendance at LIU Hudson at must be made within the first 30 days in the first automatically granted. Request for transfer credits or project completed. Transfer credits are not course syllabus, a statement about his/her containing an appropriate course description, the student must submit the published bulletin of the course taken at the other institution must for the course and the course was taken within five considered unless a grade of B or better was given be appropriate to the area of Health or Public an accredited graduate school. The courses must

Limited Matriculation Requirements A student whose undergraduate cumulative grade point average is between 2.5 and 2.99 may be granted limited matriculation. To be reclassified as full matriculant, the student must furnish all necessary documentation, complete 12 credits with a grade of B or higher in each course, and demonstrate oral and written English communication skills.

A student with an undergraduate GPA below 2.5, but who has strong letters of recommendation and an expanded statement submitted with the application indicating desire for admission and personal growth, will be reviewed on an individual basis, and may or may not be accepted into the program.

The expanded statement must be in the form of an essay, and must describe the applicant’s accomplishments, explain the low GPA, and offer other justifications for admission. The review may include a personal interview with the program director.

Transfer Credits Up to six transfer credits may be accepted from an accredited graduate school. The courses must be appropriate to the area of Health or Public Administration. Transfer credit will not be considered unless a grade of B or better was given for the course and the course was taken within five years. In the case of a required course, the content of the course taken at the other institution must match the content of the required course. The student must submit the published bulletin containing an appropriate course description, the course syllabus, a statement about his/her accomplishments in the course and the term paper or project completed. Transfer credits are not automatically granted. Request for transfer credits must be made within the first 30 days in the first semester of attendance at LIU Hudson at Rockland.

Students who are either full or limited matriculants or have conditional status must obtain prior approval from the program director to attend course(s) at other universities or at other campuses of LIU. Without such prior approval such courses will not be transferable. Permission and transferability for course(s) taken at another university while in residence at LIU Hudson may be granted only in exceptional cases.

M.P.A. in Health Administration The 42-credit Master of Public Administration degree in Health Care Administration provides the comprehensive curriculum needed to succeed in a highly complex, competitive and ever-changing health care environment. Courses examine both practical and theoretical problems in the field and provide an understanding of a wide range of topics including organizational structures, administrative techniques, policy analysis, and program management.

Advanced Certificate in Long Term Care

By the year 2020, almost 16% of the U.S. population will be over age 65. The current demand is for professionals with knowledge and expertise in aging. In addition the career opportunities are countless with a variety of settings to choose from. The 15-credit Advanced
Certificate in Long Term Care is designed to provide professionals working in agencies and organizations serving aging populations with the specialized knowledge and the skills they need to ensure effective service delivery to these groups.

Admissions Requirements
Candidates for the Certificate in Long Term Care must have a bachelor's degree from an accredited institution, and an acceptable record in undergraduate and other studies as reflected by official transcripts. Each candidate must also meet admission criteria established for the M.P.A. degree program.

Degree Requirements
Awarding of Certificate requires successful completion of five (5) courses. Candidates who already have an M.P.A. degree may apply up to three (3) courses (9 credits) towards the certificate.

Note: When HAD 709, HAD 710, HAD 711, HAD 602, HAD 603 are taken as part of the total Health Care Administration curriculum, program graduates should meet the educational requirements for eligibility to take the state board examination for a Nursing Home Administrator's license.

Public and Health Administration Courses

All courses are grouped by major code designations:
MPA – General Core Courses
HAD – Health Administration Courses
PAD – Public Administration Courses

Health Administration Courses

HAD 602 Human Resources Administration in Health Care
An exploration of the theories and practices of personnel administration in health service organizations, merit systems, unionism, bureaucratic trends, personnel recruitment, testing, and performance evaluations. Other topics include equal employment opportunity, employee rights, and occupational safety.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3
Rotating Basis

HAD 603 Foundations of Budgeting and Finance in Health Administration
A familiarization with the principles of budgeting and finance in the health sector. Topics include budgetary systems, methods, processes and cycles, preparation, justification. A survey of the various federal prospective payment systems and other current developments in reimbursement methods is presented.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3
Cross-Listings: HAD 603, PAD 603
Rotating Basis

HAD 604 Administrative Responsibilities and the Legal Environment in the Health Care Sector
Consideration of the authority and procedures utilized by health agencies in the administration of their affairs. Analysis of problems of accountability and the reconciliation of the administrative process with medical, political, social statutory and regulatory mandates.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3
Rotating Basis

HAD 701 Hospital Organization
Reviews the organization and management of hospitals within a regional context of primary care. While covering the elements of hospital structure and organization, there will be a focus on problem solving and the development of administrative skills.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3

HAD 707 Thesis Research Consultation and Seminar
In the first semester the student will undertake an advanced study of the methods of research and the analytical and presentation techniques employed in the discipline of Health or Public Administration, together with the preparation of a master's thesis proposal and outline of the thesis.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3
Cross-Listings: HAD 707, PAD 707
Rotating Basis

HAD 708 Thesis in Health Administration
The second semester is spent in the actual writing of the thesis.
Prerequisite: HAD 707.
The prerequisite of HAD 707 is required and the student must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3
Rotating Basis

HAD 709 Legal Aspects in Health Administration
This course focuses on the application of legal principles to the health delivery system. Topics include: hospital code; consents; patients' rights; admission and discharge of patients; malpractice; liability of hospital, physicians and nurses; medical records; immunity of hospitals; medical staff rights and privileges; medical-moral dilemmas relating to abortion, sterilization, and artificial insemination.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3
Rotating Basis

HAD 710 Gerontology: Process of Aging
This course is a survey of gerontology, including theories of aging, health and physiological aspects of aging, psychological and psychiatric problems, family and sex roles of the aged, the middle years, retirement, and institutional placement in long-term care facilities.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3
Rotating Basis

HAD 711 Long-Term Care Administration
In this course students consider the unique organizational and administrative aspects of the various types of long-term facilities as distinct from acute-care hospitals. The course will include the Federal and local special code requirements pertinent to construction, administration, medical-nursing care, and other numerous therapeutic modalities required by the geriatric and convalescent patient.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3

HAD 712 Economics of Health Institutions
This course offers the perspective of health care delivery as an economic activity. Students analyze the determinants of demand for health services, the supply of health resources, and the various approaches to bringing the two into equilibrium. Attention is also given to public involvement in health services in the form of licensure, regulation, financing, and planning.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3
Rotating Basis

HAD 724 Managed Care Administration
This course analyzes the various modalities and the significance, direction and current status of managed care as an expanding organizational component of the health care delivery system. Students will examine organizational models, compensation problems, contracting, quality management, marketing, legal issues and relations with various groups, such as patients, physicians, government and business clients.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3
Rotating Basis

HAD 725 Financial Management of Health Care Institutions
The description and analysis of financial issues on an institutional level are explored. Topics include third-party payment systems, managed care financial planning and contracting, methods of financing and allocation of funds, cash flow and fiscal management, systems of cost control and financial decision making.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3
Rotating Basis

HAD 740 Current Issues in Health Administration
A special topic course exploring selected themes, current developments, and emerging issues in health administration.
General Core Courses

MPA 501 Principles of Public Administration
This course explores the fundamentals of public administration, including organization and management concepts, and the political process. The origin, growth and interrelationships in the public sector are discussed. This discussion falls within the broader context of public policy processes, with special attention to the topics of bureaucracy and intergovernmental relations.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 502 Organizational Theory and Behavior
An analysis of organizational theories with emphasis on the informal and formal aspects of the administrative process. Topics include individual behavior patterns, group dynamics, communication, motivation, decision-making, and leadership as they relate to the public and health care sectors.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 503 Economic Environment and the Public Sector
An examination of the role of the public sector in economic decision-making. The nature of public goods is described as it relates to the allocation, stabilization, and distribution functions of the economic system. The role of private investment, relations between government and business, and the use of national income accounts are examined. Opposing views about the reasons, methods and institutions influencing governmental regulation, fiscal and monetary policy and action are presented.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 505 Analytical Methods
This course is an introduction to the methods, tools and uses of applied research. The course surveys basic data gathering, analytical concepts and techniques as they apply to administrative problems. Skills and issues related to research are also considered.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 507 The Policy Process in Health Care and Public Administration
This course is an analysis of the policy process in terms of the development and implementation of programs as they relate to the health care and public sectors. The impact of special interests is examined as an integral part of the process. A variety of timely subject/case studies are explored.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 550 Computer Applications
This course equips the student to use computerized database management systems and statistical packages. The student gains hands-on experience with both microcomputers and mainframe computers. Among the packages used are SPSSX and other varied database management systems. The pre-requisite of MPA 505 is required and the student must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 701 Managerial Communications
This course examines theory and practice in written and oral communication as applied to the public, health and not-for-profit sectors. Students will become adept at report writing, memo writing, correspondence and oral presentations.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 704 Intergovernmental Relations
This course is an analysis of the vertical and horizontal relationships of the national, state and local governments. Topics include the theory of federalism, intergovernmental cooperation and conflict, municipal, state and regional relationships. You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 707 Training and Development
This course is devoted to the kinds of activities and problems encountered by an agency's director of training and development. Such items as the role of the training director in organizational development, the relationship with line managers, the relationship with the president, and the techniques of the training are examined by case studies, lectures and outside speakers.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 708 Work, People and Productivity
This course is experiential. Activities demonstrate the perspectives and conflicts that arise at the various levels of organizations, and suggest strategies for prevention and resolution. Students learn about their own management styles, how to maximize their own performance and those of their employees, peers and supervisors through role-playing, feedback exercises, effective supervision and evaluation techniques.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 710 Labor Relations in the Public Sector
This course examines the interaction of the labor movement with management in the political setting of government. This course also examines collective bargaining in relation to public bodies, and the impact of bargaining on a fiscal budget. Other policy processes as well as the role of the administration are covered and include strategies of bargaining and the role of public opinion.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 712 Managing Diversity in the Workplace
This course examines the role and function played by diversity, civil and human rights and administrative agencies at the federal, state, and local levels. The course analyzes the government response to diversity issues. Topics include a review of current legislation and the respective agencies established to address the problems of discrimination.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 713 Grant Writing and Administration
In this highly experiential course, students locate available federal, state, local and foundation sources of funding for a specific project, write a letter proposal to a foundation or private sector organization, and follow-up with a full grant proposal. Students will adhere to the request for proposal guidelines of a federal, state or local agency. Topics include effective research, creating a plan for the program, elements of a good proposal, components of the proposal package, and strategies for getting a proposal read by a foundation or corporation officer. Administration, evaluation and reporting functions, as well as accountability, are described and discussed.
You must be in the Hudson Graduate MPA Program in order to enroll for this course.
Credits: 3 
Rotating Basis

MPA 777 Critical Issues in the Public and Private Sectors
This course reviews critical issues facing the public and private sectors and their interrelationship.
Noted figures from the public and private sectors present the issues from their perspective.

You must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3
Rotating Basis

MPA 785 Independent Study
The student is expected to research one specific phase of a problem in considerable depth under the supervision of a faculty adviser, and to prepare a well-documented evaluative report expressing his/her own assessment of the impact and significance of the problem and of one or more solutions.

You must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3 to 6
Rotating Basis

MPA 788 Graduate Internship in Administration
An opportunity for students without administrative experience to work in an organization, based upon a plan approved by the head of the program and the agency. Students prepare a substantial research and/or analytical paper concerning their experience and participate in an Internship Seminar.

You must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3 to 6
Rotating Basis

Public Administration Courses

PAD 602 Human Resources Administration in the Public Sector
This course is an exploration of the theories and practices of personnel administration in public sector, including merit systems, unionism, bureaucratic trends, personnel recruitment, testing and performance evaluations. Other topics include equal employment opportunity, employee rights, and occupational safety.

You must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3
Rotating Basis

PAD 603 Foundations of Budgeting and Finance in Health Administration
A familiarization with the principles of budgeting and finance in the health sector. Topics include budgetary systems, methods, processes and cycles, preparation, justification. A survey of the various federal prospective payment systems and other current developments in reimbursement methods is presented.

You must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3
Cross-Listings: HAD 603, PAD 603
Rotating Basis

PAD 604 Administrative Responsibility and the Legal Environment in the Public Sector
Consideration of the authority and procedures utilized by public sector agencies in the administration of their affairs. Analysis of problems of accountability and the reconciliation of the administrative process with political, social statutory and regulatory mandates.

You must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3
Rotating Basis

PAD 707 Thesis Research Consultation and Seminar
In the first semester the student will undertake an advanced study of the methods of research and the analytical and presentation techniques employed in the discipline of Health or Public Administration, together with the preparation of a master's thesis proposal and outline of the thesis.

You must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3
Cross-Listings: HAD 707, PAD 707
Rotating Basis

PAD 708 Thesis in Public Administration
The second semester is spent in the actual writing of the thesis.

The prerequisite of PAD 707 is required and the student must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3
Rotating Basis

PAD 725 Government Regulation of Land Use
This course examines various forms of governmental power (zoning, eminent domain, urban renewal) to regulate the use of land.

You must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3
Rotating Basis

PAD 748 Managing Metropolitan Government
This course examines the politics of changing constituencies and their impact on community participation and city management. This course surveys the management and organization of American metropolitan areas.

You must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3
Rotating Basis

PAD 780 Current Issues in Public Administration
This course is a special topic course exploring selected themes, current developments and emerging issues.

You must be in the Hudson Graduate MPA Program in order to enroll for this course.

Credits: 3
Rotating Basis
LIU Hudson provides a broad range of programs for those seeking credentials and enhanced teaching expertise. Those interested in graduate teacher education programs may have been trained in other fields and now wish to become teachers; they may be teachers seeking a master's degree, professional development, and/or an additional certification; or they may be pursuing an advanced degree directly following an undergraduate experience.

While information in this catalogue provides an overview of LIU Hudson's master's degrees and advanced certificate programs, it is suggested that potential candidates consult with a program director to determine which program or programs might best meet their educational and career objectives. Program directors are full-time faculty members who, by virtue of personalized advising and mentoring, guide candidates through their teacher preparation programs. Through stimulating and rigorous courses of study, as well as a range of clinically rich experiences, LIU faculty ensure that teacher education candidates integrate theory with the realities of the pre-K-12 classroom, achieve high standards of practice and, overall, have the competencies to keep pace with the changes and innovations in their field.

LIU Hudson's Teacher Education programs are nationally accredited by the Teacher Education Accreditation Council (TEAC) an arm of the Council for the Accreditation of Educator Preparation (CAEP). In addition to classroom teaching, LIU Hudson offers programs in School Counseling and School Psychology. Regardless of a student's prior training, the faculty and staff of LIU Hudson offer personalized advising in a caring and supportive environment designed with the adult student in mind.

Inquiries may be directed to:

**Dr. Iris Goldberg**, Program Director, Early Childhood/Childhood  
914-831-2710, iris.goldberg@liu.edu

**Elaine B. Geller**, Director of Field Experience and Outreach (Rockland)  
845-450-5407, elaine.geller@liu.edu

**Dr. Julie G. Cohen**, Director of Field Experience and Outreach (Westchester)  
914-831-2716, julie.cohen@liu.edu

**Dr. Nancy Goldman**, Curriculum and Instruction-Secondary  
845-450-5409, nancy.goldman@liu.edu

**Dr. Helaine W. Marshall**,  
Program Director, TESOL, Bilingual Education, and Languages Other than English  
914-831-2713 and 845-450-5408, helaine.marshall@liu.edu

**Dr. Rebecca Rich**, Program Director, Literacy and Special Education  
914-831-2714, rebecca.rich@liu.edu

**Dr. Janet Simon**, Program Director, Special Education and Adolescence  
914-831-2715, janet.simon@liu.edu
Admission Requirements for All Teacher Education Programs

1. Bachelor's degree from an accredited institution with a minimum GPA of 2.75.
   (In special circumstances an applicant with a lower undergraduate GPA may be admitted as a limited matriculant.)
2. Two professional letters of recommendation
3. A written statement of professional goals

M.S. Ed. Requirement

Students in all M.S. Ed. in Teaching programs must pass the regularly administered Comprehensive Examination. The exam is a degree requirement and should be successfully completed one semester prior to the final semester in the program.

Requirements for those seeking New York State certification

- Certain certifications require specific liberal arts requirements. Students must consult their advisors to determine the requirements that apply for their particular certification(s).
- Certain certifications require underlying certificates. Students must consult their advisors to clarify which underlying certificates are required for their programs.
- All students applying for New York State certification are required to complete 6 hours of DASA (Dignity for All Students Act) training.
- To become certified in special education in New York State students must complete the mandated three hour autism workshop.
- Students must pass all required state exams. The point at which these exams should be taken within any program should be addressed with their advisors.

Note: Students who wish to be certified in any state other than New York, please consult the education department in the appropriate state.

