Notice to Students: The information in this publication is accurate as of September 1, 2011. However, circumstances may require that a given course be withdrawn or alternate offerings be made. Therefore, Long Island University reserves the right to amend the courses described herein and cannot guarantee enrollment into any specific course section. All applicants are reminded that the University is subject to policies promulgated by its Board of Trustees, as well as New York State and federal regulation. The University therefore reserves the right to effect changes in the curriculum, administration, tuition and fees, academic schedule, program offerings and other phases of school activity, at any time, without prior notice.

The University assumes no liability for interruption of classes or other instructional activities due to fire, flood, strike, war or other force majeure. The University expects each student to be knowledgeable about the information presented in this bulletin and other official publications pertaining to his/her course of study and campus life. For additional information or specific degree requirements, prospective students should call the campus Admissions Office. Registered students should speak with their advisors.

LONG ISLAND UNIVERSITY

In its ninth decade of providing access to the American dream through excellence in higher education, Long Island University is a multicampus, diverse, doctoral institution of higher learning. One of the largest and most comprehensive private universities in the country, Long Island University offers more than 550 undergraduate, graduate and doctoral degree programs and certificates, and educates over 24,000* students in degree-credit and continuing education programs in Brooklyn, Brookville (C.W. Post), Brentwood, Riverhead, Rockland and Westchester. The Arnold & Marie Schwartz College of Pharmacy and Health Sciences prepares students for successful careers in the fields of pharmacy and health care. The University’s Global College provides a wide range of study abroad options at overseas centers in China, Costa Rica and India, and through program offerings in Australia, Taiwan, Thailand and Turkey.

Long Island University’s more than 600 full-time faculty members provide outstanding instruction, which is supplemented by internships and cooperative education opportunities. The accomplishments of more than 182,000 living alumni are a testament to the success of its mission – providing the highest level of education to people from all walks of life. The University’s NCAA Division I and II athletic teams, nationally renowned George Polk Awards in journalism and Tilles Center for the Performing Arts provide enrichment for students and the community.

*This number includes high school students enrolled in one or more degree-credit courses.

Accreditation and Program Registration

Long Island University is accredited by the Commission on Higher Education of the Middle States Association of Colleges and Schools, 3624 Market Street, Philadelphia, PA 19104, (215) 662-5606. The Commission on Higher Education is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation. The degree and certificate programs also are approved and registered by the New York State Department of Education.
The Residential Campuses

Brooklyn Campus

The Brooklyn Campus is distinguished by dynamic curricula reflecting the great urban community it serves. Distinctive programs encompass the arts and media, the natural sciences, business, social policy, urban education, the health professions, pharmacy and the health sciences, all on a pluralistic campus that draws insight and strength from differences. The Campus offers Ph.D. programs in clinical psychology and pharmaceutics, the D.P.T. in physical therapy and the Pharm.D. in pharmacy. In the past year, the Brooklyn Campus has received more than $3,000,000 in new external funding to support a variety of programs including faculty research, community outreach and student-centered projects.

Founded in 1926, the Brooklyn Campus is the original unit of Long Island University and its only one in New York City. The 11-acre site in downtown Brooklyn is convenient to many subway and bus lines and the Long Island Rail Road.

The Brooklyn Campus offers more than 200 associate, undergraduate, graduate, doctoral and certificate programs. Serving a diverse student body, its academic units include the Richard L. Conolly College of Liberal Arts and Sciences; the School of Business, Public Administration and Information Sciences; the School of Education; the School of Health Professions; and the Arnold & Marie Schwartz College of Pharmacy and Health Sciences. It is known for its nationally recognized Honors Program.

The $45-million Wellness, Recreation and Athletic Center serves the Campus and the surrounding community, and the Cyber Café provides a high-tech hot spot for students and faculty members to meet and eat.

C.W. Post Campus

The C.W. Post Campus is distinguished by programs of excellence and small classes in five schools of study: College of Education and Information Sciences, College of Liberal Arts and Sciences, College of Management, School of Health Professions and Nursing, and School of Visual and Performing Arts. The wooded suburban campus, only 20 miles from New York City, is home to the renowned Tilles Center for the Performing Arts, Hillwood Art Museum and WCWP-FM. C.W. Post offers the Ph.D. in information studies, the Psy.D. in clinical psychology and the Ed.D. in interdisciplinary educational studies.

The Campus was established on the former estate of cereal heiress Marjorie Merriweather Post in 1954 to accommodate the growing educational needs of Nassau County following World War II. Named for breakfast cereal magnate Charles William Post, C.W. Post offers its full-time, part-time and non-credit students a comprehensive range of more than 240 associate, undergraduate, graduate, and doctoral degree programs and certificates. In addition, the Campus offers college credit courses to high school students in area schools.

The Campus is recognized as one of the nation’s most beautiful academic settings. Modern buildings range from an acclaimed student union to an elegant library. Beautiful red-brick academic buildings, including Humanities Hall, Pell Hall Life Science and the Kahn Discovery Center, are outfitted with wireless classrooms, major-specific laboratories and computer centers. C.W. Post’s award-winning cooperative education program is nationally renowned for its extensive career counseling and job placement services.

Fifteen NCAA men’s and women’s sports teams take advantage of C.W. Post’s 70 acres of playing fields. Clubs, fraternities and sororities provide many other outlets for student activities. C.W. Post’s $18-million Pratt Recreation Center is a state-of-the-art health and fitness facility featuring an eight-lane swimming pool, three full-size basketball courts, racquetball courts and an elevated jogging track.

Tilles Center for the Performing Arts, Long Island’s premier concert facility, brings Carnegie Hall and Lincoln Center to the Campus with world-class jazz, rock, folk music, dance, mime, orchestral and chamber music performances.
The Regional Campuses

Brentwood Campus

The Brentwood Campus of Long Island University has been offering undergraduate and graduate programs to residents of Suffolk County, Long Island since 1959. The Campus is located on Second Avenue in Brentwood, on 172 acres of tree-lined property owned by the Sisters of St. Joseph.

The Brentwood Campus has been an innovator in developing fast-track master’s degree programs for working professionals who wish to accelerate their studies. These programs offer a set schedule of courses and a reduced tuition rate. Qualified applicants enroll as a cohort and proceed to earn the M.S. in criminal justice. A Master in Business Administration (M.B.A.) also is offered.

The Campus offers M.S. degrees in early childhood education B-2, childhood education 1-6, childhood education/special education, childhood education/literacy education B-6, mental health counseling and school counselor, as well as the M.S.Ed. in literacy B-6 and special education 1-6.

Graduate courses are offered in conjunction with a number of different programs at the C.W. Post Campus, including library and information science. The Campus also offers an undergraduate program in criminal justice.

Classes are small and personalized. Students take advantage of a full range of computer and library facilities by networking with the University’s mainframe systems. The Campus schedules most of its courses during late afternoons, evenings and weekends.

Hudson Graduate Centers at Rockland and Westchester

For more than a quarter of a century, Long Island University has been offering graduate degree and certificate programs in Rockland and Westchester Counties. The Hudson Graduate Center at Rockland is conveniently located near the Palisades Parkway in Orangeburg, N.Y., just two miles from the New Jersey border. The Hudson Graduate Center at Westchester is located in a state-of-the-art facility on the grounds of Purchase College, which features high-tech classrooms designed for adult learners. Both Centers boast technologically advanced library resources and mainframe-networked computer labs, and offer small classes with personalized instruction delivered by full-time and adjunct faculty members who bring a wealth of practical experience and an understanding of career trends to the classroom.

Students enroll as degree candidates or as non-degree students who wish to pursue graduate courses for personal enrichment or professional advancement. Most classes in Rockland and Westchester are held in the late afternoons, in the evenings and on weekends to meet the scheduling needs of working adults. Program offerings include: business (M.B.A. and/or advanced certificate); health or public administration (M.P.A. and advanced certificate in gerontology); educational leadership (M.S.Ed. and/or advanced certificate); education (M.S.Ed. and/or advanced certificate) in the areas of childhood – grades 1-6, early childhood, middle childhood and adolescence – grades 5-12, special education, autism, literacy, bilingual, TESOL, bilingual extension, gifted extension, writing and reading, school counseling and school psychology; marriage and family therapy (M.S.); mental health counseling (M.S.); and pharmaceutics (M.S.) with specializations in industrial pharmacy and cosmetic science. The Palmer School of Library and Information Science, which is based at the University’s C.W. Post Campus, also offers a rich array of graduate-level courses at the Hudson Graduate Center at Westchester.

Long Island University at Riverhead

Long Island University at Riverhead offers high-quality undergraduate and graduate courses and programs to residents of Long Island’s East End. Conveniently located on Suffolk County Community College’s Eastern Campus, just 10 minutes from exit 70 on the Long Island Expressway, it provides working adults and recent baccalaureate graduates with the opportunity to pursue a private education during the evenings and weekends.

Offerings include the upper division B.S. in childhood education (grades 1-6), the upper division B.A. in communication studies - new media, the M.S. in childhood education (grades 1 – 6), the M.S. in literacy education (birth – grade 6), the M.S. in teaching students with disabilities (grades 1 – 6 or generalist grades 7 – 12) and an advanced certificate in applied behavior analysis. In addition, an M.S. and an advanced certificate in homeland security management are offered fully online. The Homeland Security Management Institute features comprehensive curricula designed by professionals for professionals. Faculty members and guest lecturers include some of the top names in law enforcement, counterterrorism and government.

Long Island University at Riverhead

GENERAL INFORMATION

About Long Island University at Riverhead

Long Island University at Riverhead is a private institution of higher learning offering unique and distinguished programs with local and international appeal. The University provides a diverse mix of undergraduate and graduate degrees and attracts students from as close by as Montauk, Long Island and as far away as Dubai.

Through a unique partnership with Suffolk County Community College, Long Island University at Riverhead offers two landmark upper-division bachelor’s degree programs: a B.S. in childhood education and a B.A. in communication studies – new media. These programs provide students with a unique opportunity to earn a four-year undergraduate degree without having to leave the east end of Long Island. We also offer traditional master’s degree programs in the field of education. Accredited by the Teacher Education Accreditation Council, our education programs (both graduate and undergraduate) are highly regarded by local school districts. Courses are taught by caring and experienced faculty. Graduate degree specialties include childhood education, literacy education, and teaching students with disabilities.

The Homeland Security Management Institute at Long Island University at Riverhead was designated by an Act of Congress as a U.S. Department of Homeland Security National Transportation Security Center of Excellence. Designed for professionals by professionals, the Institute offers the Master of Science degree and the Advanced Certificate in Homeland Security Management. The programs, which are delivered entirely online, maintain an outstanding reputation and access to the highest levels of the United States Department of Homeland Security as well as research opportunities for students and faculty in the field. We are the only degree program to be designated as a DHS Center of Excellence.

Whether you are a busy professional balancing work and family, a recent college graduate, or a student ready for the challenge of earning your first degree, our convenient class times and flexible schedules allow you to pursue your education without compromising your commitments outside of school. Extensive financial aid and scholarships are available. Small class sizes and comprehensive academic advising ensure that each student is given the direction and guidance needed for a successful academic experience that will help them make transformative changes in their lives and careers.

Mission Statement

The mission of Long Island University at Riverhead is to provide exceptional educational programs through a faculty dedicated to teaching. To achieve this mission, the University is committed to excellence in teaching and research, and to high quality services that support students in becoming accomplished, ethical and thoughtful scholars who have advanced abilities to become effective practitioners, change agents and leaders in their field. The faculty and staff of Long Island University at Riverhead are committed to providing excellence in onsite and online education for both our unique eastern Long Island community and global student population. It is through strategically focused Riverhead programs that students from all backgrounds expand their knowledge and prepare themselves for meaningful professional lives and service to their communities and the global marketplace. Our mission is in keeping with Long Island University’s mission to provide excellence and access in private higher education. We operate on Margaret Mead’s principle: “Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed, it is the only thing that ever has.”

Accreditation

The academic programs of Long Island University at Riverhead are registered with the New York State Education Department. Long Island University at Riverhead is accredited by the Commission on Higher Education of the Middle States Association of Colleges and Secondary Schools, 3624 Market Street, Philadelphia, PA 19104, (215) 662-5606. The Commission on Higher Education is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation.

Teacher Education Accreditation Council

Long Island University at Riverhead's Teacher Education Program, which provides initial and professional teacher education programs in childhood education, literacy education and teaching students with disabilities, is accredited by the Teacher Education Accreditation Council for a period of five years, from January 9, 2009 to January 9, 2014.

ACADEMIC PROGRAMS

Master’s degree programs offered at the Riverhead location are designed for working adults as well as traditional students, with evening and weekend courses available for students who need to balance work and family responsibilities with their education. Upper-division (junior and senior year) undergraduate programs build upon associate’s degrees or core curricula earned at other institutions, leading to degrees that prepare students for the work place or further study at the graduate level. Graduates of Suffolk County Community College can seamlessly transfer into the undergraduate programs.

All academic programs offered by Long Island University at Riverhead are approved by, and registered with the New York State Education Department. Enrollment in programs other than registered or approved programs may jeopardize a student’s eligibility for certain student aid awards. Long Island University at Riverhead offers the following academic degree programs. HEGIS codes are in brackets.

B.S. Childhood Education Grades 1 – 6 [0802.00]
B.A. Communication Studies-New Media [0601.00]
M.S. Childhood Education Grades 1 – 6 [0802.00]
M.S. Literacy Education Birth–Grade 6 [0830.00]
M.S. Teaching Students with Disabilities Grades 1 – 6 or Generalist Grades 7 – 12 [0808.00]
Advanced Certificate Applied Behavior Analysis [2299.00]
M.S. and Advanced Certificate Homeland Security Management [2105.00]
Admission

General Information

Students interested in applying for undergraduate or graduate admission to Long Island University at Riverhead may do so online at www.liu.edu/riverhead, or may request application materials by mail by contacting the Office of Admissions. Applications are accepted on a rolling basis. Students are required to submit official college transcripts, letter(s) of reference, and other program specific admission requirements. Specific admission requirements for each program can be obtained from the website, the program description in this bulletin or the Office of Admissions. A T.O.E.F.L. score report is required for all applicants whose native language is not English.

For additional information contact:
Office of Admissions

Undergraduate Transfer Admissions

Admission as an undergraduate transfer to the B.S. in Childhood Education program or B.A. Communication Studies – New Media program requires the completion of a minimum of 60 credits of lower level college coursework and/or an associate’s degree, a minimum GPA of 2.75 for the B.S. Childhood Education program and 2.5 for the B.A. Communication Studies – New Media program, one letter of professional recommendation and a personal interview. For specific program admission requirements, please refer to the program description in this bulletin or on our website at www.liu.edu/riverhead.

Long Island University at Riverhead welcomes applications from students who wish to transfer from accredited two-year and four-year colleges. Transfer credit generally is awarded for academic courses that have been successfully completed with grades of C- or better. Students transferring to Long Island University at Riverhead from two year institutions can receive a maximum of 72 transfer credits (including grades of D when an associate’s degree is awarded). Those transferring from four-year institutions can receive a maximum of 96 transfer credits. In order to complete a bachelor’s degree, students must be in academic residence at Long Island University at Riverhead for at least the final 30 credits of their degree.

The Admissions office assists transfer students with their transition to Long Island University at Riverhead and works closely with faculty advisors to provide transfer students with individual counseling. Upon acceptance, transfer students receive an official transfer credit evaluation and a preliminary outline of how their credits apply to their chosen major program. Transfer credit applicability and actual length of time required to complete a bachelor’s degree are finalized when new students meet with their academic advisor.

Graduate Admission

Graduate Teacher Education Programs

The M.S. in Childhood Education, Literacy Education and Teaching Students with Disabilities programs, and the Advanced Certificate in Applied Behavior Analysis requires a bachelor's degree from an accredited college or university with a minimum G.P.A. of 2.75, one letter of recommendation preferably from a professional in the field of education or related disciplines, the completion of an on-campus writing sample and a personal interview. For specific program admission requirements, please refer to the program description in this bulletin or on the website www.liu.edu/riverhead.

Homeland Security Management Institute

Admission to the Master’s degree and Advanced Certificate Programs in Homeland Security Management is consistent with other Long Island University graduate programs and requires a bachelor’s degree with minimum grade point average of 3.0 from an accredited college or university or successful completion of another master’s degree. Applicants who have attended institutions outside the United States must hold a degree equivalent to a U.S. bachelor's degree. In addition, official copies of your undergraduate and/or graduate transcripts from any college(s) or university(s) you have attended, two professional letters of recommendation and a personal statement/essay are required. Due to the challenging nature of this rigorous course of study, students are expected to demonstrate outstanding writing, research, analytic and critical thinking skills. Eligibility for admission to the program will be evaluated on an individual basis. For specific program admission requirements, please refer to the program description in this bulletin or on the website www.liu.edu/riverhead.

Under an Exceptional enrollment category for the Advanced Certificate in Homeland Security Management, students who have not yet obtained their bachelor’s degree can be considered for admission if they have solid related experience in the field. Further information and review is done through the Office of Admissions.

Admission Status

A student may be admitted to Long Island University at Riverhead for study in one of the following categories:
1. A Full Admit is a student who has submitted all required documentation and meets all eligibility requirements for his or her degree program.
2. A Limited Admit is a student who plans to apply for matriculation but does not meet all academic requirements or has not submitted all required credentials. A limited admit must submit any missing application credentials by the end of the first semester he or she is enrolled. Any student accepted as a limited admit because of academic deficiencies must satisfy all conditions outlined in the acceptance letter to be considered for full matriculation. If the conditions of limited matriculation are not satisfied, the student may be permanently reclassified as a non-degree admit. Once all deficiencies are removed, the student must submit a written request to the Admissions Office to be re-classified as a full admit.
3. A Non-Degree Admit is a student who is an admitted student but is not a candidate for a degree and is taking a limited number of courses for certification, professional advancement or personal enrichment. Any non-degree admit who wishes to be considered for a degree program must apply for a change of status and satisfy all admission eligibility requirements for his or her area of interest. Certain graduate programs do not allow visiting students. Please consult with the Admissions Office for further information at 631-287-8010 or riverhead@liu.edu.