MIDDLE CHILDHOOD (GRADES 5-9) AND ADOLESCENCE (GRADES 7-12) EDUCATION

M.S.Ed. in Middle Childhood English and Adolescence English (Grades 5 - 12)

37 Credits Required
[Program Code: 27331]
Prerequisites:
• A major (or an equivalent 30 credits) in English
• Course in LOTE

Tier I: Core Courses (12 credits)
TED 505 Issues In Education 3.00
TED 510 Introduction to Students With Disabilities 3.00
TED 520 Multicultural Perspectives in Education 3.00
TED 530 Language & Literacy 3.00

Before moving on to Tier II, students must demonstrate proficiency in the following ways:
• Maintain a GPA of 3.0 or above
• Demonstrate competence in writing

Tier II: Methods Courses (19 credits)
TED 545 Promoting Wellness in the Classroom 1.00
TED 550 Teaching Literacy 5-12 3.00
TED 555 Foundations of Middle Childhood Education 3.00
TED 560 Teaching Methods in Middle Childhood and Adolescence: General 3.00
TED 566 Teaching Methods in Middle Childhood and Adolescence: English 3.00
TED 575 Lives Of Adolescents 3.00
TED 6__ Education Elective 3.00

Tier III: Field Experiences (6 credits)
TED 745 Field Experience in Middle Childhood and Adolescence Education 2.00

One of the following: (4 credits)
TED 750 Seminar and Student Teaching: Middle Childhood and Adolescence 4.00

M.S.Ed. in Middle Childhood Social Studies and Adolescence Social Studies (Grades 5 - 12)

37 Credits Required
[Program Code: 27330]
Prerequisite:
• Major or its equivalent, including coursework in economics and government and at least 21 semester hours in the history and geography of the U.S. and the world
• Course in LOTE

Tier I: Core Courses (12 credits)
TED 505 Issues In Education 3.00
TED 510 Introduction to Students With Disabilities 3.00
TED 515 Multicultural Perspectives in Education 3.00
TED 520 Language & Literacy 3.00

Before moving on to Tier II, students must demonstrate proficiency in the following ways:
• Maintain a GPA of 3.0 or above
• Demonstrate competence in writing

Tier II: Methods Courses (19 credits)
TED 545 Promoting Wellness in the Classroom 1.00
TED 550 Teaching Literacy 5-12 3.00
TED 555 Foundations of Middle Childhood Education 3.00
TED 560 Teaching Methods in Middle Childhood and Adolescence Education: General 3.00
TED 567 Teaching Methods in Middle Childhood and Adolescence: Social Studies 3.00
TED 575 Lives Of Adolescents 3.00
TED 6__ Education Elective 3.00

Tier III: Field Experiences (6 credits)
TED 745 Field Experience in Middle Childhood and Adolescence Education 2.00

And one of the following: (4 credits)
TED 750 Seminar and Student Teaching: Middle Childhood and Adolescence 4.00
### M.S.Ed. in Middle Childhood Science and Adolescence Science (Grades 5 - 12)

**37 Credits Required**  
*Program Code: 27161*

**Prerequisites:**
- Major or equivalent in the area of certification (biology, chemistry, earth science or physics)
- Course in LOTE

#### Tier I: Core courses (12 credits)
- TED 505 Issues In Education 3.00
- TED 510 Introduction to Students with Disabilities 3.00
- TED 515 Multicultural Perspectives in Education 3.00
- TED 520 Language & Literacy 3.00

Before moving on to Tier II, students must demonstrate proficiency in the following ways:
- Maintain a GPA of 3.0 or above
- Demonstrate competence in writing

#### Tier II: Methods Courses (19 credits)
- TED 545 Promoting Wellness in the Classroom 1.00
- TED 550 Teaching Literacy and Language Arts 3.00
- TED 555 Foundations of Middle Childhood Education 3.00
- TED 560 Teaching Methods in Middle Childhood and Adolescence Education: General 3.00
- TED 568 Teaching Methods in Middle Childhood and Adolescence: Languages Other Than English 3.00
- TED 650 Second Language Acquisition 3.00
- TED 6__ Education Elective 3.00

#### Tier III: Field Experiences (6 credits)
- TED 745 Field Experience in Middle Childhood and Adolescence Education 2.00

And one of the following:
- TED 750 Seminar and Student Teaching: Middle Childhood and Adolescence 4.00
- TED 751 Seminar and Supervised Teaching: Middle Childhood and Adolescence Education 4.00

---

### M.S.Ed. in Languages Other than English (Grades 5 - 9 and Grades 7 - 12)

**37 Credits Required**  
*Program Code: 28225*

**Prerequisite:**
- A major or its equivalent in each language for which certification is being sought

#### Tier I: Core Courses (12 credits)
- TED 505 Issues In Education 3.00
- TED 510 Introduction to Students with Disabilities 3.00
- TED 520 Language & Literacy 3.00
- TED 575 Lives of Adolescents 3.00

Before moving on to Tier II, students must demonstrate proficiency in the following ways:
- Maintain a GPA of 3.0 or above
- Demonstrate competence in writing

#### Tier II: Methods Courses (19 credits)
- TED 545 Promoting Wellness in the Classroom 1.00
- TED 550 Teaching Literacy 5-12 3.00
- TED 555 Foundations of Middle Childhood Education 3.00
- TED 560 Teaching Methods in Middle Childhood and Adolescence Education: General 3.00
- TED 568 Teaching Methods in Middle Childhood and Adolescence: Languages Other Than English 3.00
- TED 650 Second Language Acquisition 3.00
- TED 6__ Education Elective 3.00

#### Tier III: Field Experiences (6 credits)
- TED 745 Field Experience: Middle Childhood and Adolescence Education 2.00

And one of the following:
- TED 750 Seminar and Student Teaching: Middle Childhood and Adolescence Education 4.00
- TED 751 Seminar and Supervised Teaching: Middle Childhood and Adolescence Education 4.00

---

### M.S.Ed. in Adolescence Education (Grades 7 - 12)

**34 Credits Required**  
*Program Code: 31156*

**Prerequisites:**
- A major or its equivalent (30 credits) in the relevant content area
- Course in LOTE

#### Tier I: Core Courses (12 credits)
- TED 505 Issues in Education 3.00
- TED 510 Students with Disabilities 3.00
- TED 515 Perspectives in Education 3.00
- TED 575 Lives of Adolescents 3.00

Before moving on to Tier II, students must demonstrate proficiency in the following ways:
- Maintain a GPA of 3.0 or above

#### Tier II: Methods Courses (16 credits)
- TED 520 Language and Literacy 3.00
- TED 545 Promoting Wellness in the Classroom 1.00
- TED 550 Teaching Literacy 5-12 3.00
- TED 555 Foundations of Middle Childhood Education 3.00
- TED 560 Teaching Methods in Middle Childhood and Adolescence Education: General 3.00
- TED 568 Teaching Methods in Middle Childhood and Adolescence: Languages Other Than English 3.00
- TED 650 Second Language Acquisition 3.00
- TED 6__ Education Elective 3.00

#### And one of the following: (3 credits)
- TED 566 Teaching Methods - Specific 3.00
- TED 567 Teaching Methods - Specific 3.00
- TED 571 Teaching Methods - Specific 3.00

Field Work Requirement: 50 hours, incorporated into courses.
Teacher Education Courses

TED 500 Lives of Children
This course focuses on the experience of childhood from infancy to pre-adolescence using developmental, historical, and cultural approaches. Students consider different theories of development with implications for learning and instruction. Consideration will be given to the role of culture, gender, disability, race, class, language, and sexual orientation in the process of learning and development.
Credits: 3
Rotating Basis

TED 505 Issues in Education
This course examines the intersection of individuals, families, schools, communities, and society as they exist and interact in a range of settings. Through readings and class discussions, students explore schooling from historical, philosophical, sociological, economic, and political perspectives. Students also investigate how factors such as language ability, socioeconomic class, ethnicity, race, gender, and sexuality influence and shape education.
Credits: 3
Rotating Basis

TED 510 Introduction to Students With Disabilities
This course focuses on the nature and needs of students with a range of disabilities and the effect of these disabilities and needs on learning and behavior. Course participants examine the field of special education including historical perspectives and current practices, legal mandates, assessment and planning procedures, and instructional strategies. Students also explore the uses of technology, instructional as well as assistive, to enhance teaching and learning. They develop skills for collaborating with families as well as with other professionals in order to help students with disabilities attain their highest levels of academic achievement and independence.
Credits: 3
Rotating Basis

TED 511 Critical Topics in Special Education
Designed for those seeking special education certification, this course examines a range of critical topics in special education, e.g., understanding federal and state regulations governing special education; working with students with moderate, severe and multiple disabilities; confronting the challenges of autism. Topics may change from semester to semester to reflect changes in the field.
Credits: 3
Rotating Basis

TED 515 Multicultural Perspectives in Education
This course examines the historical evolution, theories, and practices of multicultural education. Factors of race, ethnicity, culture, language, socioeconomic status, gender, ability, and sexual orientation are explored as they relate to teaching and learning. Students investigate instructional strategies and design curricula that support multicultural education and select and evaluate commercially available multicultural curricula and literature.
Credits: 3
Rotating Basis

TED 516 Learning in Bilingual/Multicultural Settings
This course focuses on the individual, social, cognitive and linguistic nature of bilingualism, including second language acquisition, sociology of language, and the relationship between language and culture. Students also explore the sociopolitical, historical, and legal foundations that have shaped bilingual and multicultural education policies, program models, and teaching and assessment practices. In addition, students develop an understanding of the distinction between language differences and language disability as they examine issues relating to second language learners with diverse learning needs.
Credits: 3
Rotating Basis

TED 520 Language & Literacy
This course of language study focuses on the relationship between oral and written language. Students explore basic principles and processes underlying language development in children, including the key components of language, the biological basis of language, theoretical models of language acquisition, and the social and cultural contexts of language use. Students examine approaches to curriculum development and instruction based on theories of language development, learning processes, motivation, and reading and writing acquisition.
Credits: 3
Rotating Basis

TED 525 Teaching Literacy and Language Arts 1-6
This course focuses on the teaching of literacy in grades 1-6, including methods of reading enrichment and remediation. Students are introduced to theories of literacy development, a variety of approaches for teaching reading, writing, listening and speaking, including strategies for teaching phonological awareness, word recognition, phonics, fluency, vocabulary, comprehension, and building literacy in the content areas. Assessing literacy abilities, organizing and managing the classroom for literacy instruction, and using technology for teaching and learning are also addressed.
Credits: 3
Rotating Basis

TED 530 Teaching Social Studies/The Arts 1-6
This course examines curriculum development, instructional planning, and multiple research-validated instructional strategies for teaching social studies to children within the full range of abilities in the childhood classroom. Students also explore a variety of art forms to integrate arts activities into the curriculum.
Credits: 3
Rotating Basis

TED 535 Teaching Science/Technology 1-6
This course examines curriculum development, instructional planning, and multiple research-validated instructional strategies for teaching science to children within the full range of abilities in the childhood classroom. Students explore the uses of technology in teaching and learning, instructional as well as assistive technology, to acquire information, communicate and, overall, enhance teaching and learning.
Credits: 3
Rotating Basis

TED 540 Teaching Math/Technology 1-6
This course focuses on curriculum development, instructional planning, and multiple research-validated instructional strategies for teaching mathematics to children within the full range of abilities in the childhood classroom, as well as formal and informal methods of assessing mathematical learning. Students also learn to use technology for acquiring mathematical skills and strategies, problem solving, and overall, enhancing teaching and learning.
Credits: 3
Rotating Basis

TED 545 Promoting Wellness in the Classroom
This course focuses on the knowledge and strategies needed by teachers to ensure a safe and nurturing learning environment. Topics include, but are not limited to, means for identifying and reporting suspected child abuse and maltreatment, means for instructing students for the purpose of preventing child abduction, preventing alcohol, tobacco and other drug abuse, providing safety education, providing instruction in fire and arson prevention, and means for the prevention of and intervention in school violence.
Credits: 1
Rotating Basis

TED 550 Teaching Literacy 5-12
This course focuses on the teaching of the literacy skills of listening, speaking, reading and writing at the middle childhood and adolescence education levels, including methods of reading enrichment and remediation. Students are introduced to theories of literacy development, a variety of approaches to teaching literacy, particularly strategies for teaching vocabulary, comprehension, and building literacy in the content areas. Assessing literacy abilities, organizing and managing the classroom for literacy instruction, and using technology for teaching and learning are also addressed.
Credits: 3
Rotating Basis
TED 555 Foundations of Middle Childhood Education
This course explores academic, social, and emotional issues that impact on middle childhood education. Strategies are addressed for fostering motivation, promoting positive social interaction skills, classroom management, assessment, curriculum development, and instruction for students within the full range of abilities, in a middle school environment. Course participants also focus on building collaborative relationships among students, families, and school personnel.
Credits: 3  Rotating Basis

TED 560 Teaching Methods in Middle Childhood and Adolescence Education: General
This course focuses on curriculum approaches, assessment techniques, techniques for classroom management and organization, uses of technology, and research validated instructional strategies appropriate for students within the full range of abilities at the middle childhood and adolescence education levels. Students will explore methods for teaching English language arts, social studies, mathematics and science in inclusive classrooms.
Credits: 3  Rotating Basis

TED 561 Teaching Methods in Adolescence Education
This course focuses on curriculum approaches, assessment techniques, techniques for classroom management and organization, uses of technology, and research validated instructional strategies appropriate for students within the full range of abilities at the adolescence education levels. Course participants examine ways to use technology (assistive and instructional) for both teaching and learning, and become familiar with multiple research validated teaching strategies for students within the full range of abilities at the middle childhood and adolescence levels, to master the learning standards in Social Studies.
Credits: 3  Rotating Basis

TED 560 Teaching Methods in Middle Childhood and Adolescence Languages Other Than English
This course explores approaches to curriculum planning, development, assessment, and instruction for Science at the middle childhood and adolescence education levels. Course participants examine ways to use technology (assistive and instructional), for both teaching and learning, and become familiar with multiple research validated teaching strategies for students within the full range of abilities at the middle childhood and adolescence levels to master the learning standards in Science.
Credits: 3  Rotating Basis

TED 562 Teaching Methods in Middle Childhood and Adolescence: Languages Other Than English
This course focuses on teaching languages other than English in grades 1-6. The course examines curriculum development, formal and informal assessment techniques, and research validated instructional strategies for teaching languages other than English to students within the full range of abilities. Course participants explore approaches to the teaching of listening, speaking, reading, writing, and communicating in a new language, including culturally relevant material for those cultures represented by the target language. Students learn to incorporate interventions for remediation and enrichment as well as the uses of technology to enhance teaching and learning. Field work required.
Credits: 3  Rotating Basis

TED 563 Teaching Methods in Middle Childhood and Adolescence: General
This course focuses on teaching languages other than English to students within the full range of abilities, at the middle childhood and adolescence levels, to master the learning standards in Mathematics.
Credits: 3  Rotating Basis

TED 564 Teaching Methods in Middle Childhood and Adolescence: Social Studies
This course explores approaches to curriculum planning and development, assessment, and instruction for Social Studies at the middle childhood and adolescence education levels. Course participants examine ways to use technology (assistive and instructional) for both teaching and learning, and become familiar with multiple research validated teaching strategies for students within the full range of abilities at the middle childhood and adolescence levels to master the learning standards in Social Studies.
Credits: 3  Rotating Basis

TED 565 Teaching Methods in Middle Childhood and Adolescence: Science
This course explores approaches to curriculum planning and development, assessment, and instruction for Science at the middle childhood and adolescence education levels. Course participants examine ways to use technology (assistive and instructional) for both teaching and learning, and become familiar with multiple research validated teaching strategies for students within the full range of abilities at the middle childhood and adolescence levels to master the learning standards in Science.
Credits: 3  Rotating Basis

TED 566 Teaching Methods in Middle Childhood and Adolescence: English
This course explores approaches to curriculum planning and development, assessment, and instruction for English at the middle childhood and adolescence education levels. Course participants examine ways to use technology (assistive and instructional), for both teaching and learning, and become familiar with multiple research validated teaching strategies for students within the full range of abilities at the middle childhood and adolescence levels to master the learning standards in English.
Credits: 3  Rotating Basis

TED 567 Teaching Methods in Middle Childhood and Adolescence: Social Studies
This course explores approaches to curriculum planning and development, assessment, and instruction for Social Studies at the middle childhood and adolescence education levels. Course participants examine ways to use technology (assistive and instructional) for both teaching and learning, and become familiar with multiple research validated teaching strategies for students within the full range of abilities at the middle childhood and adolescence levels to master the learning standards in Social Studies.
Credits: 3  Rotating Basis

TED 568 Teaching Methods in Middle Childhood and Adolescence Languages Other Than English
This course explores approaches to curriculum planning, development, assessment, and instruction for Science at the middle childhood and adolescence education levels. Course participants examine ways to use technology (assistive and instructional), for both teaching and learning, and become familiar with multiple research validated teaching strategies for students within the full range of abilities at the middle childhood and adolescence levels to master the learning standards in Science.
Credits: 3  Rotating Basis

TED 569 Teaching Languages Other Than English in Childhood
This course focuses on teaching languages other than English in grades 1-6. The course examines curriculum development, formal and informal assessment techniques, and research validated instructional strategies for teaching languages to children within the full range of abilities. Course participants explore approaches to the teaching of listening, speaking, reading, writing, and communicating in a new language, including culturally relevant material for those cultures represented by the target language. Students learn to incorporate interventions for remediation and enrichment as well as the uses of technology to enhance teaching and learning. Field work required.
Credits: 3  Rotating Basis

TED 570 Teaching Languages Other Than English in Childhood
This course focuses on teaching languages other than English to students within the full range of abilities, at the middle childhood and adolescence levels, to master the learning standards in Mathematics.
Credits: 3  Rotating Basis

TED 571 Teaching Methods in Middle Childhood and Adolescence: Mathematics
This course explores approaches to curriculum planning and development, assessment, and instruction for Mathematics at the middle childhood and adolescence education levels. Course participants examine ways to use technology (assistive and instructional), for both teaching and learning, and become familiar with multiple research validated teaching strategies for students within the full range of abilities at the middle childhood and adolescence levels to master the learning standards in Mathematics.
Credits: 3  Rotating Basis

TED 572 Teaching Methods in Middle Childhood and Adolescence: Science
This course explores approaches to curriculum planning and development, assessment, and instruction for Science at the middle childhood and adolescence education levels. Course participants examine ways to use technology (assistive and instructional), for both teaching and learning, and become familiar with multiple research validated teaching strategies for students within the full range of abilities at the middle childhood and adolescence levels to master the learning standards in Science.
Credits: 3  Rotating Basis

TED 573 Lives Of Adolescents
This course focuses on the experiences of pre-adolescents and adolescents from diverse backgrounds with a range of abilities using developmental, historical, and cultural approaches. Theories of development are studied as they apply to the adolescent learner in families, communities, peer groups and schools. Physical, cognitive, socio-emotional and moral domains of development with implications for learning will be studied. Throughout the course, attention will be given to ways in which culture, gender, disability, race, class, language, ethnicity and sexual orientation play roles in the process of learning and development.
Credits: 3  Rotating Basis

TED 600 Introduction to Students with Learning Problems
This course focuses on the nature and needs of children and adolescents with learning disabilities and with other high incidence disabilities that interfere with learning. Students explore historical trends, current issues, definitions, etiological factors, and social/emotional components. They also study the theoretical bases for and practical applications of assessments and interventions.
Credits: 3  Rotating Basis

TED 601 Introduction to Students with Learning and Literacy Problems
This course focuses on the nature and needs of children and adolescents with learning disabilities and with other high incidence disabilities that interfere with the acquisition of literacy skills and strategies. Students explore historical trends, current issues, definitions, etiological factors, and social/emotional components. They also study the theoretical bases for and practical applications of assessments and intervention.
Credits: 3  Rotating Basis

TED 602 Teaching Students with Learning Problems
This course focuses on the nature and needs of children and adolescents with learning disabilities and other high incidence disabilities that interfere with the acquisition of literacy skills and strategies. Students explore historical trends, current issues, definitions, etiological factors, and social/emotional components. They also study the theoretical bases for and practical applications of assessments and intervention.
Credits: 3  Rotating Basis

TED 603 Teaching Students with Learning Problems
This course focuses on curriculum development, planning, and research validated methods for
teaching students with a range of disabilities. In addition, course participants examine the impact of inclusion of students with disabilities on teaching and learning in general education settings, and effective strategies for students with disabilities accessing the general education curriculum.

Credits: 3 Rotating Basis

**TED 610 Assessing Students with Literacy and Learning Problems**
This course focuses on the assessment of children and youth with a range of literacy and/or learning problems. Course participants explore a range of assessment measures and strategies and how to use information gathered through assessment and analysis to plan or modify instruction utilizing an RTI framework. Topics covered include measurement concepts, administering tests and interpreting test data, communicating testing information to parents, caregivers, and school personnel, using testing information for instructional planning, and legal mandates. Students will be required to perform assessments.

Credits: 3 Rotating Basis

**TED 611 Assessing Literacy Skills**
This course explores a range of formal and informal assessment measures used to identify literacy needs and to monitor student progress in literacy. Course participants will study principles of diagnosing reading, writing, and language difficulties, characteristics of formal and informal assessment instruments, the selection and administration of a range of instruments, and the use and communication of the results of literacy assessments.

Credits: 3 Rotating Basis

**TED 612 Assessment for English Language Learners in Special Education**
This course is designed to develop competency in implementing appropriate multidisciplinary assessment techniques for English language learners with disabilities. Students will examine both formal and informal assessment instruments and strategies, and will analyze them in the context of planning for IEP (Individualized Educational Program) objectives. Field work required.

Credits: 3 Rotating Basis

**TED 615 Classroom Management in Inclusive Settings**
This course focuses on theoretical and practical approaches, and research validated intervention strategies for planning, managing, and organizing teaching/learning environments so as to manage behavior of students in inclusive settings and promoting development of positive social interaction skills.

Credits: 3 Rotating Basis

**TED 616 Applied Behavior Analysis for Students with Disabilities**
This course provides information on the basic principles of applied behavior analysis as they pertain to children with special needs. Behavioral techniques will be contrasted with alternative management techniques. Students will learn practical strategies for implementing behavioral management programs in special education settings.

Credits: 3 Rotating Basis

**TED 620 Collaboration in Inclusive Settings**
This course explores the principles of collaboration. It traces the process of collaboration from a conceptual level to practice. Participants examine the interpersonal skills necessary for effective collaboration including communication and problem solving skills. They investigate the pragmatic issues impacting collaboration in educational settings. Various models of collaboration such as consultation, co-teaching and scaffolding as well as partnerships with parents and paraprofessionals are looked at in depth. Collaboration is examined systematically from the perspective of barriers and supports.

Credits: 3 Rotating Basis

**TED 625 Interventions in Reading**
This course examines theories of literacy development and individual differences to form a basis for understanding possible difficulties encountered in mastering literacy skills. Interventions, for all aspects of literacy acquisition, appropriate for students experiencing difficulty are addressed.

Credits: 3 Rotating Basis

**TED 635 Adolescents with Learning Problems**
This course examines the academic and social/emotional needs of adolescents with learning problems while they are in middle and secondary school, and the issues they face, and the competencies they need, as they prepare to transition from school to employment or post-secondary training and adult life. Course participants explore characteristics of these learners, and examine a range of research validated and practical interventions for enhancing academic performance, managing behavior, promoting the development of positive social interaction skills and competencies associated with self-determination. Also addressed is the transition services initiative: its history and legislation, models of service delivery, and strategies for developing linkages among agencies and personnel.

Credits: 3 Rotating Basis

**TED 636 Early Childhood Special Education**
This course explores how various disabilities impact a child's development in key domains such as motor skills, cognitive skills, language skills and social-emotional skills. Various models for providing education to young children with special needs are described, ranging from center-based models to inclusive preschool programs. Emphasis is placed on the importance of collaboration among parents, teachers and other professionals in order to maximize student growth.

Credits: 3 Rotating Basis

**TED 640 Phonological Awareness and Methods of Beginning Reading Instruction**
This course focuses on curriculum development, assessment, and research validated instructional strategies for teaching early literacy skills and strategies, to young children within the full range of abilities.

Credits: 3 Rotating Basis

**TED 641 Curriculum and Methods for Early Childhood Education**
This course examines the evolving early childhood curriculum and looks at ways in which historical antecedents to today's early childhood programs and the framework of developmentally appropriate practice impact contemporary classrooms. Special focus is on the design of curricula that integrate language arts, mathematics, science, instructional and assistive technology, and expressive arts in a holistic framework. Students will examine research validated instructional strategies for teaching students with the full range of abilities.

Credits: 3 Rotating Basis

**TED 642 Observation and Assessment in the Early Childhood Classroom**
This course explores formal and informal methods of assessing student learning, including a variety of observational techniques, with an eye to evaluating one's own instructional practice. Students will develop skill in using information gathered through observation and assessment to plan and modify instruction.

Credits: 3 Rotating Basis

**TED 643 Literacy Instruction through Child and Adolescent Literature**
This course focuses on providing student-centered, developmentally appropriate support for literacy
learning using various literary genres. The goal is to equip professionals with the knowledge and understanding needed to assist in the advancement of the literacy knowledge of children from birth through grade twelve. Methods of using literature to encourage and enrich language development, as well as skill in reading and writing, are presented.

Credits: 3
Rotating Basis

TED 644 Writing and Thinking Skills: An Interdisciplinary Approach
This course focuses on curriculum development and research validated instructional strategies designed to make reading, writing, thinking, and oral language connections. This course is appropriate for teachers working with students of varying abilities at the elementary, middle, and high school levels.

Credits: 3
Rotating Basis

TED 645 Methods of Teaching Writing
This course focuses on curriculum development, formal and informal assessment techniques, and research validated instructional strategies for teaching writing to students within the full range of abilities. Course participants explore approaches to the teaching of writing, particularly the process writing approach, interventions for remediation and enrichment, and the uses of technology to enhance teaching and learning.

Credits: 3
Rotating Basis

TED 646 Literacy through the Arts
This course explores ways of integrating reading, writing and the arts, including literary, visual and performing arts, as well as using the arts and literacy to enrich the lives of children of varying abilities and with diverse linguistic and cultural backgrounds. Students will examine the theory and rationale behind such instruction and develop a variety of pedagogical techniques for classroom implementation.

Credits: 3
Rotating Basis

TED 649 Connecting Reading and Writing
This course focuses on curriculum development, formal and informal assessment techniques, and research validated instructional strategies for making the reading/writing connection. Course participants will have the opportunity to work directly with children and/or adolescents in need of support with literacy skills and strategies.

Credits: 3
Rotating Basis

TED 650 Second Language Acquisition
This course examines the theories of language acquisition and focuses on the factors that influence the acquisition of a second language, including cultural and societal, as well as linguistic variables. Students explore the processes by which a learner develops language proficiency and analyze the stages that naturally occur during these processes. Issues specific to language learning in children, adolescents, and adults will be addressed. Field work required.

Credits: 3
Rotating Basis

TED 655 Fundamentals of Linguistics
This course explores the underlying structure of languages, including phonological, morphological, syntactic, semantic, and discourse patterns. Particular attention is given to those aspects relevant for language teachers.

Credits: 3
Rotating Basis

TED 656 English and Its Structure
In this course students focus on the grammatical structure of English in order to develop curriculum and instructional strategies for the teaching of morphology and syntax to English language learners.

Credits: 3
Rotating Basis

TED 658 Approaches to the Teaching of Students without Prior Schooling
This course examines the cultural and pedagogical issues that influence school learning for a student population, known as SLIFE, Students with Limited or Interrupted Formal Education. The course includes an analysis of research validated approaches to SLIFE curriculum, instruction, and assessment for students K-adult. Field work required.

Credits: 3
Rotating Basis

TED 659 Teaching Content Areas in ESOL Programs
This course examines methods of second language teaching for the presentation of content area material in math, science, social studies and language arts to students who are English language learners. The course includes an analysis of research validated approaches to content area curriculum, instruction, and assessment for students K-12. Field work required.

Credits: 3
Rotating Basis

TED 660 English and Its Structure
This course focuses on the grammatical structure of English in order to develop curriculum and instructional strategies for the teaching of morphology and syntax to English language learners.

Credits: 3
Rotating Basis

TED 663 Methods of Teaching Adult ESL/EFL
This course focuses on research validated instructional strategies, standards-based curriculum development, and formal and informal assessment techniques for teaching English as a second or foreign language to adults. Course participants explore approaches to instruction in a variety of settings, including community based programs, workplace programs, post-secondary programs, and overseas teaching. Field work required.

Credits: 3
Rotating Basis

TED 665 Literacy K-12 in ESOL Programs
This course examines the teaching of the literacy skills of listening, speaking, reading and writing in grades K-12, including methods of reading enrichment and remediation, to students who are English language learners. Field work required.

Credits: 3
Rotating Basis

TED 666 Literacy K-12 in ESOL Programs
This course focuses on curriculum development, instructional planning, and multiple research validated instructional strategies, and surveys a range of commercially available materials appropriate for teaching English language learners. Theories of language learning and methods for integrating them into classroom practice are addressed. Field work required.

Credits: 3
Rotating Basis

TED 667 Curriculum, Instruction, and Assessment in ESOL Programs
This course examines curriculum development, instructional planning, and both formal and informal assessments for programs in English to Speakers of Other Languages (ESOL). The course includes a survey of current state and federal regulations, standards, and assessments regarding the instruction of English learners K-adult. Field work required.

Credits: 3
Rotating Basis

TED 668 Communication Development and Language Disorders in Children with Autism Spectrum Disorder
This course explores the language and communication characteristics of children along the spectrum, the assessment tools used to collect and analyze data, to monitor progress and inform instruction related to language, and the interventions designed to address the range of language and communication needs.

Credits: 3
Rotating Basis

TED 670 Teaching Content Areas in ESOL Programs
This course examines methods of second language teaching for the presentation of content area material in math, science, social studies and language arts to students who are English language learners. The course includes an analysis of research validated approaches to content area curriculum, instruction, and assessment for students K-12. Field work required.

Credits: 3
Rotating Basis

TED 674 Second Language Acquisition
This course examines the theories of language acquisition and focuses on the factors that influence the acquisition of a second language, including cultural and societal, as well as linguistic variables. Students explore the processes by which a learner develops language proficiency and analyze the stages that naturally occur during these processes. Issues specific to language learning in children, adolescents, and adults will be addressed. Field work required.

Credits: 3
Rotating Basis

TED 675 Methods and Materials for TESOL
This course examines curriculum development, instructional planning, and multiple research validated instructional strategies, and surveys a range of commercially available materials appropriate for teaching English language learners. Theories of language learning and methods for integrating them into classroom practice are addressed. Field work required.

Credits: 3
Rotating Basis

TED 676 Instruction in the Native Language Bilingual Programs
This course explores theories of literacy and related teaching practices to develop native language reading, writing, speaking, and listening skills, and to use native language in teaching the content areas (mathematics, science, and social studies). Students learn techniques of assessing native literacy skills and become familiar with native language resources in the community through evaluating culturally appropriate curricula, children's literature and media. Students also analyze and strengthen their own biliteracy skills. Field work required.

Credits: 3
Rotating Basis

TED 677 Curriculum, Instruction, and Assessment in ESOL Programs
This course examines curriculum development, instructional planning, and both formal and informal assessments for programs in English to Speakers of Other Languages (ESOL). The course includes a survey of current state and federal regulations, standards, and assessments regarding the instruction of English learners K-adult. Field work required.

Credits: 3
Rotating Basis

TED 678 Communication Development and Language Disorders in Children with Autism Spectrum Disorder
This course explores the language and communication characteristics of children along the spectrum, the assessment tools used to collect and analyze data, to monitor progress and inform instruction related to language, and the interventions designed to address the range of language and communication needs.

Credits: 3
Rotating Basis

TED 679 Methods of Teaching Adult ESL/EFL
This course focuses on research validated instructional strategies, standards-based curriculum development, and formal and informal assessment techniques for teaching English as a second or foreign language to adults. Course participants explore approaches to instruction in a variety of settings, including community based programs, workplace programs, post-secondary programs, and overseas teaching. Field work required.

Credits: 3
Rotating Basis
TED 682 Contemporary Issues and Research in Autistic Spectrum Disorders
In this course, participants examine and reflect upon current issues and research related to autistic spectrum disorders including, but not limited to, etiology and prevalence, characteristics, diagnostic issues, philosophical issues, legal issues, and biological and psychosocial bases of the disorder.
Credits: 3
Rotating Basis

TED 700 Field Experience: Childhood
Students are involved in an elementary classroom experience where they observe and participate in all classroom activities, on a daily basis, for a two week period. This experience precedes student teaching.
Credits: 2
Rotating Basis

TED 701 Field Experience: Early Childhood / Childhood Education
Students are involved in both early childhood and elementary classroom experience where they observe and participate in all classroom activities, on a daily basis, for a two week period. This experience precedes student teaching.
Credits: 2
Rotating Basis

TED 702 Seminar and Student Teaching: Early Childhood Education
Students participate in a full-time, twelve week, student teaching experience at the early childhood level. The classroom experience is accompanied by a student teaching seminar.
Credits: 4
Rotating Basis

TED 703 Seminar and Supervised Teaching: Early Childhood Education
Students participate in a full-time, twelve week, supervised teaching experience at the early childhood level. The classroom experience is accompanied by a supervised teaching seminar.
Credits: 4
Rotating Basis

TED 704 Seminar and Student Teaching: Childhood
Students participate in a full-time, twelve week, student teaching experience at the childhood level. The classroom experience is accompanied by a student teaching seminar.
Credits: 4
Rotating Basis

TED 705 Seminar and Student Teaching: Childhood
Students participate in a full-time, twelve week, student teaching experience at the childhood level. The classroom experience is accompanied by a student teaching seminar.