Readmission

An applicant for readmission is either a former degree-seeking student who has not been in attendance but remains in good standing for a period of one semester or more or a student who has lost degree-seeking status for at least one semester. The student must file an Application for Readmission no later than two weeks before the start of the term readmission is desired. No fee is required to file an Application for Readmission. If readmission is approved, the student’s return is subject to the academic requirements as posted in the Bulletin in effect at the time of readmission. Students on an approved Leave of Absence for one or two terms are also required to file an Application for Readmission. Students who met admission requirements for his or her area of interest. Certain graduate programs do not allow visiting students. Please consult with the Admissions Office for further information at 631-287-8010 or riverhead@liu.edu.
Deferred Admission

Long Island University at Riverhead may defer an offer of admission for up to one calendar year. Students who earn college credits during the deferral period are required to submit official transcripts for all college work and may be required to reapply.

New York State Immunization Law

The New York State Health Department requires college and university students born on or after January 1, 1957 to be immunized against measles, mumps and rubella. All students attending the University, including matriculants and non-degree students, must show proof of immunity if they wish to register for classes. In addition, New York State requires that Long Island University at Riverhead maintain a record of each student’s response to the meningococcal disease and vaccine information. The form must be signed by the student and contain either a record of meningitis immunization within the past 10 years OR an acknowledgement of meningococcal disease risk and refusal of meningitis immunization signed by the student.

For information on student procedures for complying with this law, please contact the Student Services Office at 631-287-8325.
REGISTRATION

Course Registration

Students who have completed their first term of study at Long Island University at Riverhead are eligible to select and register for classes through their MyLIU (my.liu.edu) account. Information about course offerings and closed and cancelled classes is available through MyLIU and the online Schedule of Classes. The Office of Student Services e-mails a registration reminder notice to all student LIU e-mail accounts prior to the start of the Summer/Fall and the Spring semester registration periods. The registration dates are also noted on the Academic Calendar and on the MyLIU account under “Enrollment Dates”.

Students are encouraged to meet with their faculty advisor prior to the start of registration.

Per Capita Classes

Only fully matriculated students can enroll in courses taught on a per capita/individual instruction basis. Full-time University employees receiving tuition remission are not eligible for these classes.

Tuition Payment

Each semester the University mails a bill for charges to the billing address of students who register. Bills are also available online on the students’ MyLIU account page (my.liu.edu). Students are responsible for making payment or approved payment arrangements by the first day of classes. Students who have decided not to attend should contact the Office of Student Services to officially withdraw. Any balance not paid by the due date is subject to late payment fees. Student Financial (bursar) services for Long Island University at Riverhead students are provided by the C.W. Post Bursar’s Office. For further information, contact the Bursar’s Office at 516-299-2323, e-mail: bursar@cwpost.liu.edu or visit the Bursar website. No registration may be considered completed without payment or a payment arrangement acceptable to the Bursar. Students who have outstanding indebtedness to the University are not eligible to register, receive transcripts of their records, have academic credits certified, be granted a leave of absence, or receive a diploma.

Program Changes

Students may drop and add courses, or transfer from one section of a course to another by either doing so in the student portal (my.liu.edu) or completing an official change of program card with the Office of Student Services. The deadline for program changes is the date specified in the academic calendar.

Visiting Student Authorization

Long Island University at Riverhead students who wish to be a visiting student at another college or university must consult with their program director to determine their eligibility. The following regulations are observed regarding eligibility to attend another institution:

1. Students may not take a course at another institution on Long Island, or on-line, if the course is being offered at Long Island University at Riverhead.
2. If a required course is not being offered at Long Island University at Riverhead then permission can be considered.
3. Students must be in good academic standing; students on academic probation cannot be granted permission to attend other institutions.
4. The visiting student authorization becomes automatically invalid if, by the conclusion of the term during which it is granted, the student is placed on academic probation.
5. Only letter grades of C- or above for undergradiates, or B or above for graduate students are acceptable for transfer credits. A grade of P is not transferable. Grades earned at another institution are not used in the computation of either the student’s major or cumulative average, they do not remove F grades earned at Long Island University at Riverhead, nor do they count toward fulfillment of residence requirements or the requirements for graduation with honors.
6. Visiting student authorizations are granted for a maximum of 9 credits for undergraduates.
7. A maximum of 72 credits may be transferred from two-year colleges.
8. All students must complete their final 30 credits in residence, 9 of which must be in their major. Upon completion of course work, an official transcript of all visiting student approved courses must be forwarded directly to the Office of Student Services.

Withdrawals

Please be advised that course withdrawals may affect eligibility for federal, state and institutional aid programs. Contact the Office of Financial Aid for details.

Partial Withdrawals – Withdrawal from Individual Course(s)

Withdrawal from an individual course (or courses) may be effected only by an “official withdrawal,” which becomes effective on the date that application was made. Refunds on specific course withdrawals are made in accordance with the schedule in the Tuition and Fees section. All withdrawals must have the approval of the student’s faculty advisor. Students may withdraw from an individual 14-week course up to the 11th week of classes as specified in the academic calendar. Undergraduate students who withdraw from any courses during the Fall or Spring term are not eligible for inclusion on the Dean’s List for that semester.

Complete Withdrawals

Students who wish to withdraw from all their classes must see their faculty advisor to process the withdrawal forms. The withdrawal deadline is specified in the Academic Calendar, printed in this bulletin and on the campus website. Refunds of tuition for withdrawals from Long Island University at Riverhead are made on a prorated basis in accordance with the refund schedule in the Tuition and Fees section.

Leave of Absence

Long Island University at Riverhead permits students to interrupt their studies when appropriate. If granted, a Leave of Absence allows a student to continue under the requirements in effect when he/she was initially admitted. A Leave of Absence for up to one year may be granted to matriculated students who are not in financial arrears and who are not subject to any disciplinary action. Application for continued leave beyond one year must be made in writing to the student’s program director. Students are not permitted to attend another college or university while on an official Leave of Absence.

Medical Leave of Absence

A Medical Leave of Absence may be granted when serious medical and/or psychological circumstances prevent a student from adequately completing coursework in a given semester.

A student who wishes to request a Medical Leave of Absence will need to contact the Associate Dean’s Office. The student must provide adequate medical documentation for review. A Medical Leave of Absence may be granted to any full- or part-time student and is initially granted for one semester only. A request for a continuance may be granted for up to one year. The Associate Dean’s Office evaluates the request and forwards the decision to the Program Director’s Office.

Recipients of federal, state and/or University assistant (s) that are granted a Medical Leave of Absence may lose financial assistance for the semester they are withdrawn. Students are encouraged to contact the Financial Assistance Office concerning the effects of this change in status. In addition, students should check with the Bursar regarding eligibility for a tuition adjustment.

All students are required to meet with and provide medical documentation to the associate dean prior to receiving approval to return.

Maintenance of Matriculation

Unless they have obtained an official leave of absence, students must register for consecutive semesters (excluding summer sessions). Although students typically proceed toward their degrees by enrolling in classes, they may apply for “Maintenance of Matriculation” status provided that they are engaged in some sort of academic activity, such as working on a thesis.

Students approved for Maintenance of Matriculation are entitled to avail themselves of Campus facilities and services (e.g., computer labs, library privileges). Maintenance of Matriculation does not, however, extend the time limits specified under “Requirements for Degrees,” and students should be aware that such status may affect their eligibility for financial aid.

Students must apply to their program director...
for Maintenance of Matriculation prior to or during the registration period in a given semester. The fee is $100, and this matriculation status will be recorded on their transcript as a "class" for zero credits.

Maintenance of Matriculation is generally limited to two semesters. An extension beyond two semesters, due to extenuating circumstances, must be approved by the appropriate program director. Otherwise, they will have to apply for readmission to their academic program in accordance with procedures and policies stated elsewhere in this Bulletin. Maintenance of Matriculation is particularly important for international students, who must either attend classes or else maintain matriculation through suitable academic activity in order to maintain their visa status. In addition, Maintenance of Matriculation status enables students to continue to purchase student health insurance through Long Island University.

Termination of Studies

Students who intend to transfer to other colleges or universities, or intend to leave Long Island University at Riverhead permanently (or indefinitely) must contact their program director or faculty advisor.

Partial Cancellation and Withdrawals, Dropping Below 12 Credits

When an undergraduate full-time student who has been billed at the flat rate (12 to 18 credits) drops below 12 credits during the program change period, charges are recalculated on the per credit basis and the difference between the revised per credit charge and the flat rate can be refunded.

When an undergraduate full-time student who has been billed at the flat rate (12 to 18 credits) drops below 12 credits after the program change period, the difference between the new per credit charges and the flat rate becomes the basis for a refund.

Please Note: The effective date of a student’s cancellation or withdrawal from courses is the date on which the student submits the official drop/add/withdrawal form to the Student Services Office. Students have a financial obligation to Long Island University for full tuition unless they officially withdraw prior to the start of the semester.

Course Numbers

Courses numbered 300 to 499 are upper division undergraduate courses.
Courses numbered 500 and above are graduate courses.

Transcript Requests

Official transcripts for professional and graduate schools, prospective employers and other institutions must be requested in writing. Please note: if you owe the University any funds or have blocks on your account, your request cannot be processed. The University adheres to the Family Education Rights and Privacy Act of 1974. A student’s record will not be released without prior written consent from the student. Enrolled students may use the secure student portal (MyLIU)
TUITION AND FEES

Tuition & Fees
The tuition, and fees, residence life, health insurance and other miscellaneous fee schedules listed below are at the prevailing rates for the 2011-2012 academic year. Rates for 2012-2013 will be announced on or about June 1, 2012. The University reserves the right to change the fees herein stated at any time without notice.

Students are billed for tuition and fees at the time of registration. Room and board charges are reflected at the time of room assignment. Students must make satisfactory payment arrangements prior to the start of each term or before moving into residence halls to remain in good financial standing.

The University accepts payment by check, money order, AMEX, VISA, Discover, or MasterCard at the Office of Integrated Student Financial Services or online through your MyLIU account.

General Tuition and Fees
Undergraduate Tuition, flat rate, per semester (12-18 credits) $15,023.00
Undergraduate Tuition, per credit, per semester (under 12 or over 18) 938.00
Graduate Tuition, per credit, per semester $1,028.00
Tuition Deposit fee (nonrefundable) 100.00
University fee, per semester:
   Students carrying 12 or more credits 690.00
   Students carrying 11.9 credits or less 345.00
Course fees, per semester (see course descriptions).

Other Fees
Transcript of record (on-line, in person, or via mail)
   Up to 10, per request $7.00
   Above 10, per request 2.00
Late payment fees:
   First (assessed 45 days into the term) 50.00*
   Second (assessed on the last day of the term) 100.00*
Maintenance of Matriculation fee:
   Graduate fee, per term 100.00
   Returned check fee 25.00
   University Payment Plan fee 35.00
   Diploma Replacement fee 35.00
   Repayment of returned checks and all future payments to the University from a student who has presented a bad check must be tendered via bank check, certified check, money order, AMEX, VISA, Discover or MasterCard. *Students are expected to clear their bills before the start of classes. In the event that a student fails to do so, late payment fees will be assessed. Registered students who have not cleared their bill by the 45th day into the term will be obliged to pay a late payment fee of $50.00. Bills not cleared by the last day of the term will be assessed an additional late fee of $100.00.

Student Health Insurance
Health Insurance:
   Rates for the Annual Plan $999.00
   Rates for the Spring Semester 619.00
   (newly enrolled students), covers the policy period 1/1/12 - 5/15/12
   Rates for the Summer Semester, 252.00
   covers the policy period 5/1/12 - 8/15/12

Health insurance (Compulsory for domestic resident students, all international students, intercollegiate athletes, and students assigned field work in a health care curriculum). Charges are billed for an annual plan in the Fall semester, covering the policy period 8/15/11 - 8/15/12. Charges are not reduced if a student does not reside in the Residence Hall for the Spring semester, or is no longer in a health care curriculum, since coverage continues to be effective over the full policy period.

Withdrawal Policy
If you register for courses and decide not to attend, you must officially withdraw your registration prior to the end of the first week of classes to avoid liability. You can withdraw online using your MyLIU account through the first week of the term. After the first week of classes, you must complete an Application for Withdrawal Form and receive official approval from the Office of the Registrar on your campus. Non-attendance and/or non-payment do not constitute official withdrawal from the University.
When a student withdraws, the University will refund tuition and fees as indicated in the following schedule.

Long Island University Institutional Refund Schedule

The University will make all feasible efforts to conduct suitable academic services in the event of an unanticipated interruption. If the University is unable to provide education services to the Campus students because of a natural catastrophe, employee strike, or other conditions beyond its control, tuition and fees will be refunded in accordance with a reasonable refund schedule to be determined at that time.

Financial Obligations
Students are liable for all charges incurred at the time of registration or room assignment. Your MyLIU account makes it easier than ever to manage your financial obligations. To view your current account balance, simply log into your MyLIU account online at https://my.liu.edu and click on the Account Inquiry link in the Finances section of your Student Center homepage. Students must make acceptable payment arrangements or officially withdraw prior to the start of classes to remain in good financial standing. Acceptable payment arrangements include:

- Payment in full,
- Approved financial aid covering all charges,
- Signed and approved University Payment Plan Agreement Form; or
- Participation in an approved third-party payment agreement.

A student who complies with any of the above shall be considered in good financial standing, so long as all terms and conditions are met throughout the term. All payment arrangements must be completely satisfied in accordance with your University authorized payment agreement or fees and/or penalties may be applied. If your account becomes seriously past due and no arrangements are made, the University will refer it to an external collection agency or law firm, where additional fees and penalties may be charged to your account. The University’s policies and procedures governing Student Financial Services can be found online at: www.liu.edu/About/Administration/University-Departments/SFO/Policies.aspx

Payment Plans
The University offers two basic types of interest-free payment plans to assist students with managing the cost of their education each term:

- Monthly Plans are offered to students who make payment arrangements before the start of the term. Monthly Plans provide the most affordable payment options to our students and immediately place you in good financial standing. The balance is spread across 4-6 equal monthly installments with at least two payments due prior to the start of the term.
- Term Plans are offered to students who need to make payment arrangements at or after the start of the term. Term Plans should only be used as a last resort because the number of installments is limited to 2-3 monthly payments. In addition, your total balance due must be covered by an appropriate combination of approved aid, applied aid, and/or an initial student payment.

The University must approve your signed Payment Plan Agreement Form and receive your first initial payment for your account to remain in good financial standing. There is a $35.00 enrollment fee per term that is due with your first payment.
FINANCIAL AID

A crucial aspect of a college education is meeting its costs. Long Island University at Riverhead offers comprehensive financial aid services, including scholarships, grants, loans and part-time employment, to help you meet your educational and career goals. Assistance is offered to students admitted into eligible undergraduate degree, graduate degree, and advanced certification programs.

Application Process

All students are required to complete the Free Application for Federal Student Aid (FAFSA) no later than March 1. The FAFSA should be completed online at www.fafsa.ed.gov. The federal school code for the University is 002751. Residents of New York State must also complete the Tuition Assistance Program (TAP) application using the University’s school code 0403.

Continuing students at the University must reapply for financial assistance each year. Financial aid counseling is available on site at 121 Speonk-Riverhead Road - LIU Building in Riverhead. For further information regarding in-person financial aid counseling, you may contact Christina Stromski at 631-287-8322, or via e-mail at christina.stromski@liu.edu.

Awards

Riverhead Scholarships and Awards

Long Island University at Riverhead awards hundreds of thousands of dollars annually in University scholarship assistance to students. These scholarships and grants, which do not require repayment, are based on academic success, evidence of academic potential, community service, and financial need. The campus also offers departmental scholarships for specific programs of study. A detailed listing of undergraduate and graduate scholarships can be found online at www.liu.edu/riverhead/finaid.

Federal Grants and Loan Programs

The federal government awards financial assistance to students who demonstrate financial need according to a variety of economic criteria as determined by the United States Department of Education. The criteria include an individual and/or parents’ income and assets, family’s household size, and the number of family members attending college. Benefits from all federal programs are subject to legislative changes. Recipients of federal programs must be U.S. citizens or permanent residents. Federal financial aid programs such as the Federal Pell and SEOG Grant Programs are limited to undergraduate studies. Federal Direct Loan program amounts also differ for undergraduate vs. graduate students. A detailed listing of Federal programs can be found online at: www.liu.edu/riverhead/finaid.

State Programs

The New York State Higher Education Services Corporation (HESC) offers a wide variety of grants, scholarships, student loans and parent loans for part-time and full-time college study. HESC also administers the undergraduate Tuition Assistance Program (TAP), the nation’s largest state grant program. Grants and scholarships are types of aid that do not need to be repaid. Although students apply for financial aid directly to HESC, the funds are taken into account when developing the Riverhead financial aid package. You must be a U.S. citizen or eligible noncitizen and resident of the State of New York to be eligible for HESC awards. Students who reside outside of New York State may be eligible for grants, scholarships and loans from their home state. Contact the Federal Student Aid agency at 1-800-433-3243 or www.federalstudentaid.ed.gov for more information. A detailed listing of New York State awards can be found online at: www.hesc.com.

Veteran Benefits

Veterans, Reservists and National Guard members are encouraged to take full advantage of the G.I. Bill Benefits. Application forms, information and assistance in applying for benefits are available at all offices of the Department of Veterans Affairs. Forms can be downloaded from www.gibill.va.gov or you can call 1-888-442-4551.

You must first complete an Application for VA Education Benefits (VA form 22-1990) which determines the type of education benefit you are eligible to receive. Upon the VA’s receipt of this form, you will then receive a certificate of eligibility from the VA which verifies your entitlement to the specific benefit you selected. A copy of this certificate should be sent to Riverhead’s Financial Aid Office. We will, in turn, complete the Enrollment Certification form, confirming your attendance and registration, and submit it to the appropriate Veterans Affairs Regional Processing Office.

Post-9/11 GI Bill

Veterans who served at least 90 days on active duty after September 10, 2001, are entitled to these new benefits. Those who served at least 36 months on active duty are entitled to the maximum benefit, while those who served less time are eligible for a percentage of the full benefit based on length of service. You must have received an honorable discharge to be eligible for the Post-9/11 GI Bill. The amount of financial assistance is dependent upon the year you began receiving benefits. For further information, contact 1-888-442-4551 or www.gibill.va.gov.

Yellow Ribbon GI Education Enhancement Program

Long Island University at Riverhead is a proud participant of the Yellow Ribbon Program: a provision of the Post-9/11 Veterans Educational Assistance Act of 2008. This program permits private degree granting institutions in the United States to voluntarily enter into an agreement with the VA to fund tuition expenses. Veterans who have served a minimum of 36 months of active duty after September 10, 2001 are eligible for the Yellow Ribbon Program. Visit the VA Web site at www.gibill.va.gov for more information on eligibility for the Yellow Ribbon Program.