Rotating Basis

TED 706 Seminar and Supervised Teaching: Childhood
Students participate in a full-time, twelve week, supervised teaching experience at the childhood level. The classroom experience is accompanied by a supervised teaching seminar.
Credits: 4
Rotating Basis

TED 707 Seminar and Student Teaching: Early Childhood / Childhood Education
Students participate in a full-time, twelve-week, student teaching experience in an early childhood as well as a childhood education setting. The classroom experience is accompanied by a student teaching seminar.
Credits: 4
Rotating Basis

TED 708 Seminar and Supervised Teaching: Early Childhood / Childhood Education
Students participate in a full-time, twelve week student teaching experience in an early childhood as well as a childhood education setting. The classroom experience is accompanied by a student teaching seminar.
Credits: 4
Rotating Basis

TED 709 Practicum in Literacy for Students with Learning Problems, Grades 1-6
In this course, participants evaluate and teach a youngster in the childhood grades who is experiencing difficulty in acquiring literacy skills and strategies. Class discussions focus on assessment techniques and research validated instructional strategies effective for teaching all aspects of literacy acquisition.
Credits: 3
Rotating Basis

TED 710 Practicum in Literacy for Students with Learning Problems, Grades 5-12
In this course, participants evaluate and teach a youngster in grades 5-12 who is experiencing difficulty with literacy skills and strategies. Class discussions focus on assessment techniques and research validated instructional strategies effective for teaching all aspects of literacy acquisition and development.
Credits: 3
Rotating Basis

TED 711 Seminar and Student Teaching: Childhood Special Education
Students participate in a full-time, fourteen week student teaching experience in a special education or inclusive educational setting at the childhood level. The classroom experience is accompanied by a student teaching seminar.
Credits: 4
Rotating Basis

TED 712 Seminar and Supervised Teaching: Childhood Special Education
Students participate in a full-time, fourteen week supervised teaching experience in a special education or inclusive education setting at the childhood level. The classroom experience is accompanied by a supervised teaching seminar.
Credits: 4
Rotating Basis

TED 713 Seminar and Student Teaching: Early Childhood and Early Childhood Special Education
Students participate in a full-time, fourteen week student teaching experience in an early childhood setting as well as an early childhood special education setting or an inclusive early childhood setting. The classroom experience is accompanied by a student teaching seminar.
Credits: 4
Rotating Basis

TED 714 Seminar and Supervised Teaching: Early Childhood and Early Childhood Special Education
Students participate in a full-time, fourteen week supervised teaching experience in an early childhood setting as well as an early childhood special education setting or an inclusive early childhood setting. The classroom experience is accompanied by a student teaching seminar.
Credits: 4
Rotating Basis

TED 715 Practicum in Literacy for Students with Learning Problems, Grades 5-12
In this course, participants evaluate and teach a youngster in grades 5-12 who is experiencing difficulty with literacy skills and strategies. Class discussions focus on assessment techniques and research validated instructional strategies effective for teaching all aspects of literacy acquisition and development.
Credits: 3
Rotating Basis

TED 716 Seminar and Supervised Teaching: Early Childhood and Childhood Special Education
Students participate in a full-time, fourteen-week, supervised teaching experience in a childhood education setting as well as a childhood special education setting or an inclusive childhood education setting. The classroom experience is accompanied by a supervised teaching seminar.
Credits: 4
Rotating Basis

TED 717 Seminar and Student Teaching: Early Childhood and Childhood Special Education
Students participate in a full-time, fourteen-week, student teaching experience in a childhood education setting as well as a childhood special education setting or an inclusive childhood education setting. The classroom experience is accompanied by a supervised teaching seminar.
Credits: 4
Rotating Basis

TED 718 Seminar and Supervised Teaching: Middle Childhood / Adolescence Special Education
Students participate in a full-time, six week, supervised teaching experience at the early childhood level. The classroom experience is accompanied by a supervised teaching seminar.
Credits: 2
Rotating Basis

TED 719 Seminar and Student Teaching: Middle Childhood / Adolescence Special Education
Students participate in a full-time, six week, student teaching experience at the early childhood level. The classroom experience is accompanied by a supervised teaching seminar.
Credits: 4
Rotating Basis

TED 720 Seminar and Student Teaching: Middle Childhood / Adolescence Special Education
Students participate in a full-time, fourteen-week, supervised teaching experience in a special education or inclusive education setting at the middle childhood level. The classroom experience is accompanied by a supervised teaching seminar.
Credits: 4
Rotating Basis

TED 721 Seminar and Supervised Teaching: Middle Childhood / Adolescence Special Education
Students participate in a full-time, fourteen-week, supervised teaching experience in a special education or inclusive setting at the middle and adolescence education levels. The classroom experience is accompanied by a student teaching seminar.
Credits: 4
Rotating Basis
TED 731 Seminar and Supervised Teaching: Middle Childhood / Adolescence Special Education
Students participate in a full-time, fourteen week supervised teaching experience in a special education or inclusive setting at the middle and adolescence levels. The classroom experience is accompanied by a supervised teaching seminar.

**TED 799 Special Topics**
An intensive study in special areas of interest in the field of teacher education open to matriculated teacher education students with permission of the appropriate Program Director. This opportunity for students to do advanced work under the supervision of a faculty member may be taken only on a Pass/Fail basis.

**Credits: 1 to 2**

**All Sessions**
EDUCATIONAL LEADERSHIP

LIU Hudson's Educational Leadership programs are designed for professional Pre K-12 educators from public, charter, religious-affiliated and independent schools who aspire to leadership roles at the school, district, state and national levels. The programs focus on the theories and practices of effective leadership in such administrative positions as superintendent, principal, assistant principal, department chair, or supervisor.

The M.S.Ed. in Educational Leadership and the Advanced Certificate in Educational Leadership programs lead to institutional recommendation for New York State certification as either School Building Leader or School District Leader, depending upon qualifications. The programs may meet the requirements for New Jersey Principal and Superintendent certification. Individuals seeking educational leadership certificates in states other than New York are advised to consult the Education Department in the particular state.

Courses emphasize critical thinking, reflection, and problem-solving skills in order to prepare individuals who can be catalysts for school change and improved student performance. Coursework helps students connect theory and practice and focus on facilitating learning. The Educational Leadership graduate programs are committed to preparing candidates who demonstrate the nine essential characteristics of effective leaders, promoted by the New York State Education Department. Emphasis is placed upon the core domains of leadership and the ISLLC standards. The Educational Leadership programs are accredited by the Teacher Education Accreditation Council (TEAC), an arm of the Council for the Accreditation of Educator Preparation (CAEP).

Inquiries may be directed to:

Dr. Martha Murray, Program Director, Educational Leadership  
845-450-5428  
martha.murray@liu.edu

Dr. Robert Penna, Cohort Director, Educational Leadership  
845-450-5406  
robert.penna@liu.edu
Admission Requirements

For the Master’s Degree candidate:

- Bachelor's degree with a minimum 3.0 GPA
- An applicant who does not meet the grade point average required for admission to the program may be required to take the Graduate Record Examination and be interviewed by the program director.
- Initial state certification in teaching or an educational specialty
- Two letters of recommendation
- Teaching experience and prior experience review
- Documentation of years of experience

For the Advanced Certificate candidate:

- Master's degree with a minimum 3.25 GPA
- Professional state certification in teaching or an educational specialty
- Two letters of recommendation
- Teaching experience and prior experience review
- Documentation of years of experience

Attention Applicants: The New York State Education Department requires all candidates for NYS initial School Building Leader (SBL) and/or professional School District Leader (SDL) certification, to have completed at least 60 semester hours of graduate study, possess a permanent or professional certificate in classroom teaching service or pupil personnel service, and to have completed three years of classroom teaching service and/or educational leadership service and/or pupil personnel service experience in public or non-public schools N-12.

All students applying for New York State certification are required to complete 6 hours of DASA (Dignity for All Students Act) training.

M.S.Ed. in Educational Leadership

The Master of Science in Educational Leadership is a 36 credit program with a schedule that is designed to accommodate the busy lives of working professionals. Most courses meet in the late afternoon and evening with many offering on-line assignments. Other courses are scheduled during a condensed five-week summer session or on weekends during the spring and fall semesters.

Candidates who complete the program may be recommended for New York State certification as School Building Leader (SBL) and/or School District Leader or for New Jersey Principal and/or Superintendent certification.

Graduates of this program have excellent opportunities for employment in a variety of school leadership roles beginning at the department chair or assistant principal level and culminating at the assistant superintendent or superintendent level. Program completers are able to bring their expertise into a full range of settings with diverse populations, including urban, suburban and rural schools. They are prepared to: effectively manage the broad array of challenges faced by school leaders; engage the school community in strategic planning processes for sustained improvement; and apply their understanding of instructional leadership concepts to enhance the performance of school personnel while promoting student learning.

Advanced Certificate - Educational Leadership

The Advanced Certificate in Educational Leadership is a 30 credit post-master's program that leads to eligibility for New York State certification as a School District Leader (SDL) and/or School Building Leader (SBL). It also assists the graduate in meeting the academic requirements for superintendent and principal in New Jersey.

As the role of educational leader becomes increasingly challenging, it is imperative that students develop theoretical concepts linked to practical skills in order to be reflective practitioners able to promote social justice, create caring classrooms and school communities, and empower teachers and learners to be the best they can be.

Internship experience, in collaboration with school/district leaders, is a central component throughout these programs. During the internship, emphasis is placed upon the following five areas:

1. Administration/Organization/Management
2. School-Community Relations
3. Staff/Personnel Issues
4. Student Personnel Issues
5. Curriculum & Instruction.

**Additional Requirements**

- Development of a portfolio internship project
- DASA (Dignity for All Students Act) Training
EDL 630 Administrative Core I
This course presents a balanced viewpoint of theory and practice in analyzing current issues in educational administration. Through the use of various readings, classroom discussion, group activities, lecture, and varied presentations, topics, issues, and trends in this field will be examined. The course will examine three interrelated areas within the field of school administration. They are human relations, leadership and school-community relations.
Credits: 6
Rotating Basis

EDL 631 Administrative Core II
The goals of this course are to have students become wise consumers of educational research and knowledgeable about the business functions of the school district and use of computers to solve administrative problems. Administrative Core I (EDL 630) must be taken before Core II.
Credits: 3
Rotating Basis

EDL 632 Curricular Concerns in Public School Administration
This course is a study of curricular concerns and emphasizes administrative decision-making skills. Major topics include administering programmatic change, focus on individualized and differentiated instruction, curriculum theory, instructional and curriculum issues.
Credits: 3
Rotating Basis

EDL 633 School Business Administration
This course provides students with information on the skills and knowledge needed to operate an effective school business office. It covers budgeting theories and practices, including estimating expenditures, personnel costs, and revenues as well as services that support the instructional operations of the district: food service, transportation, school store, supply management, purchasing and bidding, insurance, and the use of existing district buildings and grounds, new construction and renovation. School district revenue sources are explored, including taxation concepts and practices, theoretical models in state funding, state aid, federal aid and special education, and public support for non-public schools.
Credits: 3
Rotating Basis

EDL 634 School Personnel Administration
The course provides a study of the skills, attitudes and knowledge essential for effective school personnel administration. Methods of recruitment of highly skilled and competent new employees are reviewed. Certification requirements and selection methods are discussed in order that administrators will locate the best possible staff for their schools/districts. Other areas of study include assignment of staff, load and transfer of teachers, salaries and scheduling. Areas of concentration will also include: leaves of absence, tenure, inservice education, personnel records, morale, retirement, professional associations and collective bargaining.
Credits: 3
Rotating Basis

EDL 635 School Law
This course entails a study of the major topics of law related to public schools. Areas of concentration include: sources of the law; scope of the law; law and the organization for public education; pupils, employees and school law; school officers and the law; theory of governmental non-liability; liability and individual members of the board, and personal liability of school employees.
Credits: 3
Rotating Basis

EDL 636 Public School Finance
This course is designed to acquaint the student with public laws pertaining to the education of students with disabilities. Specifically, students will review IDEA, Section 504, No Child Left Behind/Race to the Top (as it impacts special education), NYS Part 200 Regulations of the Commissioner, and newly revised ADA regulations. Major concepts to be covered include: Least Restrictive Environment/Continuum of Services; The Individual Education Program, including evaluation and the multi-disciplinary team; Due Process, including Parental Rights and procedural safeguards; Free Appropriate Public Education and Response to Intervention.
Prerequisite of EDL 631 is required.
Credits: 3
Rotating Basis

EDL 637 The Supervisor in the School Setting
This course entails a study of the major components of the school supervisor position. The nature of the supervisory process is reviewed. The function of the supervisor in various situations is examined in detail. The principals of supervision and a variety of leadership styles are reviewed. Other areas of concentration include appropriate procedures for supervision, the supervision of teachers, curriculum, instruction, and non-certificated staff.
Credits: 3
Rotating Basis

EDL 641 School District Administrations: Problems and issues
This course provides a study of the role and responsibilities of the district administrator in a school system. Major topics include: organizational, professional and legal issues in school district administration; the school district administrator and organizational decision-making; emerging responsibilities in working relationships among school district administrators, the board and members of the community; and critical economic, political and social issues confronting educational leadership.
Credits: 3
Rotating Basis

EDL 644 Collective Negotiations in Education
This course is a study of the implementation and development of collective negotiations in the public schools. It includes principles and practices applied in public sector negotiations and the study of selected topics such as the bargaining process, impasse procedures, grievance machinery, the strike content of bargaining agreements, and the role of the administrator in negotiations.
Credits: 3
On Occasion

EDL 646 Special Education Law For School Administrators
This course is designed to acquaint the student with public laws pertaining to the education of students with disabilities. Specifically, students will review IDEA, Section 504, No Child Left Behind/Race to the Top (as it impacts special education), NYS Part 200 Regulations of the Commissioner, and newly revised ADA regulations. Major concepts to be covered include: Least Restrictive Environment/Continuum of Services; The Individual Education Program, including evaluation and the multi-disciplinary team; Due Process, including Parental Rights and procedural safeguards; Free Appropriate Public Education and Response to Intervention.
Credits: 3
Rotating Basis

EDL 648 School Organization, Programming and Scheduling
This course offers students insights into the essentials of managing a school or district. Major topics include, but are not limited to: scheduling classes and activities across varying grade levels; scheduling extra-curricular activities; defining appropriate parameters for clubs and assemblies; managing sports programs. Students will learn how to select appropriate educational programs and technologies to enhance student learning. Practical projects will be assigned.
Credits: 3
On Occasion

EDL 649 Leadership and Administration in Multicultural School Settings
This course is designed to provide specific preparation for supervisors in the management of operational policies, particularly in multicultural school settings. Recent national and local policy trends will be explored for their effects upon traditional budget allocation practices, curriculum strategies, personnel management, program assessment, and shared management. Policies and methods will be examined to ensure that all students have the necessary resources to enjoy...
equitable opportunities to learn and to meet high standards.

**Credits: 3**

**EDL 650 Internship in School Administration - Masters Level**

The course provides students with the opportunity to participate in administrative and supervisory activities and to put into practice the students’ classroom knowledge in practical ways. Students will work in a school and district setting and then meet in seminars to discuss issues, problems and strategies. During the internship, five areas of study will be emphasized: Administration; Curriculum Development; School Community Relations; Student Services; and Staff Development. In addition, the six major core areas (the bases of EDL 630 and EDL 631) will be reintroduced, thus providing a synthesizing experience for the student. Practical applications of systematic observation and participation in administrative and supervisory activities will be provided at the school/district level. Permission of the Director of the Department of Educational Leadership is required to enroll in this course.

**Prerequisites:** EDL 630 (completed) and EDL 631 (completed or in progress), or special permission of the program director.

**Prerequisites of EDL 630 & a Prerequisite or Co-requisite of EDL 631 are required.**

**Credits: 6**

**EDL 651 Internship in School Administration - Advanced Certificate Level**

The course provides students with the opportunity to participate in administrative and supervisory activities and to put into practice the students’ classroom knowledge in a practical ways. Students will work in a school and district setting and then meet in seminars to discuss issues, problems and strategies. During the internship, five areas of study will be emphasized: Administration; Curriculum Development; School Community Relations; Student Services; and Staff Development. In addition, the six major core areas (the bases of EDL 630 and EDL 631) will be reintroduced, thus providing a synthesizing experience for the student. Practical applications of systematic observation and participation in administrative and supervisory activities will be provided at the school/district level. Permission of the Director of the Department of Educational Leadership is required to enroll in this course.

**Prerequisites:** EDL 630 (completed) and EDL 631 (completed or in progress), or special permission of the program director.

**Prerequisites of EDL 630 & a Prerequisite or Co-requisite of EDL 631 are required.**

**Credits: 6**

**EDL 653 Administration and Leadership at the Middle School Level**

This course is a study of administrative leadership and decision-making at the middle school level. It includes a review of current educational research, theory and practice as they may apply to the operation of a middle level school. Topics include: understanding the middle school concept; examining administrative decision-making and the middle school curriculum development; supervision at the middle school level; current issues in administering a middle school.

**Offered on occasion; 3 credits.**

**Credits: 3**

**EDL 653 Administration and Leadership at the Middle School Level**

This course is a study of administrative leadership and decision-making at the middle school level. It includes a review of current educational research, theory and practice as they may apply to the operation of a middle level school. Topics include: understanding the middle school concept; examining administrative decision-making and the middle school curriculum development; supervision at the middle school level; current issues in administering a middle school.

**Credits: 3**

**EDL 654 Administration and Leadership at the Secondary Level**

This course is a study of administrative leadership and decision-making at the secondary level. It includes a review of current educational research, theory and practice as they may apply to the operation of a secondary level school. Topics include: understanding the secondary school concept; examining administrative decision-making and the secondary school curriculum development; supervision at the secondary school level; current issues in administering a secondary school.

**Offered on occasion; 3 credits.**

**Credits: 3**
COUNSELING, PSYCHOLOGY AND THERAPY

School Psychologists, School Counselors, Mental Health Counselors and Marriage and Family Therapists are in increasing demand by community, educational, health and other organizations. These professionals play vital roles in helping children, young people and adults to face the demands and stresses of a complex world.

The Master's degree programs in counseling, psychology and therapy offered at LIU Hudson prepare students for a wide variety of professional careers in the areas of School Counseling, School Psychology, Mental Health Counseling and Marriage and Family Therapy. New York State law requires individuals to hold a master's degree and obtain state licensure in order to work as marriage and family therapists or mental health counselors.

The Master's degree programs in School Counseling and School Psychology lead to eligibility for New York State certification in these professions. Specialized courses are available to prepare for state certification in Bilingual School Counseling and Bilingual School Psychology as well as Bilingual Extensions.

In addition, the Rockland campus offers a 12 credit Advanced Certificate in Crisis Management. The Westchester campus offers CASAC (Certified Alcohol and Substance Abuse Counselor) tracks, approved by The New York State Office of Alcohol and Substance Abuse Services (OASAS), in both the M.S. in Mental Health Counseling and M.S. in Marriage and Family Therapy programs.

Inquiries at the Rockland campus and the West Point Education Center may be directed to:

**Dr. Thomas J. Nardi**, Director of Counseling Programs
LIU Hudson at Rockland and the Army Education Center at West Point
845-450-5429
thomas.nardi@liu.edu

**Mary Beth Leggett**, Center Coordinator at West Point Education Center
845-446-3818
marybeth.leggett@liu.edu

Inquiries at the Westchester campus may be directed to:

**Dr. Beth A. Weiner**, Program Director, Counseling, Psychology and Therapy Programs
LIU Hudson at Westchester
914-831-2717
beth.weiner@liu.edu

**Dr. Susan Goldman**, Assistant Professor
914-831-2718
susan.goldman@liu.edu
M.S.Ed. in School Counseling

Candidates for the M.S.Ed. in School Counseling learn to assist students in public and private elementary, middle and secondary schools by providing counseling in such areas as academic advisement, school success, college placement, and help with behavioral and personal problems. The programs make use of an integrated didactic and experiential approach. Students are given personalized advisement about the internships and electives which will best serve their future career goals.

Admissions Requirements for School Counseling
1. Bachelor's degree from an accredited institution
2. Undergraduate minimum GPA of 2.75
3. Two professional letters of reference (e.g. from academic instructors or professional supervisors)
4. Personal essay including a statement of professional goals
5. Current resume
6. Academic writing sample (e.g., term paper, research paper)
7. Interview with program director or designated faculty member

Degree requirements
1. Completion of all coursework with GPA of 3.0 or better
2. Passing the comprehensive examination
3. Demonstration of interpersonal competencies and emotional maturity associated with effective counseling outcomes
4. Successful completion of Child Abuse Identification, Violence in the Schools Prevention and DASA training workshops. If completed outside of LIU, documentation must be provided.

M.S.Ed. in School Counseling - 48 credits
This degree meets the academic requirements for a Provisional New York State Certificate as a School Counselor. Please note that other states may have their own requirements and/or tests; students should, therefore, consult with the Education Department of the particular state for current information.

[Program Code: 79161]

Bilingual Extension
Institutional recommendation for the New York State School Counselor Bilingual Extension may be earned as part of the 48 credit M.S.Ed in School Counseling with the following course substitutions:

(In lieu of 6 credits from: SPC 745C; SPC 745H and/or SPC 748):
SPC 600B Fieldwork: Directed Observation and Practice in an Agency Setting (Bilingual) 3.00 and SPC 601 Fieldwork: Directed Observation and Practice in Schools (In lieu of SPC 660B):
(In lieu of 6 credits from: SPC 745C; SPC 745H and/or SPC 748): SPC 600A Fieldwork: Directed Observation and Practice in an Agency Setting

(In lieu of SPC 668A):
SPC 668B Diagnostic Tools for Measurement: Emphasis on Bilingual Testing 3.00
(In lieu of SPC 661D):

(In lieu of 6 credits of electives):
SPC 745M Multicultural and Diversity Issues in Counseling 3.00 and TED 516 Learning in Bilingual/Multicultural Settings 3.00

(In lieu of 6 credits of electives):
For provisional bilingual certification, students must demonstrate oral and written proficiency in English and in the target language by earning a passing grade on the New York State Bilingual Education Assessment Examination.

PROVISIONAL AND PERMANENT STATE CERTIFICATION
At the completion of these 48 credits, child abuse detection, violence prevention, DASA workshops, and fingerprint processing, students are eligible for the New York State Provisional Certificate in School Counseling. Provisional certification is granted for a period of five (5) years.

Students may complete an additional 12 credits towards New York State Permanent Certification while enrolled or after obtaining the Master's through our Advanced Certificate in School Counseling. Permanent State Certification requires 60 credits in total. Two years of full-time work experience as a counselor (K-12) is also required. These credits may be completed by taking electives that are offered throughout the year as well as through summer institutes.

Advanced Certificate in School Counseling
The Advanced Certificate in School Counseling allows graduates of LIU Hudson, as well as school counseling graduates from other universities, to complete the additional coursework required. By offering these courses as an advanced certificate, we are able to offer this advanced training in a cohesive, coherent way which meets current needs and trends in the field of school counseling.

Advanced Certificate in School Counseling - 12 credits

[Program Code: 32988]
For students who have completed a 48-credit program in School Counseling at LIU Hudson or another institution, this advanced certificate meets the additional 12-credit requirement for permanent New York State certification.

Prerequisite:
• Master's degree and prior certification as a School Counselor

Required Course

SPC 745M Multicultural and Diversity Issues in Counseling 3.00
Three Elective Courses from the following

Students who have already taken these or equivalent courses should meet with the program director to identify appropriate substitutions. In addition, students must take the Child Abuse Identification, Violence in the Schools Prevention and DASA training workshops if not already completed. If completed outside of LIU, documentation must be provided.

M.S.Ed. in School Psychology

The School Psychology program culminates in the degree of Master of Science in Education. It is open to a select group of students. The program trains school psychologists as practitioners and teaches the knowledge and skills necessary for today's practice of school psychology in diverse environments.

The School Psychology program fully prepares students to obtain provisional New York State certification as School Psychologists. Upon completion of a two-year supervised work experience, students are eligible for permanent certification.

The program is designed to be completed in three years and must be finished within a six-year period. Cohort classes for the School Psychology program are generally admitted in the fall in order to facilitate progress through the assessment course sequence, although there is a possibility of beginning in the Spring or Summer with the permission of the program director.

Admission Requirements for School Psychology

1. B.A. or B.S. degree from an accredited institution, with a minimum GPA of 3.00
2. Minimum of 24 credits in psychology, education or other relevant major field of study at the discretion of the program director and full-time faculty member
3. Personal essay including a statement of professional goals
4. An academic writing sample (e.g., term paper, research paper)
5. Two professional letters of reference (e.g. from academic instructors or professional supervisors)
6. College courses in Personality or Developmental Theories (or equivalent) and in Statistics (Behavioral or Mathematical). These courses are prerequisites to courses taken early in the sequence. Students lacking these courses may apply but may not be matriculated unless waived by the Program Director.
7. Current resume
8. Interview with Program Director or designated faculty member

Degree Requirements

1. Minimum of 60 graduate credits including course work, practica, and internship. Students seeking the bilingual extension complete 66 credits.
2. A graduate GPA of 3.25 or better
3. Demonstration of competence in assessment techniques as indicated by grades of B+ or better in these courses or after review by Program Director.
4. Successful completion of Child Abuse Identification workshop

The general program includes 60 credits of course work, practica, and internship. The comprehensive curriculum consists of 24 credits of psychological and educational foundations with a developmental emphasis; 27 credits in assessment and intervention, including consultation and counseling; and 9 credits in professional school psychology, including internship. The internship requirement is equivalent to 1200 hours of full-time placement in a school setting.

M.S.Ed. in School Psychology - 60 credits

[Program Code: 93026]

This degree meets the academic requirements for a Provisional New York State Certificate as a School Psychologist.

Bilingual Extension

Bilingual students may elect to take courses to qualify for the Bilingual Extension to the NYS School Psychology Certificate. This program is designed to train bilingual psychologists to work with linguistically diverse children and their families. Students must complete TED 516 Learning in Bilingual/Multicultural Settings and SPC 724 Assessing the Bilingual Child. The provisional bilingual certificate also requires students to demonstrate oral and written proficiency in English and in the target language by obtaining a passing grade on the New York State Bilingual Education Assessment Examination.

The total number of credits for those wishing to qualify for the bilingual certification extension is 66. (If not taken while completing the Master’s, it is 15 credits beyond the 60 credit Master’s.)

SPC 724 Assessing the Bilingual Child
**M.S. in Mental Health Counseling**

This 60-credit master's degree program prepares students to work in mental health and social service agencies, clinics, hospitals and private practice. Students learn individual and group counseling techniques, and consultation skills found to be effective with a variety of clinical issues ranging from life adjustment problems to serious mental illnesses. Students are trained to be multiculturally competent and sensitive to the needs of diverse populations. This program offers broad training and meets the academic requirements for New York State licensure as a Mental Health Counselor. Personalized advisement is given to students about the internships and electives that will best serve their professional goals.

**Admissions Requirements**
1. B.A. or B.S. degree from an accredited college, with a minimum G.P.A. of 3.00
2. Minimum of 24 credits in psychology (or other relevant major field of study in the social sciences at the discretion of the program director)
3. Personal essay including a statement of professional goals
4. An academic writing sample (e.g., term paper, research paper)
5. Two professional letters of reference (e.g. from academic instructors or professional supervisors)
6. Current resume
7. Interview with Program Director or designated faculty member

**Degree Requirements**
1. Completion of all coursework with G.P.A. of 3.0 or better
2. Passing the comprehensive examination
3. Demonstration of interpersonal competencies and emotional maturity associated with effective counseling outcomes
4. Successful completion of Child Abuse Identification workshop

**M.S. in Mental Health Counseling - 60 credits** *(Program Code: 31141)*

This degree meets the academic requirements for New York State licensure as a Mental Health Counselor. Upon completion of these academic requirements, 3,000 hours of post-Master’s supervised experience in the practice of mental health counseling and a passing grade on the National Clinical Mental Health Counseling Examination (NCMHCE) are required for NYS licensure.

**Additional Requirements**
- Child Abuse Identification Workshop

**Office of Alcohol and Substance Abuse Services (OASAS) Education and Training Program**

LIU Hudson at Westchester offers New York State Office of Alcohol and Substance Abuse Services (OASAS) approved CASAC (Certified Alcohol and Substance Abuse Counselor) for both the M.S. in Mental Health Counseling (MHC) and M.S. in Marriage and Family Therapy (MFT) programs. This certification equips mental health professionals with the special knowledge and skills to support those dealing with the complexities of these addictions. Integration of the CASAC-T certification with either of the master’s degrees significantly expands the range of professional opportunities for those who aspire to careers in mental health counseling or marriage and family therapy.

In recognition of the unique educational preparedness that an integrated CASAC program provides, OASAS (Office of Alcohol and Substance Abuse Services) has reduced the 6000 hour requirement of non-paid work experience in an appropriate substance abuse treatment setting to a 2000 hour requirement. Students who complete their required MHC or MFT Internship placements at an OASAS approved substance abuse setting can also count those hours towards the 2000 hour requirement, thereby further reducing the necessary post-degree hours.

MHC and MFT graduates who successfully complete both their CASAC integrated coursework and internship hours are immediately eligible to apply for their CASAC-Training certificate and take the CASAC-T (Credentialed Alcohol and Substance Abuse Counselor-Trainee) exam.

The optional CASAC Education and Training Program is offered at no additional cost beyond the tuition and fees for the MHC and MFT programs.

The Mental Health Counseling and Marriage and Family Therapy with CASAC are identical to the regular MHC and MFT programs with the following exceptions:

1. Since the CASAC tracks are specifically registered by OASAS at the Westchester campus, the following MHC/MFT courses must be taken there:
   - CPT 503: Adult Psychopathology
   - CPT 504: Professional, Ethical and Legal Issues in Counseling
   - CPT 600: Clinical Methods in Counseling
   - SPC 650: Developmental Psychopathology
   - SPC 657A: Family Counseling in an Urban Setting
   - SPC 732: Research Methods
   - SPC 745M: Multicultural and Diversity Issues in Counseling

2. In place of the 3 electives, the following 3 elective courses must be taken:
   - SPC 502: Substance Abuse Prevention and Intervention
   - SPC 675: Techniques of Substance Abuse Counseling
   - SPC 678: Physical and Pharmacological Effects of Substance Abuse
M.S. in Marriage and Family Therapy

This 48-credit master's degree program prepares students to work in mental health and social service agencies, clinics, hospitals and in private practice. Students learn counseling techniques and consultation skills found to be effective with couples and families, and are trained to be multiculturally competent and sensitive to the needs of diverse populations. This program leads to eligibility for New York State licensure as a Marriage and Family Therapist. Students are given personalized advisement about the internships and electives that will best serve their professional career goals.

Admissions Requirements
1. B.A. or B.S. degree from an accredited college, with a minimum GPA of 3.00
2. Minimum of 24 credits in psychology (or other relevant major field of study in the social sciences at the discretion of the program director)
3. Personal essay including a statement of professional goals

M.S. in Marriage and Family Therapy

[Program Code: 31140]

This degree meets the academic requirements for New York State Licensure as a Marriage and Family Therapist. Upon completion of these academic requirements, 1,500 direct client contact hours of post-Master's supervised experience in the practice of marriage and family therapy are required for licensure. Please note that New York State permits all direct contact hours completed during the Master's program to be applied toward these 1500 hours. In addition, New York State requires a passing grade on the "Examination in Marital and Family Therapy" of the AMFTRB.