Montgomery GI Bill – Chapter 30

The Montgomery GI Bill provides up to 36 months of education benefits. Individuals must have entered active duty after June 30, 1985, and completed at least two years continuous active service. Some service members may contribute up to an additional $600 to the GI Bill to receive increased monthly benefits. For an additional $600 contribution, service members may receive up to $5,400 in additional GI Bill benefits. The additional contribution must be made while on active duty. Generally, benefits are payable for 10 years following release from active duty.

Alternative Loan Program

If you find that you need funding beyond the limits of the Federal Direct Student Loan Program, you may wish to consider an Alternative Loan. These loans are not guaranteed by the Federal government and are considered private loans. We urge all students and parents to research any lender they are considering for this type of funding and to specifically ask a number of key questions, including:

• current interest rates
• co-signer requirements
• repayment options, both in school and out
• whether or not the loan may be sold to another provider

The University does not have a preferred lender for alternative loans; each student has the right to select the educational loan provider of his or her choice. However, there are a number of independent resources that can be used to evaluate and analyze alternative loan options, including studentlendinganalytics.com/alternative_loan_options.html.

If you have considered applying for an alternative loan, you may be required to complete the Free Application for Federal Student Aid at www.fafsa.ed.gov in order for the University to certify your loan eligibility. Alternative loans that are used to cover prior semesters may require additional information for approval, such as letters certifying indebtedness, attendance verification, official transcripts, etc. As such, when requesting funding for prior terms, be sure to reference the correct academic year on your application.

The basic process involved with securing alternative loans is the electronic filing of an application, institutional certification, and approval information. Generally speaking, electronic filing processing requires at least 72 hours before a lender will respond. The University will assist you in this process and will determine for you the maximum loan amount you will be allowed to
borrow based on your estimated cost of attendance and pre-existing financial aid awards. The complete process normally takes 7-14 business days.

Terms and Conditions

Awards are not finalized until all requested supporting documentation has been properly submitted and reviewed. All awards are subject to funding levels and appropriations by Federal and State agencies. Many aid programs require that you be matriculated and attend the Riverhead campus on at least a half-time basis. The University reserves the right to adjust or cancel offers of financial assistance if you make changes to your FAFSA, adjust your registration status, withdraw from one or more courses, or fail to maintain good academic standing for financial aid purposes. The University also reserves the right to change the selection criteria, deadlines, and awarding process of academic awards.

All awards from Long Island University at Riverhead are accompanied by a letter of stipulation detailing the terms of the award. Students are governed by the stipulations accompanying their specific awards. Full-time status, for the purpose of undergraduate scholarship and grant renewal, is defined as carrying and earning a minimum of 12 credits per semester and billed under the flat tuition rate. Part-time status, for the purpose of graduate scholarship and grant renewal, is defined as carrying and earning a minimum of 6 credits per semester.

Unless otherwise indicated, University assistance is for tuition charges only. Students are advised to inform the University of any aid received from outside sources, and awards from Long Island University may be adjusted if such additional assistance is in excess of estimated need.

Standards for Satisfactory Academic Progress

Federal Financial Aid Programs

Federal regulations require students to make satisfactory academic progress (SAP) toward the completion of a degree or certificate program in order to receive Title IV financial aid, which includes the Federal Pell Grant, Federal SEOG, Federal Work Study, Federal Perkins Loan and the Federal Direct Loan Programs. Satisfactory academic progress is measured qualitatively and quantitatively by two components: a student’s cumulative grade point average (GPA) and the amount of credits they have earned relative to their year in school and enrollment status.

Satisfactory academic progress is measured annually, at the end of the Spring semester, after all grades have been submitted. Students failing to meet the criteria stated below are eligible to appeal this decision if extenuating circumstances played a factor in their academic performance. Examples of such circumstances could include an illness, accident, separation or divorce, or the death of a relative. An appeal must be made in writing to the University and include an explanation of the circumstance(s) that may have adversely affected the student’s ability to meet the academic requirements, and the plan or changes that have occurred which will allow them to make SAP in the future. All appeals must be accompanied by supporting documentation, such as a letter from a doctor or attorney. If an appeal is granted, the student will either be placed on probationary status for one semester during which the student must meet SAP guidelines, or must successfully adhere to an individualized academic plan that was developed for them by their academic advisor as part of their appeal. Failure to meet these criteria will result in loss of eligibility for Title IV funds.

Students wishing to receive Title IV financial aid for Summer semesters may have these awards evaluated and offered prior to a determination of SAP. All students receiving summer aid will have their SAP evaluated after all spring grades have been submitted. Students not making progress will have their summer aid cancelled, and the student will be liable for all tuition and fee charges incurred unless an appeal is filed and granted as outlined above.

Undergraduate

The criterion below outlines the progress that is required for a full time undergraduate student to be considered in good standing:

<table>
<thead>
<tr>
<th>Number of Credits Attempted</th>
<th>Number of Credits Earned</th>
<th>Cumulative GPA Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-29</td>
<td>67%</td>
<td>2.0</td>
</tr>
<tr>
<td>30-121</td>
<td>67%</td>
<td>2.0</td>
</tr>
<tr>
<td>122-192</td>
<td>80%</td>
<td>2.0</td>
</tr>
</tbody>
</table>

Notes:

- Progress standards for part-time students are prorated based upon the criteria above.
- Qualifying transfer credits are counted as both attempted and earned credits but have no effect on the GPA.
- Grades of W (Withdrawal), UW (Unofficial Withdrawal), INC (Incomplete), WF (Unauthorized withdrawal with record of failure), and IF (Incomplete Fail) are counted as credits attempted but not completed, and do not affect the GPA.
- Repeated classes will count only once towards credits completed. A student may receive aid for a repeated class that has been successfully completed once.
- Students may not receive Federal aid for classwork that exceeds 150% of their degree requirements.
- Any departmental requirements that exceed these standards must be adhered to for the purposes of evaluating SAP.

Graduate

The criteria below outline the progress that is required for a full time graduate student to be considered in good standing:

- Completion Rate Requirements: All students must earn at least 67% of their attempted hours.
- GPA Requirements: All students must maintain a cumulative GPA of 3.0.

Notes:

- Progress standards for part-time students are prorated based upon the criteria above.
- Qualifying transfer credits are counted as both attempted and earned credits but have no effect on the GPA.
- Grades of W (Withdrawal), UW (Unofficial Withdrawal), INC (Incomplete), WF (Unauthorized withdrawal with record of failure), and IF (Incomplete Fail) are counted as credits attempted but not completed, and do not affect the GPA.
- Repeated classes will count only once towards credits completed. A student may receive aid for a repeated class that has been successfully completed once.
- Any departmental requirements that exceed these standards must be adhered to for the purposes of evaluating SAP.

New York State TAP Awards

To receive financial aid awards from New York State, including Tuition Assistance Program (TAP) funding, students must meet the academic standing requirements established by the New York State Education Department. These requirements are different than those set forth by the Federal government, and apply only to New York State awards.

The basic measures for good academic standing for TAP Awards include the following:

- Pursuit of Program: A student must receive a passing or failing grade (A-F) in a certain percentage of courses each term.
- Satisfactory Academic Progress: A student must accumulate a specified number of credits and achieve a specified cumulative grade point average (GPA).

The requirements for meeting these standards increase as the student progresses, and are based upon the number of State awards that the student has already received. Students failing to meet the established criteria are eligible to request a one-time waiver of the academic and/or “C” average requirement(s) if extenuating circumstances played a factor in their academic performance. Examples of such circumstances could include an illness, accident, separation or divorce, or the death of a relative. An appeal must be made in writing to the University and include an explanation of the circumstance(s) that may have adversely affected the student’s ability to meet the academic requirements, and the plan or changes that have occurred which will allow them to make SAP in...
the future. All appeals must be accompanied by supporting documentation, such as a letter from a doctor or attorney. If a waiver is granted, the student will be eligible for the State award for the semester for which they were granted the waiver. The student must continue to meet the academic progress and pursuit of program requirements to receive further awards.

Undergraduate
The charts below outline the progress that is required for an undergraduate student to be considered in good standing:

**Baccalaureate Semester Based Program Chart (2006 Standards)**
Applies to students first receiving aid in 2007-08 through and including 2009-10 and remedial students first receiving aid in 2007-08 and thereafter.

| Before Being Certified for Payment: |  
| Semester | A student must have accrued at least this many credits | With at least this GPA |
|----------|-------------------------------------------------------|
| 1st      | 0                                                     | 0 |
| 2nd      | 3                                                     | 1.1 |
| 3rd      | 9                                                     | 1.2 |
| 4th      | 21                                                    | 1.3 |
| 5th      | 33                                                    | 2.0 |
| 6th      | 45                                                    | 2.0 |
| 7th      | 60                                                    | 2.0 |
| 8th      | 75                                                    | 2.0 |
| 9th      | 90                                                    | 2.0 |
| 10th     | 105                                                   | 2.0 |

**Baccalaureate Semester Based Program Chart (2010 Standards)**
Applies to non-remedial students first receiving aid in 2010-11 and thereafter.

| Before Being Certified for Payment: |  
| Semester | A student must have accrued at least this many credits | With at least this GPA |
|----------|-------------------------------------------------------|
| 1st      | 0                                                     | 0 |
| 2nd      | 6                                                     | 2.0 |
| 3rd      | 12                                                    | 2.5 |
| 4th      | 21                                                    | 2.75 |
| 5th      | 30                                                    | 3.0 |
| 6th      | 45                                                    | 3.0 |
| 7th      | 60                                                    | 3.0 |
| 8th      | 75                                                    | 3.0 |

**Notes:**
- All students must be registered for a minimum of 12 credits per semester.
- A student may not receive a NY State award for repeating a class that they have already successfully completed (i.e. the credits for a repeated class for which the student has already received a satisfactory grade will not count towards the full-time requirement).
- The standards that a student must meet are dependent upon when a student first received an award from NY State, as well as their remedial status.
- A student is placed on the chart above based upon their total TAP points received, including any award(s) received at a previous institution(s).
- To continue to receive TAP funding, a minimum number of credits must be completed each term, as well as on a cumulative basis.
- A student must maintain a minimum grade point average (GPA) prior to being certified for a NY State award payment. This average increases as the student progresses in payment points.
- A student who is not making progress may request a one-time waiver if extenuating circumstances affected their academic performance. A student may only receive this waiver once for NY state awards.

**Graduate**
(No graduate TAP in current NYS Budget)
The chart below outlines the progress that is required for a graduate student to be considered in good standing:

**Graduate Semester Based Program Chart**

| Semester | A student must have accrued at least this many credits | With at least this GPA |
|----------|-------------------------------------------------------|
| 1st      | 0                                                     | 0 |
| 2nd      | 6                                                     | 2.0 |
| 3rd      | 12                                                    | 2.5 |
| 4th      | 21                                                    | 2.75 |

| 6th      | 45                                                    | 3.0 |
| 7th      | 60                                                    | 3.0 |
| 8th      | 75                                                    | 3.0 |

**Notes:**
- A student who is not making progress may request a one-time waiver if extenuating circumstances affected their academic performance. A student may only receive this waiver once for NY state awards.

- A student is placed on the chart above based upon their total State Aid received, including any award(s) received at a previous institution(s).
- To continue to receive NY State funding, a minimum number of credits must be completed each term, as well as on a cumulative basis.
- A student must maintain a minimum grade point average (GPA) prior to being certified for a NY State award payment. This average increases as the student progresses in payment points.
- A student who is not making progress may request a one-time waiver if extenuating circumstances affected their academic performance. A student may only receive this waiver once for NY state awards.

Notes:
- A student may not receive a NY State award for repeating a class that they have already successfully completed (i.e. the credits for a repeated class for which the student has already received a satisfactory grade will not count towards the full-time requirement).
RESOURCES AND FACILITIES

Facilities

Long Island University at Riverhead provides students with excellent facilities to help them learn and professionally mature. The Long Island University building, located on the beautiful Eastern Campus of Suffolk County Community College (SCCC), is a 10,000 square foot space which includes smart classrooms, offices for faculty and staff and a cyber-lounge for students with a sitting area, work tables, computers and printers. In addition, a ground lease with SCCC provides LIU students with access to SCCC’s Learning Resource Center, cafeteria and parking.

Library

Long Island University at Riverhead students have access to the extensive resources of the Long Island University library system. Long Island University’s libraries serve more than 27,000 students across six campuses and five international sites. The University’s libraries share over 90,000 online journals, more than 200 online databases and 50,000 electronic books. They also house approximately 2.6 million print books, which are accessible through our intercampus library loan courier service. The University’s libraries share many online resources that can be accessed from anywhere at any time. In addition, it is through our partnership with the Naval Post Graduate School that we have been able to provide our students with access to their renowned online Homeland Security digital library. These resources allow our students increased opportunity and flexibility to obtain the information they need to succeed in their academic pursuits.

Student Services

Long Island University at Riverhead offers many resources to assist students from admission to graduation. The Office of Student Services helps students conduct university business, maximize their academic success and employment options, and provides individualized attention for personal needs. Students may receive assistance with billing, course registration, ID cards, orientation and graduation, financial aid, academic advising, job searches, health insurance, parking permits, the My LIU student web portal and much more.

Academic Advising

The goal of the academic advisors at Long Island University at Riverhead is to partner with each student to fulfill his or her educational and career objectives. Whether you are an undergraduate or graduate student, part-time or full-time, our support team of administrators and faculty is ready to assist you in every aspect of your education. From your first semester through to graduation day, we will provide you with the advising and counseling necessary to create a plan of study that suits your specific needs.

PROGRAM ADVISORS

Graduate Faculty Advisors

Literacy Education:
Ms. Erica Pecorale, Instructor erica.pecorale@liu.edu

Childhood Education:
Mr. David Schultz, Instructor david.schultz@liu.edu

Teaching Students with Disabilities and ABA Program:
Dr. Lisa Scheffer, Assistant Professor lisa.scheffer@liu.edu

Homeland Security Management Institute:
Mr. Jeffrey Rapess, Assistant Director of Student Services and Technical Support jeffrey.rapess@liu.edu

Undergraduate Advisor

Childhood Education and Communications Studies-New Media
Mr. John Brush, Assistant Professor and Director of Liberal Arts Education john.brush@liu.edu

Bookstore

Long Island University at Riverhead’s online bookstore is managed by the C.W. Post Campus Bookstore. Textbook requirements can be viewed via the online ordering system. Students may choose to purchase their textbooks through this system or take the International Standard Book Number (ISBN) and purchase their books from a different vendor. Textbooks purchased through the C.W. Post online bookstore are delivered to Long Island University at Riverhead at no charge. Textbook deliveries may be picked up in the Student Services Office, Suite B-4. Visit the bookstore at liunet.bncollege.com.

Career Services

In conjunction with the C.W. Post Campus Career Services Office, Long Island University at Riverhead offers career-related support services. Long Island University at Riverhead students may take advantage of résumé critiques, job interviewing workshops and an extensive online database of job openings and networking information.

Career Services at the C.W. Post Campus of Long Island University is a full-service career office for students and alumni of Long Island University seeking career-related assistance. The Career Services Office is located on the 2nd floor of Kumble Hall at the C.W. Post Campus. Call 516-299-2251 for an appointment, or e-mail careerservices@cwpost.liu.edu with a question.

E-résumé Critiques - Students and alumni can request an online résumé critique via e-mail. Please send your résumé as an MS Word or .rtf file attachment to resumes@cwpost.liu.edu. A counselor will have your critiqued résumé back to you within 24-48 hours (longer during holidays, weekends, or seasonally busy periods).

Disability Support Services

In compliance with federal and state laws, Long Island University at Riverhead is committed to providing qualified individuals with disabilities the opportunity to participate in all University programs and activities, curricular and extracurricular, which are available to non-disabled individuals. In order to permit individuals with disabilities the opportunity to benefit from such participation, reasonable accommodations, including appropriate adjustments and modifications of examinations and activities, must be implemented. Under the law, reasonable accommodations are offered at Long Island University at Riverhead for individuals with disabilities.

Students with disabilities will receive basic academic accommodations by their individual professors and their academic departments. Accommodations will be made by other Campus departments as required for non-academic matters. Students with disabilities, who desire accommodations, must submit appropriate documentation of their disabilities to the Office of Student Services. Appropriate professional staff at the C.W. Post Campus Disability Support Services Office will review and evaluate this documentation, establish confidential files, and provide the student with appropriate accommodations forms that the student will present to the teaching faculty. Prior to the beginning of each semester students with disabilities must contact the Office of Student Services to obtain the appropriate accommodations forms to present to the professors. Other Campus departments will be notified, as necessary, of the needs for additional accommodations noted in the student’s documentation.
Information Technology

Information Technology/Distance Learning

As home to Long Island University’s only fully online degree program, technology access and support is a very high priority at Long Island University at Riverhead. We recognize the ever-growing need for our students to have the newest, most efficient tools available at their disposal. For all of our programs, students have hardware and software support available both onsite and remotely. This comprehensive information technology infrastructure is essential to ensure that our students, faculty and staff can do their work with ease, have the advantages of cutting-edge technology and quickly and reliably exchange information. Students in our online programs have access to a 24/7 help desk.

Student E-mails

Each student is assigned a University e-mail address to use for corresponding with university faculty and staff. Students can check their e-mail by logging into https://my.liu.edu/. If you have trouble accessing your account, please check with the Information Technology office at Long Island University at Riverhead.

My LIU

Long Island University’s My LIU portal provides students with convenient access to information about their records including financial aid, billing, grades, class schedule, e-mail account and more. All students will receive a letter from the Student Services Office with details about how to log in to my.liu.edu and access the resources available to them.

Public Safety

Public Safety and Security support for Long Island University at Riverhead is provided by the Suffolk County Community College Public Safety Department. The Public Safety staff is available to assist students, faculty, and staff with public safety issues and concerns. Public Safety will provide limited assistance to students experiencing difficulties with their cars and is charged with enforcing campus parking and other College policies. Blue light emergency phones are located at several locations on the campus. The Public Safety Office is located in the Shinnecock Building, room 120. The office can be reaching by dialing 631-548-3636.

Student Health Insurance

During the 2011-12 academic year, Long Island University has continued their partnership with Aetna Student Health to develop a Benefit Plan that provides our students and families with more robust medical coverage at school, back home, and while traveling or studying abroad. The Aetna Plan is available to any and all students enrolled and registered in degree-granting programs at Long Island University, regardless of credits. Students are eligible to purchase the Plan on a voluntary basis for the entire policy year. Students who enter during the Spring and Summer terms can also participate in the plan with shorter coverage periods, reduced rates, and specific enrollment/waiver deadlines.