CPT 500 Introduction to Mental Health Counseling
This course will examine the role of the mental health counselor in clinical settings, social agencies, vocational and rehabilitative settings. There will be an exploration of the nature and scope of counseling and the relationship between the counselor and other members of the interdisciplinary team. Students will be introduced to concepts such as preventive work, community outreach, and psycho-educational approaches. There will be a focus on the contemporary social issues which impact on the world of the counselor.
Credits: 3
Rotating Basis

CPT 501 Counseling Theory and Practice I
Theories and research in various psychoanalytic, psychodynamic, interpersonal, relational and humanistic schools of counseling. In addition, analytic theories of personality dynamics and development are studied. Emphasis on understanding the individuals and their values in the context of their particular reaction mechanisms and experiences. Experiences related to sociocultural environment. Unconscious phenomena considered. Transference and counter-transference reactions studied. Importance of childhood reactions and experiences in the life of the individual.
Credits: 3
Rotating Basis

CPT 502 Counseling Theory and Practice II
An overview of theories and research in various schools of cognitive, behavioral and other modern schools of counseling. Emphasis on understanding the individual in the context of his or her experiences and particular environment. An understanding of the goals and methods used by evidence-based models of counseling.
Credits: 3
Rotating Basis

CPT 503 Adult Psychopathology
Students will understand the major diagnostic categories of psychopathology affecting young adults, adults and older individuals. Case studies will be used to illustrate disorders such as depression, anxiety, obsessive compulsive disorders, bipolar disorder, adjustment disorders and personality disorders. Consideration will be given to cultural and social factors in the area of diagnosis and therapeutic intervention. Psychopharmacology and the use of the DSM and ICD systems of diagnosis and classification of mental disorders will be discussed. Prerequisite: Undergraduate or graduate course in Personality unless waived by program director.
Credits: 3

CPT 504 Professional, Ethical and Legal Issues in Counseling
This course will provide an overview of the significant ethical and legal issues which present in the counseling profession. Topics to be covered include confidentiality, scope of practice, competence, and professional relationships. In addition, legal and legislative issues such as family law, educational law and recent cases involving counselors and other mental health professionals will be explored.
Credits: 3
Rotating Basis

CPT 600 Personal Methods in Counseling
This course will focus on assessment, case conceptualization, diagnosis, and treatment recommendations. Students will be taught about the practical application of counseling techniques including the process of conducting intake interviews, obtaining a mental status, taking biopsychosocial histories, and the use of diagnostic tools such as the DSM and ICD systems of diagnosis and classification of mental disorders. Students will engage in role-playing, practice interviewing skills and prepare sample clinical reports.
Credits: 3
Rotating Basis

CPT 601 Group Counseling Theory and Practice
Contemporary theories and historical perspectives pertaining to group counseling will be presented. Students will identify factors in group processes which promote growth and development in multicultural school and family environments. Students will also examine and practice techniques appropriate for the resolution of personal, social and academic conflicts. A portion of the class time will involve participation in a group and analyzing its dynamics.
Credits: 3
Rotating Basis

CPT 602 Personality Disorders: Evaluation and Evidence Based Treatments
Personality disordered clients present unique challenges to clinicians in many practice settings. This course will provide an overview of personality development and characteristic patterns of personality dysfunction. We will learn to assess personality functioning by reviewing assessment instruments including structured clinical interviews and self-report scales such as the MCMHIII (Millon Clinical Multiaxial Inventory). We will review the ten personality disorders outlined in the DSM and ICD systems of diagnosis and classification of mental disorders, and discuss compelling case examples from our own work and will be further enriched by videotapes of Millon’s classic work with personality disordered clients. Our exploration of this area will culminate in a review of best practices in treating personality disorder including Dialectical Behavioral Therapy (DBT), evidence based interpersonal techniques and Brief Relational Therapy.
Credits: 3
Rotating Basis

CPT 700C Counseling Internship Practicum I (Marriage and Family Therapy)
The internship requirement is equivalent to 600 client contact hours during the year in an agency setting under the dual guidance of an onsite clinician and a university-based clinical supervisor; 300 hours will be completed each semester of the internship course. Participation in the intake and screening process, individual evaluations, interdisciplinary staff conferences, and professional meetings is required. Students will evaluate individuals, write reports and practice short-term counseling and consultation under the supervision of the clinician. Students will also attend weekly meetings with the university clinical supervisor in which professional and ethical issues related to the practice of counseling will be discussed. Students must apply for the internship in the semester prior to registration. Prerequisites: satisfactory completion of first two years of coursework and departmental approval.
Credits: 3
On Demand

CPT 700M Counseling Internship Practicum I (Marriage and Family Therapy)
The total internship requirement is equivalent to 300 client contact hours in an agency setting under the dual guidance of an onsite clinician and a university-based clinical supervisor; 150 hours are to be completed in each semester. Participation in the intake and screening process, individual evaluations, interdisciplinary staff conferences, and professional meetings is required. Students will evaluate individuals, write reports and practice short-term counseling and consultation under the supervision of the clinician. Students will also attend weekly meetings with the university clinical supervisor in which professional and ethical issues related to the practice of counseling will be discussed. Students must apply for the internship in the semester prior to registration. Prerequisites: satisfactory completion of first two years of coursework and departmental approval.
Credits: 3
On Demand

CPT 701C Counseling Internship Practicum II
Continuation of internship in CPT 700C in either the same or another university-approved setting. Prerequisite: Satisfactory completion of CPT 700C.
Credits: 3
On Demand

CPT 701M Counseling Internship Practicum II
Continuation of internship in either the same or another university-approved setting. Prerequisite: Satisfactory completion of CPT 700M.
Credits: 3
On Demand

**CPT 720 Clinical Supervision**
Course content will be didactic and experiential. Includes current theoretical approaches to clinical supervision. Ethical issues specific to supervision will be presented. Content to include current literature, research and major issues related to ethical, multiculturally competent supervision of Marriage and Family Therapists and Mental Health Counselors providing individual, couple and family therapy. Lecture, role-playing, reflecting teams are used to meet goals and objectives of course. Meets the educational requirement for certification as an AAMFT Certified Supervisor.

Credits: 3
Rotating Basis

**CPT 740 Approaches to Trauma**
This course will be an overview of various definitions and theories of trauma as well as counseling interventions. This will include both the meaning of trauma to individuals as well as society at large. Topics will include primary trauma (e.g. sexual abuse, unexpected loss) as well as secondary trauma (e.g. 9/11, war, natural disasters). In addition, the course will examine the impact of working with victims/survivors on the therapist/counselor (e.g. burn-out and rescue fantasies).

Credits: 3
Rotating Basis

**CPT 741 Solution - Focused Brief Counseling**
Brief counseling techniques, with their focus on outcomes, solutions, and practicality, are ideally suited to the demands of contemporary counseling in schools, community, and private practice. Solution-focused brief therapy - a positive, encouraging, hopeful approach to client change - can be used in combination with most other counseling approaches and is effective with a very wide range of clients. Students in this course will learn the underlying theoretical concepts of brief therapy along with techniques and strategies that will allow them to begin using this approach in their own work with clients. Ample opportunities for practice of techniques will be afforded during class.

Credits: 3
Rotating Basis

**SPC 502 Substance Abuse: Prevention and Intervention**
This course focuses on the nature of addiction including the biological, psychological, social and spiritual aspects of substance abuse across the life span. We will learn about theory and practice of recognized intervention approaches as well as non-traditional methods. We will learn to evaluate whether the client has a mild, moderate or severe substance abuse disorder and determine the appropriate level of intervention based on our assessment. Other topics include prevention programs; evidence based programs for different populations, as well as the effects of substance abuse on the family and relapse prevention.

Credits: 3
Rotating Basis

**SPC 503 Counseling Women**
The new freedom of women to participate more fully in the business and professional worlds and their need to adopt new lifestyles has underlined the importance of reconsidering career choices, marriage styles, child rearing practices, etc. Consideration of these and other challenging issues resulting from an open society will be discussed. Individual interest areas of class members will be considered.

Credits: 3
Rotating Basis

**SPC 504 Approaches to Human Sexuality**
An examination of the origins, forms and applications of human sexuality, alternative sexual preferences and lifestyles, psychological and sociological implications of the sexual drive, sexual dysfunction, research in human sexuality, applications to the counseling and mental health service settings.

Credits: 3
Rotating Basis

**SPC 518 Play Therapy**
A survey of methods, materials and techniques for working with children. The major theoretical models and modalities will be emphasized.

Credits: 3
Rotating Basis

**SPC 519 Dynamics of Marital Interaction**
An examination of current issues and approaches concerning marriage, which includes a study of marital interaction and approaches to treatment of marital disorders.

Credits: 3
Rotating Basis

**SPC 600A Fieldworks: Directed Observation and Practice in Agency Setting**
This course is designed to enable the prospective school counselor to become familiar with the environmental and sociological aspects of the school community; a fuller understanding of the various environmental and sociological aspects of the school community.

To enable the prospective school counselor to become familiar with the environmental and sociological aspects of the school community. Direct ed observation made within the public schools of the New York/tri-state area. The student will be required to be an observer within the school setting and complete appropriate projects. Pass/Fail only.

Credits: 3
Rotating Basis

**SPC 600B Fieldworks: Directed Observation and Practice in Agency Setting (Bilingual)**
This course is designed to enable the prospective school counselor to become familiar with the environmental and sociological aspects of the community; a fuller understanding of the various dimensions involved in working with non-English speaking populations is stressed. Field experience

Credits: 3
Rotating Basis

**SPC 600C Fieldworks: Directed Observation and Practice in Agency Setting (MHC program)**
This practicum will include a minimum of 100 clock hours over the course of the semester, including 40 clock hours of direct service. Students will receive one hour of individual supervision minimum at the site and 2.5 class time hours of group supervision through the university each semester. Grades lower than C may require repeating the course.

Credits: 3
Rotating Basis

**SPC 600M Fieldworks: Directed Observation and Practice in Agency Settings (MPT program)**
This practicum will include a minimum of 100 direct contact hours over the course of the semester, as well as additional indirect hours. All direct contact hours may be used toward NYS postgraduate required hours for licensure. Students will receive one hour of individual supervision minimum at the site and 2.5 class time hours of group supervision through the university each semester. Grades lower than C may require repeating the course.

Credits: 3
Rotating Basis

**SPC 601 Fieldwork: Directed Observation and Practice in Schools**
Advanced students may register for intensive independent study of some aspect of counseling. This provides an opportunity for the student to contribute to the advancement of the field of counseling as well as to practice it. He or she is expected to design a research proposal and to use scientific methodology in executing it. Pass/Fail only. Credit and hours arranged with approval and permission of instructor.

Credits: 1 to 3
Rotating Basis

**SPC 607 Independent Research in Counseling**
To enable the prospective school counselor to become familiar with the environmental and sociological aspects of the school community. Directed observation made within the public schools of the New York/tri-state area. The student will be required to be an observer within the school setting and complete appropriate projects. Pass/Fail only.

Credits: 1 to 3
Rotating Basis

**SPC 615 The World of the Counselor**
An examination of the basic issues affecting the school counselor practicing in the contemporary world. The nature and scope of counseling, the relationship between counseling and other pupil...
personnel services, social agencies, vocational and rehabilitative settings, and the interaction between counseling and the broader education process are some of the issues explored.

Credits: 3  
Rotating Basis

SPC 633 Developmental Psychology I  
The focus of this course will be on children from birth through adolescence. Students will study the cognitive, social, emotional and physical aspects of development and their interrelationships within biological and cultural contexts. Historical and contemporary theories of development will be considered. Implications for teaching and curriculum, and for clinical practice will be addressed.

Credits: 3  
Rotating Basis

SPC 634 Developmental Psychology II  
The focus of this course will be from adolescence through the geriatric years, as well as death and dying. Students will study the cognitive, social, emotional and physical aspects of development and their interrelationships within biological and cultural contexts. Historical and contemporary theories of development will be considered. Issues stemming from the individual's expanding relationships and the emergence of adult roles and demands as well as implications for learning and curriculum, and for clinical practice will be addressed. Prerequisite: SPC 633.

Credits: 3  
Rotating Basis

SPC 639 Youth Culture  
An overview of the problems faced by today's youth, with particular emphasis on individual and group counseling techniques available for dealing with drug-abuse problems. The sociology of youth culture, methods of spotting drug abuse, treating the immediate problem, prevention and community health will be explored.

Credits: 3  
Rotating Basis

SPC 643 Psycholinguistics and Language Learning  
This course focuses on the relationship between oral language and reading and writing. Students examine theories of cognition, syntactic and semantic development, comprehension, metalinguistics, and vocabulary growth and how they relate to reading and writing processes. Principles of first and second language acquisition, dialectical differences, and the development of literacy in English language learners, bilingual children, and youngerst with a range of learning difficulties are addressed. Attention is focused on the social and cultural contexts of language use, function, and literacy acquisition. Students examine approaches to curriculum development and instruction based on theories of language development, learning processes, motivation, and reading and writing acquisition.

Credits: 3  
Rotating Basis

SPC 650 Developmental Psychopathology  
Students will understand the major diagnostic categories of psychopathology in children and adolescents. Case studies will be used to illustrate disorders such as pervasive developmental disorders, depression, anxiety, conduct disorders, attention deficit and hyperactivity disorder. Consideration will be given to cultural and social factors in the areas of diagnosis and therapeutic intervention. Psychopathology and the use of diagnostic tools such as the DSM and ICD systems of diagnosis and classification of mental disorders and will be compared and contrasted with other approaches to diagnosis such as Greenspan’s biopsychosocial model. Prerequisite: Undergraduate or graduate course in Personality unless waived by program director.

Credits: 3  
Rotating Basis

SPC 651 Neuropsychological Factors in Cognition and Behavior  
Neural anatomy and mechanisms involved in cognition, behavior, language, reading, and the acquisition of other academic skills will be examined. Particular attention will be paid to biological aspects of learning and behavioral disorders. Developmental neuropsychological research will be examined for principles which could enhance psychoeducational assessment and remedial practices. Neurological disorders will be discussed in relationship to modifications in educational placement and practice.

Credits: 3  
Rotating Basis

SPC 652 Understanding Human Development I  
Theories and research in various psychoanalytic, psychodynamic, interpersonal, relational and humanistic schools of counseling. In addition, analytic theories of personality dynamics and development are studied. Emphasis on understanding the individuals and their values in the context of their particular reaction mechanisms and experiences. Experiences related to sociocultural environment. Unconscious phenomena considered. Transference and countertransference reactions studied. Importance of childhood reactions and experiences in the life of the individual are considered.

Credits: 3  
Rotating Basis

SPC 653 Understanding Human Development II  
An overview of theories and research in various schools of cognitive, behavioral and other modern schools of counseling. Emphasis on understanding the individual in the context of his or her experiences and particular environment. An understanding of the goals and methods used by evidence-based models of counseling.

Credits: 3  
Rotating Basis

SPC 654 Introduction to Counseling and Application I  
A foundation course, introducing the student to the theory and practice of counseling. It provides a broad exposure to the various current points of view and techniques in counseling. Development of counselor skills is stressed, with emphasis on personal growth, self-insight and self-awareness. Role-plays will be utilized.

Credits: 3  
Rotating Basis

SPC 655 Behavior Management Applications for Children with Special Needs  
For learning to proceed optimally, the setting must be one where behaviors (social, emotional and cognitive) are managed. This course will provide students with practical skills needed to plan, implement and evaluate behavior management programs for both individuals and groups of children in a variety of learning environments. Considered will be techniques such as behavior modification, self-control, social skills training, assertiveness training and effective education programs.

Credits: 3  
Rotating Basis

SPC 656 Introduction to Counseling and Application II  
An advanced study of counseling techniques with emphasis on case materials and role-playing. Special attention will be given to those techniques appropriate to vocational problems and school setting. Prerequisite: SPC 654.

Credits: 3  
Rotating Basis

SPC 657 Group Counseling in Multicultural School Settings  
Contemporary theories and historical perspectives pertaining to group counseling will be presented. Students will identify factors in group processes which promote growth and development in multicultural school and family environments. Students will also examine and practice techniques appropriate for the resolution of personal, social and academic conflicts. A portion of the class time will involve participation in a group and analyzing its dynamics. Prerequisite: Admission to Professional Stage.

Credits: 3  
Rotating Basis

SPC 657A Family Counseling  
Overview of theories of family therapy and study of patterns of family interaction. Techniques for improving family functioning are discussed as well as techniques for dealing with the family in group counseling. Marital counseling and parent counseling are studied. Attention is given to government and private agencies that deal with the
emotional problems faced by families.

SPC 658 The Counselor as a Team Member
An introduction to student personnel services in school settings; various forms of organization and functions; the multidisciplinary foundations of guidance services in schools. Focus on contemporary issues of concern to student personnel work, and specifically on the role of the counselor as a team member of the student personnel staff. Pass/Fail only.

Credits: 3
Rotating Basis

SPC 660A Practicum in Group Work I
An overview of theories, research, techniques and processes in the dynamics of group counseling, with particular emphasis on the role of the leader, the participation of group members, the cohesiveness of the group, the measurement of growth of each group member. The opportunities for using group techniques for clinical work, school counseling, teaching, community work, tutorial programs, and vocational and educational counseling are considered. Pass/Fail only.

Credits: 3
Rotating Basis

SPC 660B Practicum in Group Work II
Continuation of Practicum in Group Work I.

Credits: 3
Rotating Basis

SPC 661A Individual Practicum I
Practical experience of working with counselees under supervision in a K-12 school. In addition to meeting their clients, students also participate in weekly seminars to discuss and evaluate the counseling process. Students may be required to tape and transcribe counseling sessions, participate in video sessions and submit reactions to assigned readings. 200 hours of internship are required (except for Bilingual program students who complete 150 hours as well as Fieldwork courses). Pass/Fail only.

Credits: 3
Rotating Basis

SPC 661B Individual Practicum I - Bilingual
Practical experience of working with limited-English proficiency counselees under supervision in a K-12 school. In addition to meeting their clients, students also participate in weekly seminars to discuss and evaluate the counseling process. Students may be required to tape and transcribe counseling sessions, participate in video sessions and submit reactions to assigned readings. Counseling sessions are conducted in the target language of the graduate student. 150 hours of internship are required. Pass/Fail only.

Credits: 3
Rotating Basis

SPC 661D Individual Practicum II
Continuation of internship in SPC 661A in either the same or another university-approved setting.

Credits: 3
Rotating Basis

SPC 668 Diagnostic Tools for Measurement
(Equivalent to SPC 668A). The function of measurement and evaluation; purpose of testing in schools, agencies and colleges; uses and abuses of tests in our society; achievement, aptitude and psychological tests; use of resource materials; validity, reliability and norms; statistical and clinical procedures; administration and interpretation of tests, role-playing; communication of test results. Role-playing and demonstrations will be utilized.

Credits: 3
Rotating Basis

SPC 668B Diagnostic Tools for Measurement - Bilingual
Emphasis on bilingual testing and cultural diversity; the function of measurement and evaluation with non English speakers; validity, reliability, norms and potential biases with English language learners; administration and interpretation of tests; role-playing and communication of test results to parents who do not speak English.

Credits: 3
Rotating Basis

SPC 667 Introduction to the Techniques of Substance Abuse Counseling
This course will examine the role of the therapist in the assessment and treatment of substance abuse and addiction. We will explore such topics as the stages of addiction and change, diagnostic and assessment tools, adolescent and adult substance abuse, individual, group and family interventions, working with the dually-diagnosed client and the learning and practice of evidence based treatments for substance use disorders (SUDs). Evidence-based approaches to be covered include pharmacotherapies, Cognitive-Behavioral Therapy, Motivational Enhancement Therapy, Multi-Systemic Therapy, the CRAFT approach (Community Reinforcement and Family Training) and 12-Step Self-Help Groups (Alcoholics Anonymous and Narcotics Anonymous).

Credits: 3
Rotating Basis

SPC 675 Physical and Pharmacological Effects of Substance Abuse
This course focuses on the longstanding history of substance abuse disorders as a prevalent and multifaceted mental health issue for society. One key aspect of understanding substance abuse and addiction is to learn about the physical and pharmacological effects of drugs and alcohol on the substance abuser. In this course we will learn about the user’s physiological response to alcohol and other drugs as they occur during intoxication, harmful use, and with increased use, dependence/addiction. We will also look closely at the process of withdrawal as it relates to various substances including alcohol, heroin and nicotine.

Credits: 3
Rotating Basis
SPC 703 Diagnosis of Learning Problems
This course focuses on the assessment of children and youth with a range of literacy and/or learning problems. Course participants explore a range of assessment measures and strategies and how to use information gathered through assessment and analysis to plan or modify instruction utilizing an RTI framework. Topics covered include measurement concepts, administering tests and interpreting test data, communicating testing information to parents, caregivers, and school personnel, using testing information for instructional planning, and legal mandates. Students will be required to perform assessments.
Credits: 3
Rotating Basis

SPC 704 Remediation of Learning Problems of Students
This course focuses on classroom intervention issues as well as one-on-one therapeutic modalities in working with children with developmental and learning disorders. Particular emphasis is given to the treatment of children with pervasive developmental disorders, learning disabilities, emotional disorders and attention deficits. Individual and family consultation and in-classroom intervention techniques are reviewed.
Credits: 3
Rotating Basis

SPC 705 Educational and Psychological Testing and Measurement
Basic statistical and measurement concepts such as central tendency, variability, correlation and factor analysis will be presented and used to interpret test scores and understand test construction. Concepts of validity, reliability and the use of derived scores will be presented. Problems of test administration and evaluation related to social, cultural, legal and ethical issues will be considered. Pre or corequisite: Undergraduate or graduate course in Statistics (may be waived at the discretion of the program director).
Credits: 3
Rotating Basis

SPC 714 Consultation in Multicultural School Settings
Students will study theories of mental health consultation and organizational change as they apply to instructional settings. They will learn to analyze a school's culture and organization in order to act as a positive change agent. They will study ways of developing consultative relationships with colleagues, parents and community agency personnel in order to develop intervention plans for children in schools. Skills crucial to effective consultation and ethical guidelines for practice will be identified and used. Students will learn about issues pertaining to consultation in multicultural settings. This course will be taken concurrently with the internship when possible. Prerequisite:
Admission to Professional Stage. Corequisite: SPC 781.
Credits: 3
Rotating Basis

SPC 715 Supervised Teaching and Practice
This course is designed to provide students with the opportunity to effectively interpret and integrate information concerning educational psychology with educational decision making. Students will be expected to initiate classroom instruction to develop, improve or modify program design. Students will be required to administer teaching assessments and create evaluation criteria for the development of individualized instruction. A variety of assessment data will be utilized to support the development of instruction. Students will be assessed on the ability to integrate the various assessment data utilizing the program setting (Rotating Basis).
Credits: 3
Rotating Basis

SPC 716A Individual Assessment: Cognitive I
Students will learn to administer, score and interpret standardized intelligence tests as part of the cognitive assessment process. This course will focus on the three Wechsler Intelligence Scales. Psychometric properties of these instruments will be related to issues of interpretation. Psychological issues in intelligence testing as well as ethical and legal considerations will be reviewed. Students will be required to administer tests and write assessment reports based on the results. Additional laboratory hours will be required. Prerequisite: SPC 704.
Credits: 3
Rotating Basis

SPC 717A Individual Assessment: Cognitive II
Students will continue to learn how to assess the cognitive functioning of children by administering, scoring and interpreting intelligence tests used by school psychologists including the Stanford-Binet Intelligence Scale. The assessment of social adaptive behavior is studied. Integration of findings with educational and other evaluation results will be examined so that individual education plans can be developed. Students will be required to administer tests, write assessment reports and make case presentations. Additional laboratory hours will be required. Prerequisite: SPC 721A and admission to Professional Stage.
Credits: 3
Rotating Basis

SPC 722A Individual Assessment: Personality I
Students will administer and interpret measures of personality and examine their relationship to cognitive functioning as part of the entire assessment process. This course will focus on clinical interviews, figure drawings, sentence completion, apperception tests and the Rorschach. Students will be required to administer these personality measures, make class presentations and write reports. The interpretation of assessment data will be based on theories of personality presented in this course. Cultural, ethical and legal issues will be explored. Additional laboratory hours will be required. Prerequisites: SPC 704 and admission to Professional Stage.
Credits: 3
Rotating Basis

SPC 722B Individual Assessment: Personality II
Students will continue to develop their skills in personality assessment. Emphasis will be on the use of the Rorschach as well as self-reports and behavior rating scales. Students will administer and interpret complete psychological evaluations and present their findings in case presentations and written reports. Interpretation of data will focus on integrating clinical findings so that specific educational plans can be developed. Cultural, legal and ethical issues will be further explored. Additional laboratory hours will be required. Prerequisites: SPC 722A and admission to Professional Stage.
Credits: 3
Rotating Basis

SPC 724 Assessing the Bilingual Child
The course will examine issues in the assessment of bilingual children including the appropriate use of standardized measures, non-discriminatory assessment, alternative approaches to the assessment of cognitive functioning and social adaptive behavior of linguistically diverse children. Students will learn when and how to conduct evaluations in the child's first and/or second language. Students will administer tests, make case presentations and write reports. Interpretation of data will focus on integrating clinical findings so that individual educational plans will be developed. Additional laboratory hours will be required. Prerequisites: SPC 721B and admission to Professional Stage.
Credits: 3
Rotating Basis

SPC 725 Assessment Seminar
(Required course for students not attaining B+ average in assessment courses.)
This course will focus on enhancing students' assessment skills, as well as their ability to integrate a variety of assessment data; write and orally communicate evaluation results; and recommend intervention strategies to other professionals and families. Students are expected to write psychological reports, present case studies, make recommendations and write educational objectives. Prerequisite: Admission to Professional Stage.
Credits: 0
Rotating Basis

SPC 726 Research Methods
Students will learn to analyze research in psychology, counseling, therapy and education. Major statistical and measurement concepts will be applied in order to understand how research problems are systematically investigated using experimental and quasi-experimental designs. Surveys and qualitative research will also be discussed. Students will evaluate professional literature, discuss its implications for the practice of school psychology, mental health counseling, and marriage and family therapy, and design research proposals.
Credits: 3
Rotating Basis

SPC 745A The Family of the Substance Abuser
This course will deal with the issues for family members, significant others and friends of substance abusers. Identification of these individuals as "hidden victims" is important in order to understand the impact this has on the school, work and other environments of family members. Students will be expected to gain a
SPC 745C College Admissions Process
This course is designed for students presently working in a school setting, or pursuing a path leading to certification in school counseling. The broad span of topics covered will assist them with the knowledge and skills to work effectively with students and families for the college admission and selection process. Through a multi-modal approach, students will develop practical skills to help traditional, special, and diverse populations. Current trends in college admissions, ethical issues, financial aid, the student essay, letters of recommendations, admission testing and the student athlete are among the many topics that will be addressed. Students will also learn to use Web-based tools for college advisement.
Credits: 3
Rotating Basis

SPC 745D Domestic Violence
This course will examine key issues related to domestic violence (DV). Differentiating partner abuse from unhealthy relationships, motivation for maintaining abusive relationships, intergenerational effects, legal issues, cultural awareness, Feminist Model vs. Mental Health Model, and counseling techniques and strategies to help. Classes are taught in “seminar style” using a combination of lecture by the professor, guest speakers and student presentations, discussion of class readings/reaction papers, group activities and videos.
Credits: 3
Rotating Basis

SPC 745E Counseling the Special Education Student
This course aims at providing the student or current counselor or mental health practitioner with a broad, in-depth understanding of myriad factors which impact on the adaptation, self-image and adjustment of special education students. Through such understanding, the course will then develop and explore counseling and palliative principles to guide work with such populations. Self-awareness as related to these issues will be stressed throughout the course as students develop a deeper comprehension of ethical and professional counseling practice in our diverse society.
Credits: 3
Rotating Basis

SPC 745G Counseling Issues with the LGBT Community
This course is designed to provide the student with the knowledge and skills needed to understand and maximize his/her effectiveness in working with the Lesbian, Gay, Bisexual and Transgender community across the life span. With particular focus on young people and their families, areas of discussion will encompass contributing factors such as culture, religious background, and socio-economic status.
Credits: 3
Rotating Basis

SPC 745H High School Counseling
This course will focus on the practical application of a comprehensive developmental school-counseling program at the high school level. The roles and responsibilities of a high school guidance counselor will be discussed. Topics to be covered will include college admissions, academic advisement, crisis intervention, consultation, and career planning. There will be a focus on individual planning, assessment, career, college, and transitional planning. Current issues and special programs in high school counseling will also be discussed.
Credits: 3
Rotating Basis

SPC 745ICutting Edge Issues in School Counseling
This course will focus on current issues facing counselors working with students individually and in groups in the 21st century. Contemporary counseling approaches such as solution-focused and cognitive behavior therapy will be explored in depth. Students will be asked to bring a real life issue of concern to investigate. Topics such as working with resistant, self-abusive and school avoidant students will be discussed as well as the impact of societal trends such as social media and the Internet.
Credits: 3
Rotating Basis

SPC 745J Multicultural and Diversity Issues in Counseling
This course will explore issues in multicultural counseling. There will be a review of the theory and research necessary to work more effectively with culturally diverse people. Students will develop cultural awareness and apply new insights in multicultural situations. The course will increase students' multicultural counseling and development knowledge, with a focus on communication problems when contact is made with persons from differing cultural, ethnic and racial backgrounds and how these factors impact on the counseling relationship.
Credits: 3
Rotating Basis

SPC 745K Resiliency-Focused Counseling
This course will focus on current issues facing counselors working with students individually and in groups in the 21st century. Contemporary counseling approaches such as solution-focused and cognitive behavior therapy will be explored in depth. Students will be asked to bring a real life issue of concern to investigate. Topics such as working with resistant, self-abusive and school avoidant students will be discussed as well as the impact of societal trends such as social media and the Internet.
Credits: 3
Rotating Basis

SPC 746J Resiliency-Focused Counseling
This course will focus on current issues facing counselors working with students individually and in groups in the 21st century. Contemporary counseling approaches such as solution-focused and cognitive behavior therapy will be explored in depth. Students will be asked to bring a real life issue of concern to investigate. Topics such as working with resistant, self-abusive and school avoidant students will be discussed as well as the impact of societal trends such as social media and the Internet.
Credits: 3
Rotating Basis

SPC 748 Middle School Counseling
This course focuses on teaching the student how to successfully navigate a comprehensive middle school counseling program. The course leads the student through the academic, developmental, emotional and social challenges faced by the young adolescent student in grades six through eight. Also discussed will be the specific role and responsibilities of the middle school counselor, the importance of parent partnerships, student transition from elementary school and to high school, CSE and 504 plans, RTI, the team teaching environment and team meetings, career awareness, middle school counseling groups and crisis interventions.
Credits: 3
Rotating Basis

SPC 750 Spiritual Issues in Counseling
This course will explore an important and often neglected aspect of counseling: the client's spiritual/religious beliefs. Topics to be covered include spiritual explanations for suffering, counseling perspectives of the major spiritual/religious traditions; special needs and problems of the religious client; the counselor's own belief system; and the clinical use of client's beliefs. The course will employ didactic lecture, group discussion and exercises, case study presentations, and, role-plays of counseling sessions. Specific dates of lectures and readings will be provided at the first class meeting.
Credits: 3
Rotating Basis

SPC 751 Technology for School Counselors
This course will focus on how school counselors can incorporate technology into the delivery of academic, personal/social and college/career readiness. In addition, students will learn the utilize technology resources to analyze school counseling effectiveness, but also promotion of school counseling programs. Students would obtain a full list of technology resources to use such as surveys in Google Docs, Webinars, school counseling website and presentation development.
SPC 757 Individual Counseling in School Settings
An introduction to major theories of individual counseling as they pertain to school settings. Individual techniques, other than psychotherapy used to enhance self-esteem, self-awareness and social skills and to reduce adjustment problems are practiced. Crisis intervention is discussed. Issues pertaining to the counseling of culturally and linguistically diverse individuals and their families are examined.
Credits: 3 Rotating Basis

SPC 781A Internship in School Psychology I - General
The total internship requirement is equivalent to two semesters of full-time placement (600 hours each semester) in a school setting under the dual guidance of an on-site staff psychologist and a university-based clinical supervisor. Participation in the intake and screening process, individual evaluations, interdisciplinary staff conferences, parent conferences and professional meetings is required. Students will evaluate children, write reports and practice short-term counseling and consultation under the supervision of the on-site psychologist. Students will also attend weekly meetings with the university clinical supervisor in which professional and ethical issues related to the practice of school psychology in multicultural settings will be discussed. Students must apply for the internship in the semester prior to registration. 781A for General Program. Prerequisites: Departmental approval, 42 credits including all required testing courses and admission to Professional Stage.
Credits: 3 Rotating Basis

SPC 781B Internship School Psychology I - Bilingual
The internship requirement is equivalent to two semesters of full-time placement (600 hours each semester) in a school setting, working with bilingual students/English language learners under the dual guidance of an on-site staff psychologist and a university-based clinical supervisor. Participation in the intake and screening process, individual evaluations, interdisciplinary staff conferences, parent conferences and professional meetings is required. Students will evaluate children, write reports and practice short-term counseling and consultation under the supervision of the on-site psychologist. Students will also attend weekly meetings with the university clinical supervisor in which professional and ethical issues related to the practice of school psychology in multicultural settings will be discussed. Students must apply for the internship in the semester prior to registration. 781B for Bilingual Program. Prerequisite: SPC 781A.
Credits: 3 Rotating Basis

SPC 782A Internship School Psychology II - General
Continuation of internship in SPC 781A in either the same or another university-approved setting. 782A for General Program, Prerequisite: SPC 781A.
Credits: 3 Rotating Basis

SPC 782B Internship School Psychology II - Bilingual
Continuation of internship in SPC 781B in either the same or another university-approved setting. SPC 782B for Bilingual Program. Prerequisite: SPC 781B.
Credits: 3 Rotating Basis

SPC 792 Counseling Children and Parents: Different Perspectives and Different Approaches
This course will guide students through assessing, planning, and conducting psychotherapy with children, teenagers and their parents. It will provide an in-depth understanding of how therapists from different orientations - cognitive, behavioral, family systems and psychodynamic - conceptualize and intervene with children, teenagers, and their parents. Students will learn how to work most effectively with various child-related issues, including anxiety, depression, oppositional behavior, selective mutism, abuse, ongoing conflict with parents, family struggles (including divorce and death), eating disorders, social-emotional difficulties, and learning and attention issues. This course includes a combination of lecture, group discussion, interactive exercises and role-playing.
Credits: 3 Rotating Basis

TED 516 Learning in Bilingual/Multicultural Settings
This course focuses on the individual, social, cognitive and linguistic nature of bilingualism, including second language acquisition, sociology of language, and the relationship between language and culture. Students also explore the sociopolitical, historical, and legal foundations that have shaped bilingual and multicultural education policies, program models, and teaching and assessment practices. In addition, students develop an understanding of the distinction between language differences and language disability as they examine issues relating to second language learners with diverse learning needs.
Credits: 3 Rotating Basis

TED 612 Assessment for English Language Learners in Special Education
This course is designed to develop competency in implementing appropriate multidisciplinary assessment techniques for English language learners with disabilities. Students will examine both formal and informal assessment instruments and strategies, and will analyze them in the context of planning for IEP (Individualized Educational Program) objectives. Field work required.
Credits: 3 Rotating Basis
PHARMACEUTICS

Specializations in: Industrial Pharmacy and Cosmetic Science

The Pharmaceutics Program is career-oriented. Curricula are evaluated at regular intervals to ensure that they reflect contemporary knowledge and practices in the Pharmaceutical and Cosmetic Industries. Students are offered didactic course work taught by experienced professionals, from both industries, who combine their practical experiences with the basic theories that underlie their courses. The heavy concentration of pharmaceutical industry and health-care institutions in the New York Metropolitan area provides unusual opportunities for such study.