Beginning on August 15th, students can log into their My LIU account at my.liu.edu and click on the “Student Health Insurance” link from the Student Center Home Page to voluntarily enroll in the Plan. Print temporary ID cards, and file or check claims. Coverage will be retroactive to August 15th, which represents the start of the plan year. You can also visit the Aetna Student Health website directly by visiting www.aetnastudenthealth.com/stu_conn/student_connection.aspx?groupid=474958.

Writing Lab

All Long Island University at Riverhead students have access to online writing support. This support system provides students with a gateway to receive individualized writing instruction from experienced faculty. By providing this service to students online, we maintain the flexibility to address the particular writing needs of both on-campus students and students in our distance learning programs. The goal of this service is not merely to show students what can be changed in their writing but to carefully explain how to change it. We want to help students become more effective and more confident writers. It is our belief that becoming a better writer will not only improve the way students communicate on paper but the way they communicate with others around them as well. We offer guidance through all stages of the writing process and encourage students to ask any writing related questions they may have along the way. Students who seek writing assistance should contact Professor John Brush at 631-287-8156 or via e-mail at john.brush@liu.edu.

Alumni Relations

The Office of Development & Alumni Relations is proud to serve the alumni of Long Island University at Riverhead, a vital part of our community. Our goal is to help alumni maintain a personal connection with your alma mater and give you a chance to make a difference and stay involved. We invite you to join the growing number of Riverhead alumni who want to help today's current students as well as each other.

We are very interested in keeping in touch with all of our alumni. So, whether it is by mail, phone, fax or e-mail, please keep us informed. Let us know about any changes in your life so we can better communicate with you about campus events, career opportunities, professional networking seminars, newsletters and alumni-related activities. If you have received promotions, been recently married, changed your address or job or simply want to stay in touch, we want to hear from you. Your Alumni Office offers you an opportunity to remain connected with the Long Island University at Riverhead family. Contact the Long Island University at Riverhead Development & Alumni Relations Office, c/o C.W. Post Campus of Long Island University, Kahn Discovery Center, Suite 100, 720 Northern Boulevard, Brookville, NY 11548-1300; Phone: 516-299-4052; Fax: 516-299-3013; e-mail: alumni@cwpost.liu.edu.

Continuing Education

The Office of Continuing Education offers two outstanding, and very different, programs for adults at the Riverhead campus. One program is designed for real estate brokers, who must complete 22.5 hours of continuing education every two years, including at least three hours on federal, state, and local fair housing laws, in order to renew their New York State license. At Riverhead’s Real Estate Center busy professionals can satisfy these requirements in a single week of specially targeted courses. Riverhead’s Center for Creative Retirement provides an exciting option for retired people who want to explore their intellectual, cultural and social interests in the company of like-minded peers. At this self-directed learning center, retirees choose their own roles as leaders, teachers, reporters and participants in informal study groups, workshops, roundtables, field trips and other projects that they join together to initiate and implement. Membership, by application, is open year round.
ACADEMIC POLICY

Long Island University at Riverhead awards the following degrees: Bachelor of Arts, Bachelor of Science, Master of Science and the graduate Advanced Certificate. Please refer to individual program listings in this Bulletin for academic policies which may be specific to each academic discipline.

Undergraduate Degrees and General Requirements for Graduation

General undergraduate graduation requirements are:
1. 128 credits
2. An overall cumulative average of 2.00
3. 2.25 major subject cumulative average
4. Completion of program core requirements

Undergraduate Graduation with Honors

Summa cum laude requires an average of 3.90 or higher; magna cum laude, 3.70-3.89; cum laude, 3.50-3.69. At least 57 credit hours must be earned in academic residence at Long Island University at Riverhead for the student to qualify for honors.

Graduation and Diploma

Students are responsible for ensuring that their academic program fulfills all necessary requirements for graduation. Requirements for all students and other graduation requirements, including those for specific academic majors, are listed elsewhere in this bulletin. Students should apply for graduation at the Office of Student Services during their final semester. Please consult the Academic Calendar for deadline dates. Diplomas will be ordered upon completion of the student’s final semester and verification that all requirements have been met. Degrees are awarded in May, September and January. The final 30 undergraduate credit hours must be earned in academic residence (regular attendance).

Academic Load and Class Standing

A full-time undergraduate student in good standing may carry 12-19 credits during each Fall and Spring semester. An undergraduate student taking 20 or 21 credits in the regular semester must be in good academic standing and obtain the approval of his/her faculty advisor and program director. To be considered a Junior, a student must have earned 60 credits; a Senior, 90 credits. A full-time graduate student must register for at least nine graduate credits each semester.

Attendance

In accordance with University regulations, only students who have been admitted to the University have formally registered, and made arrangements for payment of tuition and fees, may attend classes. It is expected that students will attend all class sessions scheduled for the courses in which they are enrolled. Regulations concerning attendance in a particular course are at the discretion of the instructor and noted in the course syllabus. Responsibility for class attendance rests with the student.

Complaint Procedures

Any student who believes he/she has been aggrieved by the offices of Long Island University at Riverhead may pursue the following:

Academic Programs:

Students having complaints about academic issues should make an appeal first to the appropriate instructor followed by the Program Coordinator, followed then by the Associate Provost, or his/her designee. If no resolution is reached, the University Vice President of Academic Affairs may be petitioned. He or she shall have final jurisdiction over all academic complaints.

Disciplinary Complaints:

Any individual has the right to file a written complaint with the related area administrative supervisor. A hearing will be convened with the individual(s) involved in the incident as soon as feasible. This administrator will decide on an appropriate course in writing. Any disciplinary action taken by an administrator may be appealed by the person(s) sanctioned, in writing, to the Associate Provost, stating the basis of the appeal. This should take place no later than 5:00 p.m. on the fifth business day following notification of the action taken. The Associate Provost shall have final jurisdiction over all disciplinary complaints. Detailed guidelines of disciplinary sanctions and the appeal process are available from the Associate Provost’s office. Students should be assured that no adverse action will be taken against a student for filing a complaint.

Academic Irregularities - Academic Dishonesty and Plagiarism

Plagiarism and cheating are serious academic violations. In accordance, a student found to be in violation of Long Island University at Riverhead’s accepted academic procedures may be subject to disciplinary action, up to and including expulsion from their campus program. In addition to the result of disciplinary action, plagiarism and cheating may also reflect adversely on the student’s reputation as well as on the reputation of Long Island University at Riverhead. Faculty, administrators and the student body share responsibility for academic integrity.

Faculty members will report to the academic program director any case of irregular or dishonest behavior that occurs in the class or in their observation. Students may likewise make such a report to the faculty member or program director. The academic program director will decide what disposition is to be made of the charges or authorize the faculty member to dispose of the charges. Requests for appeal by the student may be made in writing to the Associate Provost or his/her designee.

Long Island University’s Homeland Security Management Institute Academic Dishonesty and Plagiarism policies are in the student orientation packet distributed at the time of registration. You may also request a copy of the policy by contacting the Homeland Security Management Institute Program Coordinator at 631-287-8279, or by e-mail to jeffrey.rapess@liu.edu.

</tr>
</tbody>
</table>

*Not a grade under the Graduate Grading Basis structure

Other Current Grading Symbols

INC - INCOMPLETE. Not included in GPA; included in hours attempted. “I” followed by another grade symbol, (e.g. IA, IB+, IF) indicates that the work has been completed and the symbol after “I” is used in the GPA. When the work is ultimately completed, the “I” plus the grade remain permanently on the transcript.

P - PASS. Counted in hours attempted and hours earned, but excluded from computation of GPA.

UW - UNOFFICIAL WITHDRAWAL. Not computed, but counted in hours attempted. Student never initiated proper withdrawal procedure but just stopped attending class.
W - AUTHORIZED WITHDRAWAL. Not computed, but counted in hours attempted. Indicates student-initiated withdrawal.

WF - UNOFFICIAL WITHDRAWAL with record of failure.

**Quality Points and Grade Point Average**

Each student must satisfactorily complete at least 128 credits for a baccalaureate degree. The student must achieve an overall grade point average (G.P.A.) of 2.00, and in some departments requirements may be higher (see departmental requirements). In the major area, the student must achieve an average of at least 2.25; in certain programs the minimum major average may be higher. A credit is defined as 50 minutes of classroom work per week, completed during one 15-week semester, or its equivalent, plus appropriate out-of-class assignments and readings. Quality points are computed by multiplying the number of credits in a course by: 4.00 for grade A, 3.67 for grade A-, 3.33 for grade B+, 3.00 for grade B, 2.67 for grade B-, 2.33 for grade C+, 2.00 for grade C, 1.67 for grade C-, 1.0 for grade D. For courses in which the grade of F has been earned, no quality points are assigned. To derive the quality point ratio, divide the total number of quality points by the total number of credits, including those of failed courses. The grades W, UW and P are not counted in the G.P.A. computation nor are the grades for courses taken at another college or university. For example: A student earns an A in a 4-credit Biology course (4 x 4 = 16), a B- in a 3-credit English I course (2.67 x 3 = 8.01), a B in a 3-credit History II course (3.00 x 3 = 9), a C in a 3-credit Math IV course (2 x 3 = 6), and an F in a 3-credit Art I course (0 x 3 = 0). The student has received 39.01 quality points, divide 39.01 by 16 (credits taken) and the cumulative average for the semester is 2.44.

**Dean’s List**

Eligibility for the Dean’s List is determined by grades earned by full-time students during the regular academic semesters (Fall and Spring). Summer Session grades are not considered. An average of 3.50 in 12 or more completed credits in a given semester is required for inclusion on the Dean’s List. Only full-time students are eligible to make the Dean’s List. Students who receive grades of Incomplete (INC or I), Failure (F), Withdrawal (W), Unauthorized Withdrawal (UW) or Pass/Fail (P/F) are not eligible. In addition, students repeating courses are not eligible.

**Academic Probation, Suspension and Dismissal**

Undergraduate students will be placed on academic probation in any one of the following circumstances (see individual programs for exceptions and graduate programs for graduate program requirements):

1. the student’s cumulative average (Long Island University courses only) falls below 2.00 (higher cumulative average required in some programs);
2. the student’s major average falls below the minimum required by the major department or program. The minimum undergraduate major average is typically 2.25 (see individual programs for exceptions);
3. the student’s semester average falls below 2.00;
4. the student does not complete at least half of the credits for which he or she originally registered in any given semester.

A student who remains on probationary status for two semesters may be disqualified from further attendance by the Program Director. Students on probation must comply with the following stipulations:

1. they may not register for more than 12 credits;
2. they may not receive a grade of UW or F in any courses;
3. they must raise their major and cumulative averages to at least the required minimum by the time they have completed 12 more credits.

A student with an unsatisfactory academic record may be suspended after a review by the Program Director. Students who have attempted 24 credits, and achieve a GPA of 1.0 or below, will be suspended from the University.

Generally, the Program Director will determine suspensions and dismissals after the Spring semester. Students may appeal their suspension or dismissal in writing to the Associate Provost or his/her designee. If readmitted, students will be permitted to return to Long Island University at Riverhead for one semester on probation. Any student who is readmitted on probation after suspension must comply with the stipulations outlined by the Associate Provost or his/her designee to return to good standing. Failure to comply with these stipulations will result in the student’s academic dismissal from the institution.

**Classroom Conduct**

Discipline in the classroom is the responsibility of the faculty member in charge of the class. Misbehavior that interferes with the educational efficiency of a class will be considered sufficient cause for suspension of a student from a class. A student who is suspended from class for disciplinary reasons must first attempt to resolve the problem with the faculty member. If this is not possible, the problem will be referred to the Program Director. A record of disposition of the case will be sent to the Associate Provost. Students may appeal their suspension from a class in writing to the Associate Provost or his/her designee.
Long Island University at Riverhead offers upper-division bachelor’s degree programs in Childhood Education (Grades 1-6) and Communication Studies – New Media. Before enrolling in these programs, students generally complete their freshman and sophomore years at a community college or four-year institution. Admitted students will then complete their junior and senior years at Long Island University at Riverhead. Long Island University at Riverhead has established a two-plus-two partnership with Suffolk County Community College to offer Suffolk County Community College graduates the opportunity to seamlessly transfer to Long Island University at Riverhead.

Transfer students may be eligible to transfer a maximum of 72 credits for all courses taken at a two-year college and a maximum of 96 credits from an accredited four-year college. Transfer students will be evaluated on a case-by-case basis, and may be required to complete additional specific course work.
Bachelor of Science in Childhood Education (Grades 1-6)

The upper division Bachelor of Science in Childhood Education program prepares students to make a positive contribution to society as a teacher of children in grades 1-6. Building upon a liberal arts and sciences foundation, students are presented with a curriculum that encourages intellectual pursuit and promotes academic excellence. The theoretical and pedagogical course of study has been carefully planned in a way where students are provided with field experiences which are related to the courses. During this time, students develop, reflect upon, and modify their knowledge of both childhood theory and practice. As a culmination of the degree and certification coursework, students spend a semester applying their knowledge and skills in two separate seven week student teaching experiences.

Program Admission Requirements

The upper division B.S. in Childhood Education program was developed for students who have earned an associate’s degree or have completed the equivalent of two or more years of undergraduate study. The following is a list of the criteria and assessments used for admission to the upper division childhood education program:

1. Have completed 68 credits of coursework and/or an associate’s degree. Coursework should include a minimum of 30 liberal arts and sciences core credits in the following areas: the Arts (visual or performing), Foreign Language, English/Writing, Social Science, Mathematics, and Science. In addition, a liberal arts/science concentration is also required (18 cr. Minimum). Students who have not earned 68 credits and/or an associate’s degree will be evaluated on a case by case basis.
2. Submit ALL official college transcripts.
3. Have a grade point average of 2.75 or higher, on a four-point scale.
4. Submit a letter of recommendation from a professional in the field of education or a former professor.
5. Schedule and complete an in-person interview with the Office of Admissions.

Liberal Arts and Science Core*

The 60 credit Liberal Arts and Science core consists of a 30 credit General Education Core and a 30 credit Interdisciplinary Content Core. A minimum of 12 of these 60 credits must be at the upper division level.

Most of the courses in the Liberal Arts and Science core are completed before a student enters Long Island University at Riverhead. A transcript review of these courses is completed during the admissions process.

Bachelor of Arts Communication Studies - New Media

In today's world, the ability to clearly and effectively communicate is an essential skill in every profession and graduate academic discipline. In order to meet the growing need for effective 21st century communicators, Long Island University at Riverhead offers the upper division Bachelor of Arts in Communication Studies – New Media. This interdisciplinary program brings forth an advanced writing and communication curriculum designed to ensure that graduates are prepared to effectively communicate in a global society. Students will master the art of communicating through writing, speech, and the rapidly expanding area of new and emerging media.

Program Admission Requirements

The upper division B.A. in Communication Studies – New Media program was developed for students who have earned an associate's degree or have completed the equivalent of two or more years of undergraduate study. The following is a list of criteria and assessments used for admission to the upper division communication studies – new media program.

This program requires that students:

1. Have completed lower level coursework of at least 60 credits and/or an associate's degree. Coursework should include a minimum of 31 credits in the following areas: Social Science, Humanities, English, Writing, Science and Mathematics. Students who have not earned 60 credits and/or an associate's degree will be evaluated on a case by case basis.
2. Submit ALL official college transcripts.
3. Have a grade point average of 2.5 based on a four-point scale.
4. Submit one letter of recommendation from a professional in the field of communication or a former professor.
5. Schedule and complete an in-person interview with the Office of Admissions.

Liberal Arts and Science Core

The 63 credit Liberal Arts and Science core consists of a 31 credit General Education Core and a 32 credit Interdisciplinary Liberal Arts and Sciences core. A minimum of 9 of these 63 credits must be at the upper division level.

Most of the courses in the Liberal Arts and Science core are completed before a student enters Long Island University at Riverhead. A transcript review of these courses is completed during the admissions process.

Total credits required for graduation - 128

Course Descriptions

**BIO 301 Cell Nutrition**

This course examines basic scientific principles as they apply to human nutrition. Maintaining health and preventing disease is discussed, and a concentration is placed on the nutrient requirements of the human body throughout life. Biochemical functions and interrelationships of nutrients are examined and current nutritional controversies are evaluated. Students gain practical experience in evaluation of nutritional data by completing a self-study project.

Credits: 3

Course Descriptions

**CDN 300 Film Theory**

This course will provide a critical study of the technical, artistic, and social aspects of film. It will examine the cinematic, theatrical, and literary elements of film with a focus on stylistic tendencies, narrative strategies, genres, and cinematic themes. The course will not only focus on filmmaking techniques, but will also delve into the many movie themes that are relevant to our everyday lives.

Credits: 3

Course Descriptions

**CMA 265 Technology in Education**

The impact of computer technology on the instructional learning process is important for today's educators to acknowledge. This course is designed to familiarize the student with the necessary skill base required to meet the demands of effective integration of technology into daily instructional programs. The student will become aware of the technology benchmarks today's educators are expected to draw upon in order to facilitate the learning process and address the needs of a society in which information doubles rapidly. Students will come away from this course with a newly found confidence in the use of technology and a growing appreciation for the increased dimension technology can bring to the learning process.

Credits: 3

Every Spring

**CMA 270 New Media and Society**

This course provides an examination of new media technology and its influence on modern society. As new forms of media constantly emerge, the impact of these technologies have on society is constantly changing as well. In this course, students will study these changes in media and society and develop a clear understanding as to not only what is changing, but why these changes are taking place. A particular emphasis will be placed on the ways that advancing technology affects the way we access, distribute, and use information.

Credits: 3

Every Fall

**CMA 280 Interpersonal Communication in the Digital Age**

In recent years, technological advances have changed the way that we speak, interact, and how we classify our relationships. This course explores this changing world and how the evolving digital landscape has also changed the way we communicate with one another. Students will examine the dynamics of interpersonal communication with a particular focus on how these dynamics are changing with the advancement of technology. Topics include, but are not limited to, privacy, conflict, self, and creating and maintaining relationships.

Credits: 3

Every Fall

**CMA 300 Emerging Media Applications I**

The first of two emerging media applications courses, this course examines the wide range of emerging technologies and applications available in today's digital age. In an ever changing digital world, it is vitally important to maintain a familiarity with the most current technology. A particular emphasis will be placed on technologies that affect and enhance the way we communicate with each other, most notably in the areas of interpersonal communication and the transference of the written word. Students will be provided with an overview of available products as well as hands on experience. Topics include, but are not limited to, social networks, virtual worlds, web-based applications, blogs, RSS, and wikis.