The graduate programs are designed to provide the theoretical and conceptual framework that is inherent in advanced studies, and to promote the development of specific skills applicable to Pharmaceutics and Cosmetic Science. Consequently, the programs have two major and consistent objectives: first, the pursuit of scholarly achievement; second, the enhancement of career mobility. This integrated approach provides students with unique opportunities to concentrate their efforts in areas that are productive and fulfilling.

Two specializations are available in the M.S. program in Pharmaceutics: Industrial Pharmacy and Cosmetic Science.

Industrial Pharmacy Specialization

The primary goal of the program is to provide advanced study opportunities for individuals interested in various aspects of drug development in the pharmaceutical industry. The areas include pharmaceutical research and development, manufacturing, unit operations and related activities.

Cosmetic Science Specialization

In keeping with the rapid changes and advances in the field of cosmetic science, the graduate program in cosmetic science provides an appropriate blend of course work in the areas of chemistry, pharmacology, toxicology, microbiology and pharmacy.

These disciplines are coupled with their applications to the development and formulation of cosmetic products, and will serve to help the student to function more effectively in the cosmetic industry.

Inquiries may be directed to:

Jason LePree, Director, Pharmaceutics Programs
845-450-5435
jason.lepree@liu.edu
**M.S. in Pharmaceutics (with specializations in Industrial Pharmacy and Cosmetic Science)**

**Admission Requirements**
Applicants must have a baccalaureate degree from an accredited institution and a successful record of achievement in undergraduate studies with a major in pharmacy, biology, chemistry, biochemistry or physics.

**Full Matriculation Requirements**
Full matriculation indicates that the student meets all the requirements for admission in the degree program. These requirements are:
- Official undergraduate transcripts reflecting a baccalaureate degree or the successful completion of another master's degree, both with a GPA of 3.0 or above
- Two letters of recommendation

**Degree Requirements**
Candidates for the M.S. degree in the Industrial Pharmacy specialization must complete 36 credits of course work and pass the written Comprehensive Examination. Candidates for the M.S. degree in the Cosmetic Science specialization must complete 33 credits of course work and pass the written comprehensive examination.

Requirements for students currently enrolled, or admitted prior to fall 2014:

**M.S. in Pharmaceutics with Specialization in Industrial Pharmacy - 36 Credits**
*Program Code: 30469*

**Core Requirements - 24 credits**
- PHS 020 Seminar in Pharmaceutics 3.00
- PHS 071 Physical Chemistry I 3.00
- PHS 901 Basic Pharmaceutics 3.00
- PHS 931 Advanced Physical Pharmacy I 3.00
- PHS 934 Principles of Industrial Pharmacy I 3.00
- PHS 935 Principles of Industrial Pharmacy II 3.00
- PHS 972 Methods of Pharmaceutical Analysis 3.00
- PHS 987 Advanced Biopharmaceutics and Pharmacokinetics 3.00

**Elective Requirements - 12 Credits**
- PHS 902 Regulatory Compliance in the Practice of Industrial Pharmacy 3.00
- PHS 932 Advanced Physical Pharmacy II 3.00
- PHS 936 Dosage Form Design 3.00

**Elective Requirements - 9 Credits**
- PHS 937 Pharmaceutical Engineering 3.00
- PHS 950 Cosmetic / Dermatological Formulations and Technology I 3.00
- PHS 951 Cosmetic / Dermatological Formulations and Technology II 3.00
- PHS 954 Special Topics in Pharmaceutical and Cosmetic Microbiology 3.00
- PHS 958 Aerosol Science and Technology 3.00
- PHS 960 Properties/Applications of Cosmetic and Pharmaceutical Raw Materials 3.00
- PHS 970 Principles of Quality Assurance 3.00
- PHS 975 Introduction to Packaging Principles 3.00
- PHS 979 Design of Peptide and Protein Drug Delivery Systems 3.00
- PHS 982 Science and Technology of Controlled Release Systems 3.00
- PHS 984 Biomaterials in Pharmacy and Medicine 3.00
- PHS 986 Microencapsulation 3.00

**Requirements for students admitted to the program starting fall 2014:**

**M.S. in Pharmaceutics with Specialization in Industrial Pharmacy - 36 Credits**
*Program Code: 30469*

**Core Requirements - 27 credits**
- PHS 902 Pharmacological Regulatory Overview (formerly Regulatory Compliance in the Practice of Industrial Pharmacy) 3.00
- PHS 931 Advanced Physical Pharmacy I 3.00
- PHS 932 Advanced Physical Pharmacy II 3.00
- PHS 934 Principles of Industrial Pharmacy I 3.00
- PHS 935 Principles of Industrial Pharmacy II 3.00
- MAT 610 Differential Equations I* 3.00

**Elective Requirements - 9 Credits**
- PHS 972 Methods of Pharmaceutical Analysis Advanced 3.00
- PHS 987 Biopharmaceutics/ Pharmacokinetics 3.00
- PHA 010 Biostatistics 3.00

**M.S. Degree in Pharmaceutics with Specialization in Cosmetic Science - 33 Credits**
*Currently offered at the LIU Brooklyn campus only*

**Core Requirements - 24 Credits**
- PHA 010 Biostatistics 3.00
- PHS 022 Seminar in Cosmetic Science* 3.00

---

*Pharmacology of theophylline*

</table>
PHS 950 Cosmetic / Dermatological Formulations and Technology I
The course provides a thorough review of skin physiology, mechanistic analysis of the relevant skin functions, and percutaneous absorption. The physicochemical principles and the performance criteria that are evaluated to rationally develop dermatological formulations will be taught. Emphasis is placed on product development, scale-ups, manufacturing, stability-testing and performance evaluations of modern-day cosmetic, toiletry and pharmaceutical topical products. The course covers skin care, hair care and treatment systems including creams, lotions, shampoos, gels, fluids, makeups, sunscreens and pharmaceutical dermatologicals. Limited to 20 students.
In order to register for this course the student must be in the Hudson Pharmacy Graduate program.
Credits: 3
On Demand

PHS 951 Cosmetic / Dermatological Formulations and Technology II
This course offers in-depth studies of human hair morphology, structure, its mechanistic analyses / functions, hair growth and damage, as related to age and the chemicals from daily hair care products. Students will learn the basic concepts and theories of heterogeneous systems including emulsions, fluids, gels, sprays and suspensions for use in the product development of all types of safe and effective modern hair related cosmetic and dermatological products, including shampoos, conditioners, hair sprays, antidandruff and other varieties of products. In addition, all pertinent aspects of product safety and toxicological issues will be covered. Limited to 20 students.
In order to register for this course the student must be in the Hudson Pharmacy Graduate program.
Credits: 3
On Demand

PHS 952 Cosmetic / Dermatological Formulations and Technology Laboratory
Designed for in-depth study of product development, scale-up, manufacturing, stability-testing and performance evaluations of modern-day cosmetic and toiletry products. This course is only offered at the LIU Brooklyn campus. This course has an additional laboratory fee. Limited to 20 students.
In order to register for this course the student must be in the Hudson Pharmacy Graduate program.
Credits: 3
On Demand

PHS 954 Special Topics in Pharmaceutical and Cosmetic Microbiology
Laboratory design and equipment requirements including discussions of laminar flow and automation, will be covered. Special attention to legal requirements, sanitation and good manufacturing practices; disinfectants, antiseptics, preservatives and preservation; test methods for air, water, raw materials, finished products; sterility tests and new techniques in diagnostic work; assay methods; evaluation of personal products; microbiological statistics. Limited to 20 students.
In order to register for this course the student must be in the Hudson Pharmacy Graduate program.
Credits: 3
On Demand

PHS 958 Aerosol Science and Technology
An in-depth study of the physicochemical principles of aerosol science and technology. The topics covered include: aerosol propellants, containers, valve and actuator systems, product development, manufacturing, stability testing and performance evaluations of all types of aerosol products. Special emphasis is placed on the homogeneous and heterogeneous systems used in the formulations of topical, nasal and inhalation aerosol drug delivery products. Limited to 20 students.
In order to register for this course the student must be in the Hudson Pharmacy Graduate program.
Credits: 3
On Demand

PHS 960 Properties/Applications of Cosmetic and Pharmaceutical Raw Materials
The course is tailored to students who are interested in learning about the formulation and manufacturing of cosmetic, toiletry and pharmaceutical products. The course covers the physicochemical properties of major classes of raw materials, including binders, disintegrants, fillers, surfactants, film formers, plasticizers, preservatives, antioxidants, thickeners and dispersants, and pharmaceutical solvents. Special emphasis is placed on the creative and innovative application of these raw materials in the development of contemporary cosmetic/toiletry and pharmaceutical dosage forms. Limited to 20 students.
In order to register for this course the student must be in the Hudson Pharmacy Graduate program.
Credits: 3
On Demand

PHS 970 Principles of Quality Assurance
This course provides an introduction to both theory and practice of the total control of quality in pharmaceutical manufacturing. Topics include: total quality control; quality assurance organization and its role in research, development and production; current good manufacturing practices; statistical quality control; and expanded discussions on process validation and stability, and expiration dating. Limited to 20 students.
In order to register for this course the student must be in the Hudson Pharmacy Graduate program.
Credits: 3
On Demand

PHS 972 Methods of Pharmaceutical Analysis
Students will learn the theory governing the most common methods of pharmaceutical analysis. The course will cover basic statistics so that students can interpret results obtained from analysis of pharmaceuticals and understand certain concepts including linear regression, which are required to solve quantitative problems of pharmaceutical analysis. The techniques that will be discussed in the course include: UV/Visible Spectroscopy, Infrared Spectroscopy, Fluorescence Spectroscopy, Liquid-Liquid extractions, Solid Phase Extractions, Gas and Liquid Chromatography and Dissolution. Other techniques and topics will be discussed as time permits. Limited to 20 students.
In order to register for this course the student must be in the Hudson Pharmacy Graduate program.
Credits: 3
On Demand

PHS 975 Introduction to Packaging Principles
The course will review the structure and composition of various materials used in the preparation of consumer-oriented primary and secondary packaging (pharmaceutical, cosmetic, device, etc.). Their potential interaction and impact on shelf life will be discussed, with the emphasis on fundamental physical chemical principles applied to package function and design. Regulatory aspects will be discussed whenever applicable. Limited to 20 students.
In order to register for this course the student must be in the Hudson Pharmacy Graduate program.
Credits: 3
On Demand

PHS 979 Design of Peptide and Protein Drug Delivery Systems
An introduction to the gene-cloning technology and ex vivo cell cultures as a new source for protein and peptide drugs. Students will learn the physico-chemical characteristics and biochemical properties of polypeptides; physical and chemical degradation pathways characteristic to protein drugs; suggested mechanisms of protein drug absorption; classification and properties of absorption promoters for macromolecules; how to design the appropriate delivery system for a stable, effective protein drug through parenteral or non-parenteral routes. Specific protein products for the diagnosis, treatment and prevention of diseases, which are now commercially available, will be covered. Limited to 20 students.
The pre-requisites of PHS 311 and 312 are required and the student must be in the Hudson Pharmacy Graduate program in order to register for this course.
Credits: 3
On Demand

PHS 982 Science and Technology of Controlled Release Systems
Students will learn the design and fabrication of currently utilized devices for controlling the release of protein to meet the physiological needs of the body. The various controlled release systems and their applications in the delivery of peptides, proteins and other macromolecules will be discussed. An introduction to microdialysis and its role in the delivery of macromolecules will be reviewed. Limited to 20 students.
In order to register for this course the student must be in the Hudson Pharmacy Graduate program.
Credits: 3
On Demand
of drugs to the human body. A wide variety of drug delivery system designs will be analyzed in this course. Mechanisms and kinetics of drug release from these systems, structure and properties of fabrication materials, principles of molecular diffusion across polymer barriers and transport across biological interfaces will be covered. Limited to 20 students.  

*In order to register for this course the student must be in the Hudson Pharmacy Graduate program.*  

**Credits: 3**  

*On Demand*

**PHS 984 Biomaterials in Pharmacy and Medicine**  
Students will learn the combined application of the principles of physical chemistry, biochemistry, materials engineering, mass transfer, fluid mechanics and biological interactions to pharmaceutical and biomedical problems. Practical aspects of biomaterials research, development and performance will also be explored. The course will examine: specific case studies for material selection needed to prepare the components of artificial organs and drug-containing implants for use in the body; state-of-the-art research ideas; and the relationship of these concepts to improve pharmaceutical and medical systems. Limited to 20 students.  

*In order to register for this course the student must be in the Hudson Pharmacy Graduate program.*  

**Credits: 3**  

*On Demand*

**PHS 986 Microencapsulation**  
This course will provide a comprehensive study of the design and production of fine particles, including microcapsules, microspheres, and nanoparticles. The course will stress microencapsulation processes of pharmaceuticals. It will discuss the state of the arts, sciences, and modern techniques that must be mastered to be able to prepare and test products that will work correctly, effectively, and be clinically acceptable for human or animal use. This course also includes characterization of microencapsulation dosage form products. Limited to 20 students.  

*In order to register for this course the student must be in the Hudson Pharmacy Graduate program.*  

**Credits: 3**  

*On Demand*

**PHS 987 Advanced Biopharmaceutics and Pharmacokinetics**  
Students will learn the application of pharmacokinetic principles and pharmacokinetic models to dosing, bioavailability and bioequivalence of drugs. Limited to 20 students.  

*In order to register for this course the student must be in the Hudson Pharmacy Graduate program.*  

**Credits: 3**  

*On Demand*
BLENDED AND ONLINE LEARNING PROGRAMS AT LIU

Technology-enhanced, blended and online learning are an important part of fulfilling LIU’s mission of access and excellence in higher education. These courses and programs are delivered through the University’s Blackboard Learning Management System, which enables students to complete their online coursework at any time of day and at any place in the world there is an Internet connection. LIU’s blended learning programs feature both face-to-face and online components, reducing the amount of time students need to be physically present on campus, while still reaping the benefits of meeting in person with professors, fellow students, and other professionals.

The University currently offers the following degree and certificate programs in the blended or online learning format:

**LIU Brooklyn**
- Computer Science, M.S.
- Educational Leadership, Advanced Certificate
- Bilingual Education, Advanced Certificate ***
- Nursing (R.N. to B.S. track), B.S.
- Adult Nurse Practitioner, B.S. / M.S. (dual degree)
- Adult Nurse Practitioner, M.S.
- Adult Nurse Practitioner, Advanced Certificate
- Family Nurse Practitioner, M.S.
- Family Nurse Practitioner, Advanced Certificate
- Nurse Educator, M.S.

**LIU Post**
- Accountancy, M.S.
- Taxation, M.S. ***
- Archives & Records Management, Advanced Certificate ***
- Environmental Sustainability, M.S.
- Library & Information Science/School Library Media, M.S.
- Mobile GIS Applications Development, Advanced Certificate ***
- Educational Technology, M.S.
- TESOL, M.A.
- Adolescence Education (Pedagogy Only), M.S.
- Health Information Management, B.S.
- Health Information Management, Certificate (undergraduate) ***
- Nursing Education, M.S.
- Nursing Education, Advanced Certificate

**LIU Hudson**
- Bilingual Extension, Advanced Certificate ***
- Bilingual Special Education (Intensive Teacher Institute), Advanced Certificate ***
- TESOL: Special Education (Intensive Teacher Institute), Advanced Certificate ***
- TESOL, Advanced Certificate +++

**LIU Riverhead**
- Homeland Security Management, M.S. ***
- Cyber Security Policy, Advanced Certificate ***
- TESOL, Advanced Certificate +++

Our programs are accredited by the Middle States Commission on Higher Education and are registered with the New York State Education Department. For additional program information, please consult the appropriate academic department pages of the campus bulletin.

*** Denotes a fully online program.

+++ Students are enrolled at LIU Hudson, and take their courses online with face-to-face courses taken at either LIU Riverhead or LIU Hudson.