Credits: 3

Every Spring
### CMA 301 Emerging Media Applications II
The second of the two emerging media applications courses, students will continue to focus on the wide range of emerging technologies and applications available in today's digital age. In an ever-changing digital world, it is vitally important to maintain a familiarity with the most current technology. In this course, a particular emphasis will be placed on multimedia technologies, focusing on those that incorporate photographs, audio, and video. This course will provide an overview of available products as well as hands on experience. Topics include, but are not limited to, web-based applications, integrating audio and video, photo sharing tools, slideshows, and audio/video podcasts.

**Credits:** 3  
**Every Spring**

### CMA 310 Advertising and Public Relations
This course provides students with a study of the relevant media strategies that are paramount in the fields of advertising and public relations. Students will examine the expanding role of media and how this expanding role is changing the nature of these fields in today's global society. A particular emphasis will be placed on the concept of audience and the ways messages are both created and delivered.

**Credits:** 3  
**Every Spring**

### CMA 320 New Media Literacies
In this course, students will examine how definitions and attitudes towards literacy have changed in recent years. In particular, students will focus on how changes in technology have expanded the horizon for what it means to be literate. Students will gain a foundation in the traditional meaning of literacy while also looking ahead to how new media is affecting this definition. Students will explore how changes in learning and not only analyze these changes as they are happening today, but learn to anticipate what changes may be in store for the future.

**Credits:** 3  
**Every Spring**

### CMA 330 Digital Storytelling
This course examines the evolution of storytelling with a particular focus on digital media and the way it has changed the way stories are told. Students will focus on the use of different media and the ability to accentuate story through the use of digital pictures, sound, video, and various web based applications that incorporate some or all of the aforementioned qualities. This course is meant to not only enhance a student's ability to tell a story, but their ability to analyze and interpret stories as well.

**Credits:** 3  
**Every Fall**

### CMA 335 Gaming and Society
This course explores the cultural and technological evolution of interactive entertainment. Students will examine the history and evolution of gaming and game design, the psychological and sociological effects of gaming, and the impact of games on today's education. Digital games will also be studied from a critical perspective, focusing on structure, narrative, genre, and social connectedness.

**Credits:** 3  
**Every Spring**

### CMA 400 ePortfolio I
Part one of a two-part course, students will work to gain the basic knowledge needed for creating and developing an effective electronic portfolio. Students will examine and evaluate professional portfolios and develop strategies for data collection, organization, and presentation. Topics will focus on creating portfolios that are exemplary in both content and appearance. A particular emphasis will be placed on learning how to effectively produce and collect artifacts which will be used in the creation of a portfolio during the student's final semester.

**Credits:** 2  
**Every Spring**

### CMA 401 ePortfolio II
The culminating course of the two electronic portfolio courses, this course will provide a practical application of the knowledge gained in the introductory course. Students will study the different media and applications that can be used in the construction of an electronic portfolio and will use those same devices to create a portfolio of work that they have completed throughout their program. The creation of an electronic portfolio will be required for the completion of this course.

**Pre-requisite of CMA 400 is required.**

**Credits:** 2  
**Every Spring**

### CMA 404 Media Law
This course is designed to introduce students to the major ethical and legal issues in the area of media. A particular emphasis will be placed on the areas of copyright, libel, freedom of the press, and the First Amendment. Students will also be introduced to legal cases that have contributed to the establishment of the current media law.

**Credits:** 3  
**Every Spring**

### CMA 410 Media Law
This course is designed to introduce students to the major ethical and legal issues in the area of media. A particular emphasis will be placed on the areas of copyright, libel, freedom of the press, and the First Amendment. Students will also be introduced to legal cases that have contributed to the establishment of the current media law.

**Credits:** 3  
**Every Spring**

### CMA 410 Communication Research Methods
This course provides students with a solid foundation in the process of conducting communications based research. In particular, students will focus on developing the skills used to analyze the works of others as well as the skills necessary for producing their own pieces of research writing. Students will also be exposed to methods of data collection and data analysis that will help to guide them in their research.

**Credits:** 3  
**Every Fall**

### CMA 450 Communication Capstone Project
A culminating project that will be completed under the advisement of the instructor, this project will be completed during the student's final semester of study and may be a substantial research based assignment or a technology based product created for practical use.

**Credits:** 4  
**Every Spring**

### CMS 440 Case Studies in New Media
In this course, students will take a case study approach to learning about past and current issues involving the advancement of new media technology. Students will analyze issues on a case by case basis to reinforce concepts in new media that have been presented to them throughout the previous semesters of study. In particular, students will focus on the many concerns that have been documented regarding advancing new media technology in today's digital age.

**Credits:** 3  
**Every Spring**

### CMS 450 Communication Internship
During their final semester, students will have the option of electing to take a new media/communications based internship in lieu of completing the capstone project. This internship opportunity is designed to give students valuable experience in a professional working environment. Students will be required to keep weekly journals of their experiences as well as complete a final paper.

**Credits:** 4  
**Every Spring**

### EDU 201 Foundations of Education
An introductory analysis of contemporary American education: its structure, objectives, and problems, viewed through various social, philosophical and historical perspectives and studied in theory and action through seminars, field observations, and on site experiences in public schools.

**Credits:** 3  
**Every Fall**

### EDU 210 Child Development
This course will explore human growth and development.
EDU 250 Educational Psychology
This course is designed to promote a greater understanding of the principles underlying the task of guiding children toward maximum learning opportunities and self realization. It will provide a greater understanding of the learning process, of learning situations, and of the learner him/herself in dynamic interaction. Functional insights into various aspects of the teaching/learning process will be examined. Theories and research on cognitive and emotional development in children will be presented. Students will be encouraged to recognize and understand patterns within psychological principles, perceive and comprehend how different facets of psychology interrelate, and to apply these recognitions to actual classroom situations and scenarios. A greater awareness and understanding of different factors involved in learning and teaching will be developed. Prerequisite of EDU 210 is required. Credits: 3
Every Spring

EDU 260 Introduction to Special Education
The effect of litigation regarding individuals with disabilities will be examined with particular emphasis on the concept of the “least restrictive environment.” Procedural requirements including referral, evaluation and placement procedures, and the individualized Education Program (IEP) will be examined as they pertain to students with disabilities receiving their education in the least restrictive environment. The characteristics and learning needs of the students classified as “exceptional” will be studied as well as the preferred teaching strategies and behavior management techniques utilized to ensure these students receive an appropriate and effective education when included in the general education classroom. Credits: 3
Every Fall

EDU 265 Technology in Education
The impact of computer technology on the instructional learning process is important for today’s educators to acknowledge. This course is designed to familiarize the student with the necessary skill base required to meet the demands of effective integration of technology into daily instructional programs. The student will become aware of the technology benchmarks today’s educators to draw upon in order to facilitate the learning process and address the needs of a society in which innovation doubles rapidly. Students will come away from this course with a newly found confidence in the use of technology and growing appreciation for the increased dimension technology can bring to the learning process. Credits: 3
Every Fall

EDU 266 Advanced Technology in Education
This course is designed to apply students' computing skills to enhance and enrich coursework and to develop technological capabilities as a professional educator. More specifically, this course is designed to promote awareness of the different factors involved in using technology in the classroom. Students will have the opportunity to discuss, question, and exchange ideas that will contribute to their overall understanding of technology in the classroom. Students will experiment with various current technologies, as well as use familiar technologies in new ways. Through hands on experience, students will learn about new emerging web 2.0 technologies that will enhance collaborative abilities with colleagues and students. In the process, students will be encouraged to reflect on experiences and share effective educational methods experienced throughout the student’s lifetime. Credits: 1
On Occasion

EDU 270 Curriculum Planning
Curriculum design is the responsibility of every teacher regardless of the grade level or subject taught. Working within the parameters of a suggested framework, every teacher needs to be able to include all the topics necessary to best prepare the student to be successful citizens. Teachers must also be able to integrate the latest approaches into their instruction in an effort to meet the needs of a diverse learning community and prepare them appropriately for the rigors of testing and the demands of society outside the classroom. This course will help students develop the skills and strategies necessary to create curriculum successfully. Strategies related to interdisciplinary instruction, brainstorming and collegial unit planning will be investigated. The students will discover how to develop curriculum in a manner which empowers instruction and learning. Credits: 3
Every Spring

EDU 280 Classroom Management
The most overwhelming challenge new teachers face is that of implementing effective classroom management. That as it relates to achievement can be undermined if strategies are not in place to ensure success. This course is designed to examine classroom management and will explore ways of promoting student motivation and self discipline. Whenever possible, research based findings will be incorporated into instruction. Through this course, the student will begin to formulate a personal philosophy and begin to design a basic plan for organization and functional success. Students will develop an understanding that educational leadership is essential to all educators and that management plays a large part in being a leader. This course will promote a greater understanding of the principles underlying the task of managing the classroom. Credits: 3
Every Spring
The student teaching seminar complements the teaching curriculum and is required for completion of the Education Program. The capstone course provides actual teaching activity all day, everyday throughout the semester where the student will blend theory with practice. Participants will demonstrate various teaching strategies which will be observed (often video taped) by college supervisors.

The student teaching seminar complements the student teaching experience. The purpose of this seminar is to assist, support, and facilitate the student teacher in his/her teaching. It is designed to analyze successes and failures, meet challenges, and learn from all of these experiences. Through sharing of personal experiences, participants will address current educational issues which affect children in our schools. Such topics will include workshops on drugs, health, consumer science, etc. These experiences in student teaching and the seminar are based on the conceptual framework (purpose) and the mission of the Education program.

Prerequisite of EDU 301A, EDU 301B and EDU 301C are required.

Credits: 12
Every Spring

ENG 300 Advanced Creative Writing
This course will introduce different forms of creative writing with a specific focus on short fiction and the personal essay. Students will read and discuss the works of established authors as well as create and discuss their own works over the course of the semester. Students will work to improve their writing by delving into the uses of imagery, character development, point of view, dialogue, voice, and other elements of creative writing. A final portfolio of the student’s writing will be submitted at the end of the semester.

Credits: 3
Every Fall

EDU 301C Integrated Methods - Mathematics/Science - Grades 1-6
An integrated pre-student teaching methods and materials course covering theory and practice in teaching mathematics and science in grades one through six. Specific research-based instructional methods appropriate to teaching mathematics and science will be demonstrated and analyzed. Emphasis will be on the constructivist approach with special attention to inquiry, problem solving, reasoning skills, communication, hands-on activities, and application of state standards to curriculum content. Field experience is required.

Prerequisite of EDU 270, 280 and passing score on L.A.S.T. are required.

Credits: 6
Every Fall

EDU 401 Student Teaching and Seminar
Student Teaching is the culminating experience for education students and is required for completion of the Education Program. This capstone course provides actual teaching activity all day, everyday throughout the semester where the student will blend theory with practice. Participants will demonstrate various teaching strategies which will be observed (often video taped) by college supervisors.

The student teaching seminar complements the student teaching experience. The purpose of this wordless books, realistic fiction, fantasy, and children’s poetry. They will read, analyze, and share children’s books as a means of understanding not only the nature of the different genres, but the elements that comprise these genres as well. Students will also work to understand the concept of children as an audience as they explore different writing styles and techniques used by children’s authors.

Credits: 3
On Occasion

MTH 301 Math for Educators
This course is intended as a review and enrichment of basic mathematical skills with particular consideration given to the needs of elementary school teachers. A focus is placed on understanding the concepts which serve as the foundation of the school mathematics curriculum. Content is based on problem solving, communication, reasoning, and making connections in and out of mathematics. A particular emphasis will be placed on developing concepts and strategies for teaching these same mathematical skills to students on an elementary level.

Credits: 3
On Occasion

ENG 402 Advanced Professional Writing
This course explores some of the emerging trends in today's language and how those trends intermesh with the current professional environment. Students will work to master various forms of professional writing including e-mail, letters, resumes, and academic articles. An emphasis will be placed on writing that is clear and concise. Students will also work to develop an understanding of how different audiences and social contexts shape the way we write and interact.

Credits: 3
Every Spring

ENG 405 Children's Literature
This course is designed to introduce and examine the works of both contemporary and classic children’s literature authors and illustrators. Students will become well versed in a variety of children's literature genres including picture books,
GRADUATE EDUCATION PROGRAMS

Graduate Teacher Education programs at Long Island University at Riverhead include the M.S. in Literacy Education (Birth to Grade 6), the M.S. in Teaching Students with Disabilities (Grades 1 to 6) and the M.S. in Teaching Students with Disabilities Generalist (Grades 7 to 12), for teachers with initial certification who are pursuing a master's degree for professional certification. The M.S. in Childhood Education (Grades 1 to 6) is designed for the career-changer who has a bachelor's degree in a subject other than teacher education (such as math, science or English, for example) and wishes to become a teacher at the elementary school level. The 24-credit graduate Advanced Certificate in Applied Behavior Analysis is designed for teachers of children with autism or other disabilities who seek certification in this increasingly prominent specialization.

The Education Program faculty are committed to ensuring that graduates are prepared to be outstanding educators who demonstrate the knowledge and skills necessary to educate and work with a diverse school population. Students will follow a curriculum that encourages intellectual pursuit and challenges them to develop their abilities to analyze and synthesize and to make ethically informed decisions.
General Program Admission

Matriculation:
To matriculate, students must have:
• An earned baccalaureate degree from an accredited institution
• Minimum 2.75 overall undergraduate average based on a 4.0 scale
• One letter of recommendation from a professional in the field of education or related disciplines which supports the student’s request for admission, and addresses the student’s academic skills and personal attributes, strengths and/or weaknesses.
• Submitted an application for admission
• Complete an on-campus writing sample
• Complete an interview with the program director and the Director of Admissions

Transfer Credit:
Up to six graduate credit hours with grades of "B" or higher may be accepted as transfer credits from an accredited graduate college or university if they were completed within five years of the date of application, and if they correspond to similar courses in this program. In-service courses will not be accepted. Transfer credits will not be recorded until the student has completed 15 credit hours in residence. Courses taken at another college or University after a student has applied for admission may not be used for transfer credit unless prior permission has been obtained (see Visiting Student Authorization section of this Bulletin).

Note: No third-party courses may be used for credits toward a master’s degree.

Time Limitation:
A student has a maximum of five years from the date of matriculation to complete the degree. A time extension may be granted in certain cases by petition to the program director and with approval from the Associate Provost.

Graduation:
For graduation, a student must have:
• Earned a grade of B- or higher for all graduate education courses
• Completed all required coursework with a 3.0 average or higher
• Successfully completed the Thesis Project or Practicum depending upon the degree taken

Program Benefits
The faculty support a relationship between professor and graduate student which makes them partners in learning, scholarship, research, and problem-solving. Furthermore, the faculty believe in a close working partnership with area schools in order to provide each candidate experiences with practicing educators.

Master’s Degree: Childhood Education (Grades 1-6)

Overview and Prerequisites
The Master of Science degree in Childhood Education is designed for individuals who have earned a bachelor’s degree from an accredited university or college and wish to begin a new career as a certified school teacher or current teachers who seek additional training to advance their careers. Graduates are eligible for Initial Teaching Certification from New York State in Childhood Education for Grades 1-6.

The program is accredited by the Teacher Education Accreditation Council, signifying it meets the highest standards of quality in preparing competent, caring and qualified professional educators who will teach and lead in pre-K through grade 12 schools.

A bachelor’s degree from an accredited college or university is required. The degree should include content major or concentration (minimum 30 credits) and a strong liberal arts and science background that meets New York State Education Department criteria. Applicants should hold a bachelor's degree in an area other than education. The M.S. in Childhood Education program requires a general education core and major/concentration (minimum 60 credits) in liberal arts and sciences. Candidates may have to take pre-requisite courses to meet these requirements. It is recommended that students take the New York State Education Department Liberal Arts & Sciences Test (L.A.S.T.) prior to entering the program or within the first semester of enrollment.

New York State Teacher Certification Requirements
• Completion of the approved degree program
• Students must pass the following New York State Teacher Certification Examinations: Liberal Arts and Sciences Test (LAST), Elementary Assessment of Teaching Skills (AST-W) and Content Specialty Test (CST) Multi-Subject
• Students must complete the following workshops: School Violence Prevention and Intervention Workshop (Project S.A.V.E.) and Child Abuse Identification Workshop
• In order to student teach, to receive your New York State teaching certificate or to apply for employment in a school district, charter school or boards of cooperative educational services (BOCES), New York State requires you to satisfy a Fingerprint Investigation for a criminal history background check. You must complete the fingerprinting process prior to student teaching.

Students must have earned a bachelor’s degree and met the liberal arts and sciences requirements of New York State.

Childhood Education M.S. Requirements
(46 Credits)

Required Courses
EDU 501 Foundations of Education 3.00
EDU 502 Educational Psychology and Human Development 3.00
EDU 511 Classroom Management 3.00
EDU 580 Introduction to Special Education 3.00
EDU 590 Reading and Writing Process 3.00
EDU 601E Methods and Materials of Teaching Reading 3.00
EDU 613 Assessment Techniques 3.00
EDU 620 Methods of Teaching Social Studies and Language Arts 3.00
EDU 630 Methods of Teaching Mathematics and Science 3.00

Pick one of the following
EDU 500A Advanced Technology and Curriculum 1.00
EDU 500B Basic Technology and Curriculum 1.00

Pick one of the following
EDU 505A Field Experience I 3.00
EDU 505B Fieldwork Experience II 3.00

New York State Teacher Certification Requirements

M.S. in Teaching Students with Disabilities (Grades 1-6)
- Completion of the approved degree program
- Content Specialty Test (CST) – Students with Disabilities

M.S. in Teaching Students with Disabilities Generalist (Grades 7-12)
- Completion of approved degree program
- Completion of 6 semester hours in each of the following areas: English/Language Arts, Social Studies, Science, and Mathematics. Most or all of these courses are completed at the Bachelor’s degree level before the student enters Long Island University at Riverhead.
- New York State Teacher Certification Exam - Liberal Arts & Science Test (LAST)
- Content Specialty Test (CST) - Students With Disabilities
- Content Specialty Test (CST) - Multi-Subject 7-12

M.S. Teaching Students with Disabilities
The M.S. in Teaching Students with Disabilities leads to New York State Teacher Certification in Students with Disabilities Grades 1 - 6 OR Students with Disabilities Generalist Grades 7 - 12. Students must hold initial New York State Teaching Certification in an area other than Teaching Students with Disabilities (Grades 1 - 6 or Generalist 7 - 12) and meet the liberal arts requirements of New York State.

Advanced Certificate in Applied Behavior Analysis

The 24-credit graduate level Advanced Certificate in Applied Behavior Analysis is designed for individuals who wish to receive a formal background in the theory and practice of applied behavior analysis. Behavior analysis is used most widely with clinical populations in the area of developmental disabilities, including but not limited to clients diagnosed as autistic.

Behavior analysts work with individuals at all age levels, from infancy through adulthood and old age, in settings that include schools, homes, day programs, communities, residential care settings, businesses and research laboratories. They function as individual clinicians or are employed in organizations in numerous fields including education, behavioral medicine, mental health, disability, and children’s services, business and institutions of higher learning.

Course Descriptions

EDU 500A Children’s Literature
This course is designed to introduce future elementary education teachers to the works of both contemporary and classic children’s literature authors and illustrators. Students will become well versed in a variety of children’s literature genres including picture books, wordless books, realistic fiction, fantasy, and children’s poetry. They will read, analyze, and share children’s books as a means of understanding not only the nature of the different genres, but the elements that comprise these genres as well. Students will also work to understand the concept of children as an audience as they explore different writing styles and techniques used by children’s authors. Methods of using children’s literature to promote literacy in the classroom will also be discussed.
Credits: 3
Every Spring

EDU 500B Basic Technology and Curriculum
This course is a project based introduction to using various technologies including computers in the classroom, internet, smart board, and programs such as power point.
Credits: 1
On Occasion

EDU 501 Foundations of Education
The purpose of this course is to provide an examination of education through the perspectives of history, sociology, philosophy, and politics. Those disciplines will be integrated using an interdisciplinary approach to study major issues, problems, controversies, practices, and theories as they apply to education in the United States. Through readings, classroom discussions and research, students will become familiar with the present organization of the teaching/learning process as well as with the major educational concerns which face the nation today. This “perspectives” approach will enable students, as future educators, to make more reasoned decisions about the many challenges teachers will face in the field.
Credits: 3
Every Fall
EDU 502 Educational Psychology and Human Development
Systematic explorations of contemporary psychological knowledge related to education and learning, particularly constructivism. Emphasis placed upon the principles of cognitive processes, language acquisition and development, and a range of factors related to learning readiness and student diversity.

Credits: 3
Every Spring

EDU 509A Field Experience I
Graduate students enrolled in one or more methods course during the fall semester must also enroll in this course which will provide the field based experiences related to the pedagogical base of the methods courses. Participants will spend a minimum of 50 hours per semester in a school setting appropriate to the area of certification. Students should note that a total of 100 hours is required prior to the student teaching semester. A weekly seminar on campus will introduce students to topics such as the school/learner environment, the New York State Learning Standards, curriculum design and the integrated curricula, lesson planning, teaching strategies, assessments and classroom management.

Credits: 3
Every Fall

EDU 509B Fieldwork Experience II
Graduate students enrolled in one or more methods course during the spring semester must also enroll in this course which will provide the field based experiences related to the pedagogical base of the methods course. Participants will spend a minimum of 50 hours per semester in a school setting appropriate to the area of certification. Students should note that a total of 100 hours is required prior to the student teaching semester. A weekly seminar on campus will provide students with opportunities to review and reflect upon the efforts at lesson planning and lesson execution to relate content from their liberal arts background to the New York State Learning Standards. Other topics related to effective planning, assessment and instruction related to child development and learning psychology will be addressed.

Credits: 3
Every Fall

EDU 512 Methods & Materials of Early Child Education
The focus of this course is on the models of teaching the early childhood curricula of mathematics, reading readiness and language arts, social studies, science, art, music and learning issues. This is integrated with the New York State learning standards. Emphasis will be on designing a developmentally appropriate curriculum as well as assessment of it. Fieldwork is required.

Credits: 3
Every Spring

EDU 511 Classroom Management
Specific techniques and strategies for motivating and enhancing student achievement (both academic and social) as well as modifying student classroom behavior in predictable and desirable directions will be examined and practiced. Strategies for evaluating the effectiveness of a teacher's behavior in producing desired levels of student motivation and self-discipline will be studied. Selected topics include: safe and nurturing environment, responsibility, respect, working with parents, resolving conflicts.

Credits: 3
Every Spring

EDU 512 Methods & Materials of Early Child Education
The focus of this course is on the models of teaching the early childhood curricula of mathematics, reading readiness and language arts, social studies, science, art, music and learning issues. This is integrated with the New York State learning standards. Emphasis will be on designing a developmentally appropriate curriculum as well as assessment of it. Fieldwork is required.

Credits: 3
Every Spring

EDU 580 Introduction to Special Education
Current trends in the inclusion of exceptional students into the general education classroom will be examined. Procedural requirements, including the referral, evaluation, and placement procedures in addition to development of the Individualized Education Program (IEP) will be examined as they pertain to exceptional children receiving educational services in general education classes. Research based behavioral and instructional strategies will be studied for each category of exceptionality. 25 hours or fieldwork is required.

Credits: 3
Every Fall

EDU 581 Instruction in the Content Areas-Special Education
This course emphasizes the application of practical, relevant instructional approaches derived from theory and research to the education of learners with special needs. Three broad objectives underpin this course. The first is to direct attention to the necessity for effective teaching methods that will result in the learning of specific skills and concepts. The second is to introduce students to content area curricula as presented in the New York State Standards. The third is to apply knowledge of methods and the Standards to the design of appropriate instruction in the content areas.

Credits: 3
Every Fall

EDU 582 Applied Behavior Analysis
This course is designed to prepare teachers and behavior specialists to analyze and manage the behavior of children with developmental disabilities. This course will provide students with the knowledge and skills necessary to teach appropriate behaviors to children with disabilities. Students will be presented with basic terminology and concepts of applied behavior analysis, strategies for increasing appropriate behaviors and decreasing inappropriate behaviors, skills in the observation and evaluation of behavior change, techniques to promote maintenance and generalization of behavior, and information surrounding the legal and ethical issues related to the use of behavior management strategies.

Credits: 3
Every Fall

EDU 583 Educational Interventions for Young Children with Disabilities
The theories of developmental appropriateness and constructivism will be the organizing forces of this course and will be applied to the acquisition, remediation and enrichment of literacy, numeracy and social skills of students with disabilities. The New York State Standards will be used as the basis for the design of appropriate instructional lessons in the areas of language arts, social studies, science and math. A field work component is included.

Prerequisite of EDU 581 is required.

Credits: 3
Every Spring

EDU 584 Educational Interventions for Middle and High School Students with Disabilities
The focus of this course is the practical application and implementation of research based practices with adolescents with mild disabilities in both special and regular education settings in the school and community. In order to prepare these students for the postsecondary work environments of the 21st century, effective instructional methods, models, and materials in the literacy, math and social skills will be explored. The New York State Standards will be used as the basis for the design of instructional plans. A field work component is included.

Prerequisite of EDU 581 is required.

Credits: 3
Every Spring

EDU 585 Collaboration and Consultation in Special Education
Both special education enabling legislation (IDEA) and civil rights nondiscriminatory legislation (Section 504) mandate that students have a right to a free and appropriate public education (FAPE) in the least restrictive environment (LRE). The inclusion of students with special needs in general education classrooms and students placed in self-contained settings require a team approach to educational programming. Educators must collaborate with professionals, parents and support personnel to maintain the overriding goal of successful educational outcomes for each student. This course will introduce students to the theoretical structure and methods of collaboration and consultation in the school and home setting in order to achieve that goal. Field work requirement.

Credits: 3
Every Spring

EDU 590 Reading and Writing Process
This course will focus on the interrelationship of the literacy processes through the examination of epistemological, philosophical, theoretical, and pedagogical literacy models. Specifically, students will explore the various aspects of the reading and writing processes (i.e., linguistic, physiological, psychological, and social) as a way of better...
understanding what is involved during the act of reading and writing. The increased cognizance of process will enable students to create new visions for their own pedagogical practice.

Credits: 3
Every Fall

EDU 591 Literacy Research
This course will focus on the history as well as current trends in literacy research. Students will engage in an examination of literacy research involving the generation and refinement of models and theories as well as the traditional quest for better methods of teaching reading and writing. Strategies in interpreting and analyzing the professional literature will also be emphasized.

Credits: 3
Every Fall

EDU 593 Language Acquisition
This course is designed to provide educators with an understanding of normal language development (both spoken and written) from its origins in early infancy to its mastery during the school age years. These systems of representation, spoken and written language, will be seen to be inter-related and as a result, students will be able to integrate their increased understanding of oral language acquisition with reading/writing development. Three underlying assumptions will guide this course: (1) language is a means of representing information, (2) language is a social act, and (3) knowledge about normal language acquisition can be used to better understand the nature of specific language disorders in children. Prerequisite of EDU 590 is required.

Credits: 3
On Occasion

EDU 601E Methods & Materials of Teaching Reading
This course is designed to assist teachers in the development and refinement of skills necessary to provide and implement activities and materials for the teaching of reading. Basic foundations of reading as a cognitive process and controversies related to reading instruction are investigated and discussed. Topics to be covered include: readiness, skills of reading, testing, and other assessment techniques. Investigation of historical programs, current programs and related research will be included in the study of methodology in reading instruction. Field work is required. Prerequisite of EDU 590 is required.

Credits: 3
Every Spring

EDU 607 The Process of the Writing Workshop
This course will focus on the interrelationships of the reading and writing processes. Through participation in a reading/writing workshop environment, a theoretical framework for the reading/writing process can be developed. Emphasis will be placed on teaching strategies, conferring, and related activities for meaningful classroom applications. Specific topics include but are not limited to: effective strategies for prewriting, drafting, revising, editing, and publishing, using literature as writing models, writing in different genres, writing for authentic purpose, quantitative and qualitative measures of evaluating writing, reading/writing across the curriculum, conventions of standard written English, individual differences among learners as they engage in the writing process and adapting instruction to meet those needs, and use of appropriate technology to support literacy learning. In field-based experience graduate students will observe a learner engage in the writing process. Prerequisite of EDU 590 is required.

Credits: 3
Every Fall

EDU 608 Teaching Reading in the Content Area
The purpose of this course is to provide teachers with an in-depth understanding of literacy methodology as it related to the reading of content area text. Topics covered will include literature in the content area classroom, text organization, comprehension and vocabulary strategies, study skills, and the reading/writing connection. Cognitive, sociocultural, and motivational factors will be viewed as important mediators of students’ ability to learn from text. This increased cognizance of the literacy processes across curriculums should enable teachers at all levels to better facilitate students’ internalization of literacy strategies and to develop active, independent learners. Prerequisite of EDU 601R is required.

Credits: 3
Every Spring

EDU 609 Literacy Assessment and Evaluation Practicum
This course will prepare teachers to holistically assess and evaluate the reading and writing ability, both strengths and weaknesses, of early childhood through grade 6 children. Because reading and writing processes are transactional in nature and a reflection of the interrelationship between language and cognition, the assessment process will be presented as holistic and ongoing. While the focus is on authentic assessment, graduate students will learn and conduct both informal and formal assessment. This course is designed to meet the needs of classroom teachers as well as reading specialists by assessing and synthesizing all the components of literacy, including the academic, emotional, and social aspects. Prerequisite of EDU 601R is required.

Credits: 3
Every Fall

EDU 610 Literacy Instruction for the Struggling Learners Practicum
The primary purpose of this course is to provide the graduate student with the opportunity to utilize the diagnostic evaluation conducted in EDU 609 and to collaborate with the struggling student in designing, implementing, and evaluating an instructional plan based on individual needs. Emphasis is on the importance of teachers’ thought processes to decision-making and the relationship between theory and instructional practices related to socio-psycholinguistic principles and research in the writing process. Course content will stress remedial techniques for students with diverse cultural and SES backgrounds. Prerequisite of EDU 609 is required.

Credits: 3
Every Spring

EDU 611 Practicum in Reading Case Studies
This course offers students an opportunity to work in the summer literacy clinic with children who have reading and/or writing difficulties. During these sessions, the graduate student assesses the students emerging literacy development and upon analysis of the results collaborates with her/his student in designing, carrying out, and evaluating a plan for the literacy session. Students are expected to write professional preliminary and final reports as well as plans for each literacy session. Prerequisite of EDU 610 is required.

Credits: 3
Every Summer
EDU 612 Supervision of Literacy Programs (K-6)
This course is designed to focus on the elementary literacy specialist’s leadership role in the planning and delivery of reading instructions from goal setting, program planning, decision making, problem solving, program supervision, and program evaluation for students from varied cultural and linguistic backgrounds. Specific topics include, but are not limited to, developing a system-wide philosophy of literacy instruction/development and program goals, organizing and staffing school/system-wide literacy programs, developing collaborative teams to engage in ongoing monitoring, evaluation, and improvement of school/system-wide literacy assessment/ instructional program and practices, exploring introductions to and evaluation of professional development models, and designing programs and techniques that facilitate the development of school/system-wide literacy connections. **Prerequisite of EDU 609 is required.**
Credits: 3
Every Spring

EDU 613 Assessment Techniques
The focus of this course is on the construction and analysis of educational measurement and research instruments. Students will critically examine the standardization process, basic statistical concepts, norm- and criterion-referenced testing, and interpreting and reporting of testing data. Evaluation techniques in the areas of special education, reading, bilingual education as well as classroom assessment K-12 will be addressed. **Credits: 3**
Every Fall

EDU 620 Methods of Teaching Social Studies and Language Arts
A theoretical and practical approach to methods and techniques in the teaching of social studies and language arts. The integration of reading, writing, listening, and speaking skills with social studies topics will be studied in order to increase students’ understanding and achievement of the concepts and skills in both of these curriculum areas. Application of the New York State Standards (ELA and SS) to content and differentiated instruction will be the focus of this course. Field work is required. **Credits: 3**
Every Spring

EDU 630 Methods of Teaching Mathematics and Science
Specific research-based instructional methods appropriate to teaching mathematics and science will be demonstrated and analyzed. Emphasis will be on the constructivist approach with special attention to problem solving, reasoning skills, communication, hands-on activities, and application of New York State Standards to curriculum content. Field work is required. **Credits: 3**

EDU 661 Diagnostic/Prescriptive Techniques for Use with Students with Disabilities
This course focuses on the use of practical diagnostic instruments in order to design an appropriate instructional program for students with disabilities. Participants will use information collected from assessment instruments to guide them in the selection of instructional methods and curricula that will be effective in meeting the individual needs of students with disabilities. **Credits: 3**
Every Fall and Summer

EDU 663 Teaching Students with Emotional/Behavioral Disorders
This course will focus on the etiology, characteristics, identification, and behavioral and educational strategies associated with students classified as emotionally and/or behaviorally disordered. The legal mandates, the procedures for assessment and placement, family issues, social skills and interactions, and classroom (regular or special education) interventions with a special emphasis on behavior management strategies will be examined. **Prerequisite of EDU 581 is required.**
Credits: 3
Every Spring

EDU 664 Research in Special Education
This course is designed to prepare graduate students to become competent consumers of research in the area of special education. Students will become acquainted with current research, the research process, and the tools of research. **Credits: 3**
Every Fall

EDU 667 Autism
Autism is a disorder present from very early in development characterized by a triad of impairments in social interaction, communication, and behavior repertoire. The specific characteristics and difficulties vary in severity across individuals and over time. This course will focus on the core characteristics of children with autism, how these characteristics impact learning, and best practice intervention programming based upon the principles of applied behavior analysis. **Prerequisite of EDU 582 is required.**
Credits: 3
On Occasion

EDU 668A Practicum in Special Education: Adolescence
This course provides conditions under which the student can demonstrate competencies by working with students with disabilities at the adolescence level under the supervision of a qualified teacher. This course provides experience in administering assessments, designing individual instructional plans (IEPs), data collection and analysis and instructional adaptations. Field work is required. **Prerequisite of EDU 583 or 584 is required.**
Credits: 3
Every Fall

EDU 668C Practicum in Special Education: Childhood
This course provides conditions under which the student can demonstrate competencies by working with young children (grades 1-6) with disabilities under the supervision of a qualified teacher. This course provides experience in administering assessments, designing individual instructional plans (IEPs), data collection and analysis and instructional adaptations of content area subjects. A minimum of 20 days of field work is required. **Prerequisite of EDU 583 is required.**
Credits: 3
Every Spring

EDU 691E Student Teaching - Elementary
Five days each week are spent in a school assigned by the Teacher Education Program Office. Clinical practice experience in grades 1-6 is required. Observations will occur throughout the semester to assess student progress. Seminars are held weekly on campus. Topics required for study by the New York State Education Department will be the Child Abuse Seminar, the School Safety & Violence Prevention Seminar, and others. **Credits: 6**
Every Fall and Spring

EDU 700 Education Research
This course introduces the student to the purposes and procedures of research in education. Students study research designs and their appropriateness to educational problems. With the guidance of a faculty member, students determine a topic and develop a plan for the research project. Faculty approval of a proposal for the thesis must be granted before a student may enroll for EDU 800. **Prerequisite of 21 completed units of Education are required.**
Credits: 3
Every Fall

EDU 700A Thesis Proposal: Special Education - Analysis of Teaching and Learning
The focus of this course is the use of action research as a method to guide teacher decision making and planning in an educational setting. Students will examine the potential, the problems and the impact of action research and then generate areas of teaching and learning behaviors appropriate for an in-depth analysis. A plan will be developed to address the action or strategy that has been chosen for analysis and will include: an implementation strategy, a timetable, data collection and method of analysis. **Prerequisite of EDU 583 or 584 is required.**
Credits: 3
Every Fall
**EDU 800 Thesis - Childhood Majors**

The implementation of the approved thesis/project proposal. Seminars, individual meetings, and conferences will assist the student with implementation, feedback, revision, and evaluation while writing the thesis/project. The completed thesis is placed on permanent file with the Long Island University at Riverhead Education Program and is made available to all interested members of the educational community.

Prerequisite of EDU 700 is required.

Credits: 3

Every Spring

**EDU 800A Thesis Projects Special Education**

On an individual basis, mentors will meet with students and assist them through the completion of their thesis project. Seminars and individual conferences will provide students with ongoing instruction, feedback, support, and evaluation. The completed thesis is placed on permanent file at Long Island University at Riverhead and is made available to all interested members of the education division.

Prerequisite of EDU 700A is required.

HOMELAND SECURITY MANAGEMENT INSTITUTE

Long Island University at Riverhead hosts Long Island University’s Homeland Security Management Institute. This virtual institute offers an online graduate-level, 15-credit Advanced Certificate in Homeland Security Management as well as a fully online 36-credit Master of Science in Homeland Security Management designed for law enforcement agents, government officials and security professionals around the nation and across the globe. The program is also available to those who aspire to pursue management careers in various homeland security fields. The Homeland Security Management Institute has been designated by Act of Congress as a DHS Homeland Security Center of Excellence.
INTRODUCTION

Long Island University at Riverhead hosts the University's Homeland Security Management Institute. The Institute offers an entirely online 36-credit master's degree in Homeland Security Management and an online graduate-level, 15-credit Advanced Certificate in Homeland Security Management. The programs are designed BY professionals FOR professionals to meet the complex contemporary needs of homeland security specialists, law enforcement professionals, emergency managers, firefighters and HazMat experts, military personnel, government and public safety officials, and corporate security professionals around the nation and across the globe. The master's and advanced certificate programs are fully registered with the New York State Education Department and provide an outstanding professional credential that will also enhance career opportunities for those aspiring to careers in rapidly expanding homeland security fields. The online learning format is designed to accommodate the irregular and unpredictable schedules of busy professionals.

Advantages for Professionals

Earning the Master's degree and/or advanced certificate in Homeland Security Management allows professionals to attain the credentials required to prepare for a second career or to attain advancement in their current careers. It also prepares pre-career students with the knowledge, skills and practical insights required of homeland security professionals and managers. They provide the leadership and organizational skills needed to formulate and execute strategies in harmony with federal, state and local homeland security strategic objectives. It also develops and refines the skills needed to apply innovative approaches to problem solving and to achieve resilient and adaptive patterns of thinking.

The rigorous professional courses in our curriculum have been carefully crafted to meet the unique and specific needs of managers and executives in homeland security and related fields. This highly integrated curriculum is designed to meet the practical needs of busy professionals working in law enforcement fields, emergency managers, private security personnel, the intelligence community, the transportation industry, critical infrastructure, and a host of other private sector specialties in the complex homeland security enterprise.

Our Senior Fellows are a faculty of highly experienced practitioners with doctoral degrees and other outstanding academic credentials, including several Fulbright Scholars. They have “been there,” having completed their education while working full-time in demanding positions as homeland security managers and executives, and yet still work in the field. They are particularly sensitive to the needs and objectives of busy homeland security professionals as well as to the needs and objectives of those aspiring to management careers in homeland security fields. They understand the practical challenges active homeland security professionals face in pursuing higher education, including unpredictable schedules and the struggle to balance complex professional and personal responsibilities. A complete list of our Senior Fellows can be found at this Bulletin.

Online Education at the Graduate Level

The online distance education format makes it possible for students especially those employed as homeland security professionals in varied geographical locations, to participate without relocating to a distant campus. It offers these students the kind of scheduling flexibility that is absolutely essential for busy homeland security professionals.

Distance learning makes the Homeland Security Management program available to a more diverse cross-section of traditional students and practitioners from homeland security organizations and agencies across the nation, thus enhancing the quality of education by broadening the range of perspectives and experiences represented.

The Homeland Security Management Institute's dynamic and innovative approach to graduate professional education is unique in the nation. No other program offers the opportunity to learn Homeland Security Management with a core faculty comprised entirely of seasoned professionals who hold doctoral degrees and additional outstanding academic credentials. Our innovative online approach permits working professionals the kind of flexibility their busy schedules demand.

Our innovative online approach to professional education permits busy professionals to participate in a "virtual classroom" – to attend lectures, participate in class discussions, and to interact with other students and faculty – and to structure their attendance around the demands of their professional and personal lives. The Homeland Security Management graduate-level programs utilize the University's powerful, highly intuitive, easily mastered, online learning platform which supports interactive learning.

Interaction Between and Among Faculty and Students

The graduate-level Homeland Security Management programs recognize the value and importance of interaction and communication between students and faculty as well as between and among students. This philosophy of mutual exchange of ideas and joint learning guides our program, which has been structured to facilitate a high level of formal and informal interaction among all participants.

Homeland Security Management is an evolving and dynamic field that is rooted in a number of diverse fields of specialized knowledge and practice. One of the compelling challenges Homeland Security Management faces as it moves into the future is the need to integrate these specializations and to create a broader and more comprehensive understanding of how they coordinate and interact. Both our curriculum and our faculty reflect this diverse range of specialized fields, and our students are also drawn from a diverse array of professions, areas of expertise and geographic areas.

As experienced homeland security professionals, our core faculty of Senior Fellows recognize they stand to learn as much from students as students learn from them. Our program encourages exploration, dialogue and debate, and it takes advantage of the diverse knowledge, skills and areas of expertise our students bring to the program.

Academic Requirements

Admissions standards generally reflect those of other Long Island University graduate programs and require a bachelor's degree from an accredited institution with an undergraduate grade point average of 3.0 or better. Due to the challenging nature of this rigorous course of study, students are expected to demonstrate outstanding writing, research, analytic and critical-thinking skills. Students in the HSMI are required to maintain a minimum "B" average to graduate. Students falling below this level of performance will be asked to discontinue their studies with the Institute.

The program recognizes that many highly motivated, highly experienced, and highly qualified homeland security practitioners may not have fulfilled all the requirements for a bachelor's degree. The program will consider special accommodations for enrollment into the advanced certificate program for exceptional applicants who have not completed their bachelor's degree, but who possess outstanding expertise and credentials, a unique level of practical experience, or a particularly exceptional skill set. The program's policy is to carefully monitor these students and their progress, and special requirements may be imposed to ensure their academic success. For more information about the exceptional admissions policy, contact the program's director or the Admissions Office.

The Homeland Security Management Institute's courses are also an attractive and valuable option for graduate or upper level undergraduate students in degree programs at Long Island University (or other institutions) who want to explore the homeland security field and/or expand their employment opportunities in this growing area. Students enrolled in other Long Island University
degree programs who wish to take Homeland Security Management Institute courses for elective credit may register for these courses with the approval of their department and the program’s director.

A one-third tuition discount scholarship is available to qualified employees in many municipalities and unions around the country, with scholarships and financial aid available to qualified applicants. See the website or information contained in this bulletin for further details.

For more complete information about this unique and innovative opportunity for online graduate-level professional education in the complex and challenging field of Homeland Security Management, as well as information about our curriculum, our core faculty of Senior Fellows, and our distinguished Board of Advisors, visit the Long Island University Homeland Security Management Institute’s website at www.liu.edu/homeland.

Our website also features information on employment opportunities, as well as links to sources of information to agencies in the Homeland Security and intelligence communities.

Master of Science in Homeland Security Management

The Homeland Security Management Institute (HSMI) provides an exceptional graduate-level education to working professionals. A premier fully online program, the HSMI offers a 36-credit Master of Science degree in Homeland Security Management.

Advanced Certificate in Homeland Security Management

The 15 credits of the Advanced Certificate program form the core curriculum of the 36-credit Master of Science degree in Homeland Security Management, permitting qualified students completing the Advanced Certificate to continue their studies and earn both the Advanced Certificate and the Master’s degree without any loss of credit. The Advanced Certificate program is offered fully online.
# Homeland Security Management Courses

**HMS 500 Introduction to Homeland Security Management**

This introductory course surveys the major policies, practices, concepts and challenges confronting practitioners in the complex field of Homeland Security Management. The course provides an overview of various threats to domestic security from terrorism, weapons of mass destruction, and other related risks and vulnerabilities, examining the government and private sector organizations, strategies, and systems involved in protecting against and responding to these threats. Using a case study approach, the course focuses on the managerial, political, legal and organizational issues related to crisis planning and response, the National Incident Management System, risk assessment and mitigation, communications and technology systems, medical and public health emergencies, and infrastructure protection.

Credits: 3  
Every Fall, Spring and Summer

**HMS 520 Constitutional Issues in Homeland Security Management**

This course provides students with an overview of the various statutes, case law and Constitutional issues governing the activities of practitioners involved in the Homeland Security enterprise at the federal, state and local levels. These issues and bodies of law are of critical importance to Homeland Security practitioners and policymakers, and the course considers their important social, ethical and political implications. The central focus of the course is on the question of how to balance the goals, objectives and activities of effective Homeland Security against the compelling need to preserve and extend fundamental American civil liberties. The course examines the Constitutional and legal framework of the Homeland Security enterprise, discusses specific Constitutional issues and cases as they apply to Homeland Security, and considers the relationship between Homeland Security policies and the preservation of civil liberties. It examines the effectiveness of various court decisions and legislation including the USA PATRIOT Act in preventing and responding to the threat of terrorism as well as their role in shaping the development of Homeland Security agencies, policies, strategies and infrastructure.

Credits: 3  
Every Fall, Spring and Summer

**HMS 550 Homeland Security and the Private Sector**

This course explores the relationships and interactions between various private-sector institutions and public-sector Homeland Security organizations at the federal, state and local levels. It examines the specific roles, responsibilities and vulnerabilities of private-sector entities in protecting critical infrastructure as well as in preventing, deterring and responding to crises. Among the institutions and organizations considered are public utilities, the private security industry, mental health workers, hospitals and biomedical facilities, the public health sector, chemical and hazardous materials companies, shipping and transportation companies, airlines and airports, the financial services industry, and information technology and telecommunications companies. Particular emphasis is paid to mitigating and managing the threat of nuclear, biological, chemical and radiological (NBCR) weapons.

Credits: 3  
Every Fall, Spring and Summer

**HMS 540 The Intelligence Function in Homeland Security Management**

This course acquaints students with the concepts and practices involved in the process of collecting, analyzing and evaluating intelligence and in managing the intelligence function, as well as the influence of intelligence in shaping homeland security decisions. The course examines the roles and interactions of the foreign and domestic intelligence communities, the intelligence gathering and analysis capabilities of criminal justice and private sector entities, and the use of intelligence processes to support homeland security investigations, planning and policy formulation. Based on a case study approach, students in this course will develop an understanding of intelligence tradecraft and the analytic and research skills used in intelligence work, as well as an appreciation for the ethical, Constitutional and civil liberties issues involved. Specific topics considered include open source intelligence, assessing the reliability and validity of information, intelligence sharing, covert and counterintelligence operations, Homeland Security managers as both producers and consumers of intelligence, and the future of homeland security intelligence.

Credits: 3  
Every Fall, Spring and Summer

**HMS 550 Homeland Security and the Private Sector**

This course examines historical and contemporary theories, principles, and practices of Emergency Management, particularly the all-hazards approach and the related processes of mitigation, preparedness, response and recovery. Using a case study approach, the course considers the evolution of Emergency Management and its practical application within government and private-sector institutions. The roles, responsibilities, and duties of Emergency Managers at various levels of government are discussed, as are the relationships between the agencies, organizations, and individuals involved. The course acquaints students with the National Response Plan and such contemporary Emergency Management systems as the National Incident Management System (NIMS), with specific attention paid to their applicability to crises that include terrorist events, natural and man-made disasters, and other hazards.

Prerequisite of three (3) 500 level HMS courses is required.

Credits: 3  
Rotating Basis

**HMS 610 Psychological and Sociological Aspects of Disaster and Terrorism**

This course examines the traumatic psychological consequences of terrorism and disasters upon individuals and groups, as well as the individual and collective social behaviors that typically become manifest after these events. The course examines a range of psychological and social issues related to terrorism and disaster, including theories of psychological trauma, trauma prevention strategies and crisis intervention, the impact of psychological trauma upon first responders and those directly exposed to terrorism or disasters, the psychological goals of terrorism, and posttraumatic stress.

Prerequisite of three (3) 500 level HMS courses is required.

Credits: 3  
Rotating Basis

**HMS 620 Research Design and Methods in Homeland Security Management**

This course surveys various quantitative and qualitative analytic methods and research designs used for policy development and evaluation in Homeland Security fields, as well as the critical thinking skills and practical techniques involved in preparing analytical research products and reports. The course takes an interdisciplinary approach to research, and students become acquainted with such research methods as case studies, field research, surveys, content analysis, experimental designs, secondary analysis, and other forms of evaluative research. Various methods of statistical analysis are also covered, preparing students to design and conduct an original thesis research.
sector-specific plans to determine if they provide infrastructure protection plan and supporting exploration and analysis of vulnerabilities that affect our way of life. It will provide a detailed overview of the way in which public natural disasters. This course provides the student vulnerable some of our critical infrastructures (CI) 2005, poignantly illustrated to the world just how the terrorist attacks on September 11th, 2001 and Resource (CI/KR) Protection.

On Occasion
Credits: 3
Prerequisite of three (3) 500 level HMS courses is required.
HMS 640 Practicum: Exercises In Homeland Security
Under the supervision and direction of a member of the Homeland Security Management faculty, students participate in a planned program of observation and participation in the management operations of a Homeland Security agency. Prerequisite of three (3) 500 level HMS courses is required. Credits: 3
Every Fall, Spring and Summer

HMS 650 Border and Transportation Security
This course examines the critical tasks and complex challenges involved in securing the nation's airspace and its land and maritime borders, including efforts to prevent intrusions while facilitating the lawful movement of goods and persons. Border and transportation security issues are examined in terms of their impact on the economy, national security, and public safety, with particular emphasis on the interaction between federal, state and local entities with the military and various private sector industries and organizations. Elective course. Prerequisite of three (3) 500 level HMS courses is required. Credits: 3
On Occasion

HMS 655 Critical Infrastructure and Key Resource (CI/KR) Protection
The terrorist attacks on September 11th, 2001 and effects of Hurricane Katrina in the summer of 2005, poignantly illustrated to the world just how vulnerable some of our critical infrastructures (CI) and key resources (KR) were to manmade and natural disasters. This course provides the student with a detailed overview of the way in which public and private leaders are addressing critical CI/KR vulnerabilities that affect our way of life. It will explore and analyze the subsequent National Infrastructure Protection Plan and supporting Sector-Specific Plans to determine if they provide the coordinated approach necessary to set national priorities, goals, and requirements for CI/KR protection. Based on assigned readings of key government documents, independent reports and expert analyses, the student will gain a base of knowledge about the vast scope of effort and activities required to protect the nation's most essential assets. The student will also be able to reiterate the details required to reduce CI/KR vulnerabilities, deter threats, and minimize the consequences of attacks and other natural incidents across the nation. Elective course. Prerequisite of three (3) 500 level HMS courses is required. Credits: 3
On Occasion

HMS 656 Risk Management for Critical Infrastructure Protection and Transportation Systems
This course explores, discusses, and analyzes the requirements for development of a comprehensive Risk Management Program for the protection of critical infrastructure assets, with particular emphasis on critical infrastructure protection within transportation systems. Areas of focus include Risk Assessment Methodologies; the prioritization of assets for capital and resource allocation; the development of protection strategies; Cost Benefit Analyses; and Business Plan development. Students will achieve and demonstrate a thorough practical understanding of asset prioritization principles, risk assessment methodologies, and capital/resource allocation for effective Critical Infrastructure Protection, particularly for transportation critical infrastructure facilities and components. Elective course. Prerequisite of three (3) 500 level HMS courses is required. Credits: 3
On Occasion

HMS 658 Cyber Security: Issues and Policy in Transportation and Critical Infrastructure Protection
This course provides an in-depth examination of the role that cyber security plays in our society and its impact on the Homeland Security enterprise by exploring the overall phenomena of cyber security issues, with particular emphasis on transportation and critical infrastructure protection. The present state of the debate surrounding cyber security and the current policies in place to deal with these issues will be examined in detail. Additionally, cyber war, cyber crime, cyber espionage, and cyber terrorism will all be considered. Students will analyze the policy implications of these subjects, achieve a detailed understanding of the issues, and acquire the knowledge and insights Homeland Security managers and executives need in order to deal effectively with the cyber threats we face. This is not a tactical level technology-oriented course, but rather it provides students with a comprehensive understanding of the cyber landscape in which we must all function. A particular focus will be given to the extent that cyber means and threats have on critical infrastructure, using case studies from the transportation sector. No special technical background is required for this course. Elective course. Prerequisite of three (3) 500 level HMS courses is required. Credits: 3
On Occasion

HMS 659 Homeland Defense, Civil Support, and Transportation Security: DOD'S Role in the H.S. Enterprise
This course examines the impact of 9/11 on the Department of Defense (DOD), including the creation of new organizations and capabilities focused specifically on Homeland Defense and Defense Support of Civil Authorities. The course explores thoroughly the legal and policy foundations for the domestic employment of the active and reserve components of the U.S. military; DOD's unique roles in helping secure our Nation's transportation systems, infrastructure, and interests in the air, maritime, land, and cyber domains; and, DOD's Civil Support capabilities and processes. Also addressed is DOD's maturing Chemical, Biological, Radiological, and Nuclear (CBRN) response enterprise, as well as a range of contemporary issues affecting the security of our homeland. Case studies are used to ensure future homeland security leaders understand DOD's contributions to the Enterprise and how to both access and maximize those contributions. Elective course.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Occasion

HMS 660 Funding and Grant Evaluation
This course surveys the various funding sources available in the Homeland Security field, examining the process of grant writing and the criteria and standards used by funders to evaluate grant applications. The course also covers the reporting and auditing responsibilities involved in grants management. Elective course.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Occasion

HMS 665 Ethical Issues in Homeland Security Management
This course examines the fundamental concepts and principles of ethics and ethical behavior within the homeland security / homeland defense enterprise. It considers the core ethical concepts and values articulated by moral philosophers and thinkers throughout Western history, the ethics codes of various professions, and how these ethical principles may provide guidance in identifying and resolving the ethical dilemmas homeland security and homeland defense practitioners encounter. Taking a case study approach to examine various ethical problems, the course explores issues of moral courage, the nexus between ethics and responsible leadership, and the duty to dissent or to comply with authority. Elective course.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Occasion

HMS 670 The Economics of Terrorism and Extremism
This course focuses on the economic aspects of contemporary terrorism and extremism as well as the financing of terrorist operations. In addition to comparing the economic structures and systems of Western democracies with those of Middle East nations and examining the economic conflicts and disparities that may give rise to or exacerbate extremism and terrorism, topics include money laundering activities and the hawala remittance system. Elective course.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Occasion

HMS 675 Strategic Thinking in Law Enforcement Intelligence
This course provides participants with the concepts and practices integral to strategic thinking in law enforcement intelligence, with specific application and emphasis on the transportation security field. The roles, structures and processes of applying intelligence methods and principles to support strategic decision-making are the core of this course, and the use of intelligence methods and principles to shape enforcement, crime reduction and homeland security strategies are discussed and evaluated. The essentials of intelligence-led policing, and the processes of collection, analysis, interagency collaboration, planning and direction, tasking and coordination, and intelligence management are explored, with specific reference to transportation security. Based in a case study approach, students develop a full understanding of the application of intelligence in setting a strategic agenda for law enforcement organizations, consistent with ethical, Constitutional, and civil liberty issues. Elective course.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Occasion

HMS 680 Global Terrorism and Geopolitical Configurations
This course critically analyzes the dynamic and evolving geopolitical context of terrorism prior to and including the Modern Age of Terrorism, which began in the late 1960s and continues today. Changes in political, diplomatic, military, and/or economic alliances and policies in the United States and other nations often alter, modify, and affect the objectives of extremist groups and the terrorist acts they carry out. Particular attention is paid to perceived threats of terrorism and the geopolitical objectives of the al Qaeda network and its affiliates as their impact on the United States, Europe, and other global regions. Elective course.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Occasion

HMS 685 Securing Transportation Networks
This course provides students with the concepts and practices integral to establishing frameworks necessary to manage and mitigate threats, risks, and vulnerabilities specific to securing transportation networks. Transportation networks are of primary concern for homeland security professionals because disruptions to these networks can significantly impact life, property, and commerce. Threats to transportation networks come in the form of intentional, accidental, and natural modalities. Elective course.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Occasion

HMS 690 Post 9/11 America
The terrorist attacks of September 11, 2001 had a profound and lasting effect upon Americans' political and social behaviors as well as their belief systems and collective social conscience, and this course critically examines how those attacks have changed American public opinion and the

HMS 695 The Use of Intelligence for Homeland Defense
This course critically analyzes the dynamic and evolving geopolitical context of terrorism prior to and including the Modern Age of Terrorism, which began in the late 1960s and continues today. Changes in political, diplomatic, military, and/or economic alliances and policies in the United States and other nations often alter, modify, and affect the objectives of extremist groups and the terrorist acts they carry out. Particular attention is paid to perceived threats of terrorism and the geopolitical objectives of the al Qaeda network and its affiliates as their impact on the United States, Europe, and other global regions. Elective course.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Occasion

HMS 700 Critical Issues in Homeland Security Management
This course critically analyzes the dynamic and evolving geopolitical context of terrorism prior to and including the Modern Age of Terrorism, which began in the late 1960s and continues today. Changes in political, diplomatic, military, and/or economic alliances and policies in the United States and other nations often alter, modify, and affect the objectives of extremist groups and the terrorist acts they carry out. Particular attention is paid to perceived threats of terrorism and the geopolitical objectives of the al Qaeda network and its affiliates as their impact on the United States, Europe, and other global regions. Elective course.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Occasion

HMS 710 Weapons Of Mass Destruction
This course provides a detailed overview of current and emerging threats to homeland security posed by Weapons of Mass Destruction, including the range of chemical, biological, radiological, nuclear and explosive (CBRNE) weapons. Among the issues considered in depth are US vulnerability and feasible modes of response to WMD attacks, as well as the technology and availability of WMDs and potential scenarios for their deployment by extremist groups. Elective course.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Occasion

HMS 720 Advanced Study in Homeland Security Management
Students in this course conduct substantive independent research and research projects in the Homeland Security field under the guidance of a member of the Homeland Security Management Institute’s faculty and with the permission of the Institute’s Director. Students are expected to prepare a substantial integrative written report at the conclusion of the semester. Elective course.
Prerequisite: Permission of the Director of the Homeland Security Management Institute is required.
Prerequisite of three (3) 500 level HMS courses is required.
 Credits: 3
 On Demand
**HMS 730 Leadership in Homeland Security Management**

This course provides the necessary foundation for an understanding of leadership and challenges to its effective implementation, with a special focus on the complexity encountered in the homeland security and interagency arenas. This course will progress through a process of self-assessment, review of selected leadership models, inquiry into the intersection between recognized leadership competency components and still-emerging HLS competency components, review of the homeland security environment, examination of leadership complexity resulting from the interplay of the interagency and public/private/non-profit sectors, and examination of possible tools to improve one’s leadership competency. The aim is to provide learners the self-knowledge and resources to improve their individual leadership competency working within the complex HLS environment.

Elective course.

**Prerequisite of three (3) 500 level HMS courses is required.**

**Credits:** 3

**On Occasion**

**HMS 750 Thesis Research Consultation I**

This course prepares the student to complete the capstone thesis requirement. In consultation with a faculty member, the student will identify and develop an appropriate and policy-relevant thesis research issue in the Homeland Security field, refine that issue to distill a research question or questions, identify the sources of information and research methods suitable to complete the thesis, prepare an annotated bibliography of sources to be used, and develop and submit a comprehensive research plan in the form of a Thesis Proposal.

Note: This course is the first of a two-part sequence leading to completion of the Master of Science in Homeland Security Management program’s capstone project: an academically rigorous thesis that reflects the standards, norms, and conventions of academic research at the graduate level and advances the field of knowledge in this evolving discipline.

**Prerequisite of HMS 620 is required.**

**Credits:** 3

**Every Fall, Spring and Summer**

**HMS 760 Thesis Research Consultation II**

With the guidance and supervision of members of his or her thesis committee, the student will carry out the independent capstone research project outlined in the Thesis Proposal submitted at the conclusion of HMS 750: Thesis Research Consultation I. The thesis project will demonstrate the student’s mastery of a substantive issue in the Homeland Security Management field, as well as his or her competence in presenting the results of a substantial academic and/or policy research project in a comprehensive, cogent, and coherent written thesis. The capstone thesis will demonstrate the student’s understanding of the academic and/or policy research process, display his or her capacity to identify, assess, and review relevant literature and other sources of information, confirm his or her ability to formulate cogent research questions, and validate his or her ability to select and use appropriate research methods to explore those research questions.

Note: This course is the second of a two-part sequence leading to completion of the Master of Science in Homeland Security Management program’s capstone project: an academically rigorous thesis that reflects the standards, norms, and conventions of academic research at the graduate level and advances the field of knowledge in this evolving discipline. HMS 760 must be taken in the student’s final semester.

Note: Upon application to the program’s Director and with the consent of the Board of Advisors member concerned, students may request that a member of the Institute’s Board of Advisors serve on the student’s thesis committee in the capacity of Third Reader.

**Prerequisite of HMS 750 is required.**

**Credits:** 3

**Every Fall, Spring and Summer**
Homeland Security Management Institute
Board of Advisors

The Board of Advisors of the Homeland Security Management Institute - National Transportation Security Center of Excellence are renowned practitioner-experts in the Homeland Security / Homeland Defense field who play an integral and ongoing advisory role in our graduate programs, providing expert advice and counsel on matters of curriculum, program policies, and student affairs. Members of the Board of Advisors serve as “guest lecturers” in our online classes, and they often meet with our students and faculty to lend their expertise and to discuss homeland security issues. Members of the Board of Advisors also participate in the Institute’s lecture series and take part in conferences and meetings the Institute sponsors.

Students in the Master of Science in Homeland Security Management degree program can also request a Board of Advisors member to serve on their Thesis Committee in the capacity of Second or Third Reader.

Michael Balboni, J.D.
Former Deputy Secretary for Public Safety, New York State; Former Chair, New York State Senate Homeland Security Committee.

William J. Bratton
Vice Chair, Homeland Security Advisory Committee; Chair, Kroll; former Chief, Los Angeles Police Department; former NYPD Police Commissioner.

Vincent J. Doherty
Captain, FDNY (ret.) - Senior Fellow/Practitioner, Department of Homeland Security, Preparedness Directorate; Former Executive Officer, FDNY HazMat Unit.

Dean M. Esserman, J.D.
Chief of Police, Providence, R.I., Police Department; former Chief, Metropolitan Transportation Authority Police; former Chief, Stamford, CT Police.

Joseph Fuentes, Ph.D.
Superintendent, New Jersey State Police.

Patrick J. Harnett, FBINA
Former Chief of Police, Hartford, C.T.; Retired Chief of Transportation Bureau, NYPD. Former First Deputy Director, NY/NJ HIDTA. Management Consultant.

Jerome Hauer

Russel L. Honore, LTG (ret.) USA
Retired Commanding Officer, US First Army; former Commanding Officer, Joint Task Force Katrina; former Commanding Officer, 2nd Infantry Division.

Steve Israel
U.S. House of Representatives, Second Congressional District, N.Y.; former Member, House Appropriations Committee and former Member, House Armed Services Committee.

Peter T. King, J.D.
U.S. House of Representatives, Third Congressional District, N.Y.; Chair, House Homeland Security Committee.

Randall Larsen, COL (ret.) USAF
Chief Executive Officer, WMD Research Center; former Executive Director, Congressional Commission on the Prevention of Weapons of Mass Destruction Proliferation and Terrorism (WMD Commission); noted bioterrorism expert.

John Miller
Assistant Deputy Director of National Intelligence for Analytic Transformation and Technology; former Assistant Director of Public Affairs, FBI; former Bureau Chief, Critical Incident Management Bureau, LAPD; former Deputy Commissioner, NYPD.

Daniel T. Mullin, J.D.
Senior Director for Security, Major League Baseball.

Daniel Oates, J.D.
Chief of Police, Aurora, C.O.; Retired Chief of Intelligence Bureau, NYPD.

C. David Ruvola, Lt. Col.(ret.), USANG

Gordon J. Wasserman
International Consultant on Law Enforcement Management and Technology; former Chief of Staff, Philadelphia Police Department; former Under-Secretary of State for Police Science and Technology, British Government (Home Office). Member, House of Lords.

For more information about the Long Island University Homeland Security Management Institute, call 631-287-8010 or visit www.liu.edu/homeland.
Homeland Security Management Institute
Faculty of Senior Fellows

The Homeland Security Management Institute, a National Transportation Security Center of Excellence, boasts an unparalleled faculty of highly experienced Homeland Security professionals who hold doctoral degrees and other outstanding academic credentials. Our faculty of Senior Fellows, which includes four Fulbright Scholars, are highly experienced practitioners with exceptional academic and professional credentials who do the work they teach. In conjunction with our renowned Board of Advisors, the Institute's faculty of Senior Fellows make our graduate-level Advanced Certificate in Homeland Security Management and our Master of Science in Homeland Security Management degree the Nation's only programs that are "designed and delivered by professionals, for professionals."

W. Neal Anderson, M.A.
NORAD and USNORTHCOM, Senior Advisor to the Department of Homeland Security; Former Director of Washington Office. NORAD/USNORTHCOM; U.S. Army Colonel (ret.); Former Chief of Staff for Strategy, Plans and Policy in support of Operation IRAQI FREEDOM. Baghdad; Former China Foreign Area Officer; Former Intern, Office of the Vice-President.

Louis Barani, M.S.
Director of Security, World Trade Center, Port Authority of New York and New Jersey; Former General Manager, Security Programs, Port Authority of New York and New Jersey; Twenty-five years of private-sector experience in security risk management and critical infrastructure protection, including Homeland Security Exercise and Evaluation Program (HSEEP) exercise for U.S. military bases; former U.S. Navy, Naval Special Warfare, Naval Coastal Warfare and Naval Intelligence units.

Bruce Blakeman, J.D.
Former Commissioner of the Port Authority of New York and New Jersey, Former Vice Chairman of the Security Committee; practicing attorney and consultant with extensive experience in legal, financial, and budgetary matters in both the public and private sectors.

Judith K. Boyd, M.A., J.D.
Chief Counsel for the Minority, U.S. House of Representatives Permanent Select Committee on Intelligence. Former Deputy Associate General Counsel for Intelligence, Office of General Counsel, Department of Homeland Security; Legal Advisor to the inaugural Quadrennial Homeland Security Review; former Army Military Intelligence officer and Judge Advocate, current Deputy Staff Judge Advocate for Detainee Operations, 200th Military Police Command.

Steven P. Bucci, Ph.D.
Associate Partner and Issue Lead for Cyber, IBM Public Sector Global Business Services; Former Deputy Assistant Secretary of Defense; Former Chief of Staff to the Secretary of Defense; Retired U.S. Army Special Forces Colonel; Former Defense Attaché in Tirana, Albania and Sarajevo, Bosnia.

Brian Dietzman, M.S.
Command and Staff College, Leavenworth, KS; Former Assistant Professor, U.S. Military Academy at West Point; Adjunct Professor, George Bush School of Government and Public Service; U.S. Army Major; Recipient of numerous military medals and commendations; Deployments include Bosnia, Operation Enduring Freedom, and Operation Iraqi Freedom.

Vincent Doherty, M.A.
Director of Program Outreach, Center for Homeland Defense and Security, U.S. Naval Postgraduate School; Captain, F.D.N.Y. (ret.); Former Company Commander of Hazardous Material Company 1 and Executive Officer, HazMat Operations, Special Operations Command, F.D.N.Y.

Frederick J. Ferrer, MSSP, Ph.D. (ABD)
Director of Cyberspace and Information Decision Dominance, ARINC; Chairman, Cybersecurity Consortium, Anne Arundel county, MD; former Director, Homeland Security Initiative, Northrop Grumman Corporation; Retired U.S. Air Force, Signals Intelligence Specialist, Operational Linguist at overseas and CONUS locations; former Operations Research Analyst, U.S.A.F. Office of Special Investigations; former Senior Policy Analyst, Homeland Defense Office, Pentagon; Creator and former Director, Senior Executive Service leadership development courses, National Security Agency and Intelligence Community.

Raymond Guidetti, M.S., M.A.
Lieutenant, New Jersey State Police; Supervisory Intelligence Manager with the New Jersey Operations Intelligence Center (ROIC); Fusion Center Fellowship, D.H.S. Office of Intelligence and Analysis; Awarded the U.S. Attorney General's Award for Excellence in Furthering the Interests of U.S. National Security and the NJSP Trooper of the Year Award for his efforts as JTTF Lead Case Officer investigating the September 11, 2001 hijacking of United Airlines Flight 93 and the prosecution of ‘twentieth hijacker’ Zacarias Moussaoui.

Vincent E. Henry, CPP, Ph.D.
Director of the Homeland Security Management Institute; Retired Commanding Officer, N.Y.P.D. Police Academy's Education Support Section; former Commanding Officer, N.Y.P.D. Police Commissioner's Office of Management Analysis and Planning, Special Projects Unit. First Responder to the September 11, 2001 World Trade Center terrorist attacks. Fulbright Scholar.

J. Greg Kaufmann, M.S., M.A.
Foreign Affairs Analyst, Multinational Strategy and Programs Division, U.S. Army; Civilian Analyst, Pentagon; U.S. Army Colonel (ret.), Army Aviation; Former Special Assistant to the Chairman, NATO Military Committee; Former Board of Advisors member, Tennessee Homeland Security Consortium; Former Director and Chief of Staff, Office of the Secretary of Defense's Balkans Task Force; Senior Army Fellow at Harvard University.

Sean W. Malinowski, Ph.D.
Captain, Los Angeles Police Department; Commanding Officer, L.A.P.D. COMPSTAT; Principal Investigator, "Los Angeles Predictive Policing Project" to develop and test methodologies for deploying police resources based on sophisticated predictive analysis models; former Executive Officer, Office of the Chief, L.A.P.D.; former Executive Director, University of Illinois at Chicago Office of International Criminal Justice (OICJ), former Executive Director, Mayor's Commission on Police Integrity (Chicago); Fulbright Scholar.

Adam A. McLaughlin, M.S., M.P.A., CEM
Operations Manager, Elizabethtown Gas. Former Manager of Emergency Readiness, Office of Emergency Management, Port Authority of New York and New Jersey; Former Emergency Management Liaison for City of New Orleans following Hurricane Katrina, Louisiana State Emergency Operations Center; Former Army Intelligence Officer, 110th Military Intelligence Battalion; Featured column writer, DomesticPreparedness.com and DomPrep40 Advisory Board Member.
James F. McShane, J.D.
Assistant Vice President for Public Safety, Columbia University; retired Deputy Chief, N.Y.P.D. Narcotics Division; former Special Counsel to N.Y.P.D Police Commissioner. First Responder to September 11, 2001 World Trade Center attacks. Fulbright Scholar.

James F. Miskel, Ph.D.

BLENDED AND ONLINE LEARNING PROGRAMES AT LONG ISLAND UNIVERSITY

Technology-enhanced, blended and online learning are an important part of fulfilling Long Island University’s mission of access and excellence in higher education. These courses and programs are delivered through the University’s Blackboard Learning Management System, which enables students to complete their online coursework at any time of day and at any place in the world there is an Internet connection. LIU’s blended learning programs feature classes that include both face-to-face and online components, reducing the amount of time students need to be physically on campus while still reaping the benefit of meeting in person with professors and other professionals.

The University currently offers the following degree programs in the blended or online learning format:

Brooklyn Campus
- Advanced Certificate, Bilingual Extension*
- Advanced Certificate, Educational Leadership
- B.S. Nursing (R.N. to B.S. track)
- M.S. Adult Nurse Practitioner
- M.S. Computer Science
- M.S. Family Nurse Practitioner
- M.S. Human Resources Management
- M.S. Nurse Educator

C.W. Post Campus
- M.S. Accountancy
- M.S. Library & Information Science/School Library Media
- M.S. Nursing Education
- M.S. Taxation

LIU-Hudson Graduate Center at Westchester
- Advanced Certificate, Bilingual Extension*

LIU-Riverhead
- M.S. and Advanced Certificate in Homeland Security Management*

Our programs are accredited by the Middle States Commission on Higher Education and are registered with the New York State Education Department. For additional program information, please consult the appropriate academic department pages of the campus bulletin.

*Denotes a fully online program.

APPROVED PROGRAMS
LONG ISLAND UNIVERSITY AT RIVERHEAD

New York State Education Department Inventory of Registered Programs
Enrollment in other than registered or otherwise approved programs may jeopardize a student’s eligibility for certain student aid awards.

The administrative offices of Long Island University at Riverhead serve to facilitate the efficiency and effectiveness of Campus programs and services and to ensure the University’s mission of access and excellence for all students. The associate provost serves as the chief operating officer for the campus and is responsible for campus operations, policy development and strategic direction, academic initiatives, admissions and recruitment, retention, financial aid, student services, public safety, and communications. Supporting the associate provost are the associate dean and administrative and academic directors.
